7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted. Travel lock is activated.	Charge the shaver. Deactivate the travel lock by pressing and holding the power button for 3 seconds.

Problem	Possible Cause	Solution
Poor shaving performance / Does not cut effectively.	Foil head or cutters are dirty or dull. Hair is too long.	Clean the foil head and cutters. Consider replacing the foil head and cutters if they are dull. For longer hair, pre-trim with clippers before using the shaver.
Skin irritation or razor burn.	Incorrect shaving technique. Shaving too fast or with too much pressure.	Ensure skin is dry. Use lighter pressure and move in short, straight strokes. Try a slower speed setting.
Shaver not charging.	Cable or adapter issue. Charging port obstruction.	Ensure the USB-C cable is securely connected. Try a different USB power adapter or port. Check the charging port for debris.

If the problem persists after attempting these solutions, please contact HUMMINGBIRD customer service.
