User Manual

XHSESA POOL ACCESSORIES BOTTOM SEAT CAP

Model: HCDM3507

Product Overview

This manual provides essential information for the XHSESA Pool Accessories Bottom Seat Cap, designed for Intex 10139 pools and compatible models. This component is crucial for maintaining the structural integrity and stability of your pool's vertical leg structure.

Key features include:

- **Universal Compatibility:** Designed to fit Intex 10139 pools and compatible models.
- **Vertical Leg Support:** Provides a secure base for the pool's vertical leg structure.
- **Easy Installation & Maintenance:** User-friendly design for simple installation and replacement.
- **Durable Construction:** Made from ABS material to withstand outdoor conditions and prolong product life.
- **Essential Accessory:** A vital part for maintaining pool stability.

Installation

The XHSESA Pool Accessories Bottom Seat Cap is designed for straightforward replacement of existing or damaged caps. No specialized tools are typically required for installation.

1. **Preparation:** Ensure the pool leg area is clean and free of debris. If replacing an old cap, carefully remove the damaged component.
2. **Positioning:** Align the new bottom seat cap with the vertical leg of the pool frame. The cap is designed to fit snugly onto the end of the leg.
3. **Secure Attachment:** Gently push the cap onto the leg until it is fully seated and stable. Ensure it is level and provides a firm base for the pool leg.
4. **Verification:** After installation, visually inspect the cap to ensure it is securely attached and the pool leg is stable.

Figure 1: A single XHSESA Pool Accessories Bottom Seat Cap. This image shows the top view of the cap, highlighting its circular base and central cylindrical opening designed to receive the pool's vertical leg.

Figure 2: Bottom view of the XHSESA Pool Accessories Bottom Seat Cap. This perspective reveals the underside of the cap, including the central drainage or mounting hole and the reinforcing ribs that provide structural support.

Usage and Function

The primary function of the bottom seat cap is to provide a stable and protective base for the vertical support legs of your Intex 10139 pool. It helps distribute the weight of the pool evenly, preventing damage to the pool liner and the ground surface.

- **Stability:** Ensures the pool legs remain firmly in place, contributing to the overall stability of the pool structure.
- **Protection:** Protects the ends of the metal pool legs from corrosion and wear due to direct contact with the ground.
- **Ground Interface:** Creates a smooth, broad contact point with the ground, reducing the risk of the legs sinking into soft surfaces or damaging pool mats.

Figure 3: Two XHSESA Pool Accessories Bottom Seat Caps. This image displays a pair of the caps, illustrating the typical quantity provided for replacement or initial setup, emphasizing their identical design and robust construction.

Figure 4: Top view of a single XHSESA Pool Accessories Bottom Seat Cap, showing the central hole. This hole is designed for drainage or to accommodate specific pool leg designs, ensuring proper fit and function.

Figure 5: Four XHSESA Pool Accessories Bottom Seat Caps. This image shows a set of four caps, indicating that they are often used in multiples to support various pool leg configurations, highlighting their uniform appearance and design.

Maintenance

The XHSESA Pool Accessories Bottom Seat Cap requires minimal maintenance due to its durable ABS construction. However, periodic inspection is recommended to ensure optimal performance and longevity.

- **Regular Inspection:** Annually, or before and after pool season, inspect the caps for any signs of wear, cracks, or damage.
- **Cleaning:** If dirt or debris accumulates around the caps, clean them with mild soap and water. Avoid harsh chemicals that could degrade the ABS material.
- **Replacement:** If a cap shows significant signs of damage or degradation, replace it promptly to maintain pool stability and prevent further issues.

Troubleshooting

This section addresses common issues that may arise with the bottom seat caps.

Problem	Possible Cause	Solution
Cap does not fit pool leg	Incorrect model or size.	Verify that the cap is designed for Intex 10139 pools. Ensure the pool leg diameter matches the cap's opening.
Cap appears loose or unstable	Improper installation or damaged cap/leg.	Re-seat the cap firmly onto the leg. Inspect both the cap and the pool leg for any damage. Replace if necessary.
Cap shows cracks or significant wear	Prolonged exposure to elements or physical stress.	Replace the damaged cap immediately to maintain pool stability and safety.

Specifications

Attribute	Detail
Brand	XHSESA
Model Number	HCDM3507
ASIN	B0D9NKF6FR
Material	ABS
Color	Black
Shape	Round
Product Dimensions	5.9"L x 1.57"W x 7.8"H
Item Weight	0.88 ounces
Applicable Model	For Intex 10139

Warranty and Support

Information regarding product warranty and customer support is not provided within this manual. For warranty claims or technical assistance, please refer to the product packaging or contact the manufacturer, XHSESA, directly through their official channels.
