Home Luxury Scents HLS 3500

HLS 3500 Diffuser User Manual

Model: HLS 3500 | Brand: Home Luxury Scents

Introduction

This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your Home Luxury Scents HLS 3500 Diffuser. Please read this manual thoroughly before using the product and retain it for future reference.

Safety Information

Important Safety Precautions:

- Avoid direct skin contact with undiluted essential oils.
- Keep the diffuser and essential oils out of reach of children and pets.
- Ensure proper ventilation in the area where the diffuser is used.
- Do not immerse the unit in water or any other liquid.
- Use only the power adapter supplied with the diffuser.

Product Overview

Figure 1: The HLS 3500 Diffuser. This image shows the compact, white rectangular design of the diffuser, featuring a subtle diamond pattern on its front surface and a small, square-shaped opening on the top right for mist emission.

The HLS 3500 Diffuser is designed to infuse elegance and tranquility into your space. Its sophisticated design complements various decors while effectively dispersing captivating scents.

Setup

1. **Unpack the Diffuser:** Carefully remove all components from the packaging. Ensure all parts are present: the diffuser unit and power adapter.
2. **Place the Diffuser:** Position the diffuser on a flat, stable surface away from direct sunlight, heat sources, and electronic devices. Ensure it is in a well-ventilated area.
3. **Connect Power:** Plug the power adapter into the diffuser's power input port, then plug the adapter into a standard electrical outlet.

Operating Instructions

1. **Fill with Water:** Open the diffuser's lid. Fill the water tank with clean tap water up to the 'MAX' line indicated inside the tank. Do not overfill.
2. **Add Essential Oil:** Add a few drops (typically 5-10 drops, depending on desired intensity and room size) of your preferred essential oil (e.g., lavender or citrus) directly into the water tank.

3. **Close the Lid:** Securely replace the lid on the diffuser.
4. **Turn On:** Locate the power button (or control knob/switch) and turn on the diffuser to your desired intensity setting. Refer to the specific controls on your unit for detailed operation.
5. **Enjoy:** The diffuser will begin to disperse mist and fragrance into the air.

Note: The HLS 3500 Diffuser operates via manual control and does not feature an auto-shutoff function. Monitor water levels and turn off the unit manually when the tank is empty or when not in use.

Maintenance

Regular cleaning ensures optimal performance and extends the lifespan of your diffuser.

1. **Daily Maintenance:**
    - After each use, unplug the diffuser and empty any remaining water from the tank.
    - Wipe the inside of the water tank with a clean, soft cloth.
2. **Weekly Cleaning:**
    - Unplug the diffuser.
    - Add a small amount of white vinegar (about 1 tablespoon) to the water tank and fill the rest with water.
    - Let it soak for 15-20 minutes to loosen any mineral buildup or oil residue.
    - Drain the solution and gently wipe the inside with a soft brush or cotton swab, paying attention to the ultrasonic plate.
    - Rinse the tank thoroughly with clean water and dry completely before next use.

Caution: Do not use harsh detergents, abrasive cleaners, or solvents, as these may damage the diffuser. Do not submerge the entire unit in water.

Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output	• Insufficient water in tank • Water level too high • Mineral buildup on ultrasonic plate • Lid not properly secured	• Add water to the MAX line. • Empty some water if overfilled. • Clean the ultrasonic plate as per maintenance instructions. • Ensure the lid is firmly in place.
Diffuser not turning on	• Power adapter not connected • No power from outlet	• Check power connections. • Test outlet with another device.
Unusual noise	• Insufficient water • Diffuser not on a flat surface	• Add water. • Place on a stable, flat surface.

Specifications

Brand	Home Luxury Scents
