### 3. SETUP GUIDE

---

#### 3.1 SIM Card and TF Card Installation

The Blackview Color 8 supports dual SIM cards and one TF (microSD) card simultaneously. Follow these steps to install your cards:

1. Locate the SIM card tray on the side of the phone.
2. Insert the SIM ejector tool (not included, use a thin pin) into the small hole on the tray to eject it.
3. Carefully place your Nano-SIM cards and TF card into the designated slots on the tray. Ensure the gold

contacts face downwards.

4. Gently push the tray back into the phone until it is flush with the device body.

## 3.2 Initial Power On

To power on your device for the first time:

1. Press and hold the Power button (located on the right side) until the Blackview logo appears on the screen.
2. Follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, and Google account setup.

## 3.3 Charging the Device

Before first use, it is recommended to fully charge the device.

1. Connect the USB Type-C cable to the charging port at the bottom of the phone.
2. Connect the other end of the cable to the provided power adapter.
3. Plug the power adapter into a wall outlet.
4. The charging indicator will appear on the screen. The device supports 18W fast charging.

### 50MP ISOCELL JN1

Des paysages extérieurs impressionnants aux petits détails de votre vie quotidienne, le capteur de 50MP du COLOR 8 capture tout de manière fiable. Réactif aux changements de luminosité, le capteur ISOCELL JN1 ajuste automatiquement ses paramètres de pixels. Dans des conditions lumineuses, ses petits pixels améliorent la clarté, tandis que la technologie Tetrapixel améliore la photographie dans des environnements plus sombres.

## 4. OPERATING INSTRUCTIONS

### 4.1 Basic Navigation

The Blackview Color 8 runs on Doke OS 4.0 based on Android 13. Navigation is primarily touch-based:

- **Tap:** Select an item or open an application.
- **Swipe:** Scroll through screens, lists, or content.
- **Pinch:** Zoom in or out on images and web pages.

- **Long Press:** Access contextual menus or move icons.

## 4.2 Camera Usage

The device features a 50MP ISOCELL JN1 rear camera and an 8MP ISOCELL 4H7 front camera.

1. Open the Camera application from the home screen or app drawer.
2. Select your desired mode (Photo, Video, Portrait, Night, HDR, etc.).
3. Tap the shutter button to capture a photo or start/stop video recording.
4. Use the toggle icon to switch between front and rear cameras.

### Où la Puissance ne Prend Jamais de Pause ! Batterie Mega de 6000mAh

Alimentez vos journées et vos nuits avec la méga batterie de 6000mAh. Quand vous avez besoin d'un coup de pouce, la charge rapide 18W entre en jeu, vous remettant instantanément en action. (744 heures en veille, 27 heures d'appels, 26 heures de musique, 8,5 heures de vidéo, Charge rapide de 18W)

### 4.4 Audio (Smart-K Box Speaker)

The Smart-K Box Speaker enhances audio output for music and videos.

- Adjust volume using the volume buttons on the right side of the device.
- For optimal audio experience, ensure the speaker is not obstructed.

### 4.5 Security (Fingerprint Sensor)

The device features a 2-in-1 power button and fingerprint sensor for secure unlocking.

1. Go to **Settings > Security > Fingerprint**
2. Follow the on-screen instructions to register your fingerprint.
3. Once registered, you can unlock your phone by placing your finger on the power button.

### 4.6 Connectivity

The Blackview Color 8 supports various connectivity options:

- **Wi-Fi:** Connect to wireless networks via **Settings > Network & internet > Wi-Fi**
- **Bluetooth:** Pair with other Bluetooth devices via **Settings > Connected devices > Bluetooth**.
- **GPS:** The device supports GPS, Beidou, Glonass, and Galileo for accurate location services. Ensure location services are enabled in **Settings > Location**.
- **Mobile Data:** Enable or disable mobile data via **Settings > Network & internet > Mobile network**

## 5. MAINTENANCE

### 5.1 Battery Care

To maximize battery life and performance:

- Avoid extreme temperatures.

- Do not let the battery drain completely frequently.
- Use the original charger and cable provided.
- For long-term storage, charge the device to about 50% and power it off.

## 5.2 Software Updates

Regularly check for software updates to ensure your device has the latest features and security patches.

1. Go to **Settings > System > System update**
2. Follow the on-screen instructions to download and install any available updates.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your Blackview Color 8 Smartphone.

Problem	Possible Solution
Device does not power on	Ensure the battery is charged. Press and hold the power button for at least 10-15 seconds to force a restart.
Apps are slow or crashing	Close background applications. Clear app cache (Settings > Apps > [App Name] > Storage > Clear cache). Restart the device.
Cannot connect to Wi-Fi	Ensure Wi-Fi is enabled. Restart your router. Forget the network and reconnect.
Poor camera quality	Ensure the camera lens is clean. Check lighting conditions. Update camera software if available.
Battery drains quickly	Reduce screen brightness. Close unused apps. Disable unnecessary features like GPS or Bluetooth when not in use. Check battery usage in Settings.

If the issue persists, please contact Blackview customer support for further assistance.
