JUNICHY JS-21F

JUNICHY JS-21F Large Room Humidifier Instruction Manual

Model: JS-21F

Introduction

Thank you for choosing the JUNICHY Large Room Humidifier. This device is designed to improve air quality and comfort in your living space by adding moisture to the air. With its 2.4-gallon (9L) capacity, top-fill design, and quiet operation, it is suitable for large rooms up to 1000 sq.ft. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting.

Image 1: This image shows the JUNICHY JS-21F Humidifier operating in a spacious living room, illustrating its suitability for large areas and its extended runtime capacity of up to 90 hours and coverage up to 1000 sq.ft.

Important Safety Instructions

Please read and save these instructions before using this humidifier. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, towels, or other absorbent surfaces.
- Ensure the power cord is not pinched or placed under heavy objects.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not operate the humidifier with a damaged cord or plug.
- Keep out of reach of children and pets.
- Do not add essential oils directly into the water tank; use the designated aroma box.

- Use only clean, cool tap water. Distilled water is recommended to prevent mineral buildup.

Package Contents

Verify that all components are present:

- JUNICHY JS-21F Humidifier Unit (Base, Water Tank, Top Lid)
- Remote Control
- Instruction Manual (this document)

Product Overview

Familiarize yourself with the main components and controls of your humidifier.

Image 2: The JUNICHY JS-21F Humidifier unit and its remote control. The humidifier features a digital display, touch controls, and a visible water level window.

Main Unit Features:

- **Digital Display:** Shows current humidity, mist level, and timer settings.
- **Touch Control Panel:** Buttons for Power, Timer, Humidity, Mist/Sleep.
- **Water Level Window:** Allows visual monitoring of water level.
- **Aroma Box:** Integrated compartment for essential oils.
- **Ceramic Stone Filter:** Built-in, no replacement needed.
- **Carry Handle:** For easy handling of the water tank.

Remote Control:

The remote control provides convenient access to all humidifier functions from a distance.

Setup

Follow these steps for initial setup:

1. **Unpack:** Carefully remove all packaging materials from the humidifier, including any internal packing inside the water tank and base chamber.
2. **Placement:** Place the humidifier on a flat, stable, and waterproof surface. Ensure it is away from heat sources and direct sunlight.
3. **Fill Water Tank:**
    - Remove the top lid of the humidifier.
    - Pour clean, cool tap water directly into the water tank up to the "MAX" line. Distilled water is recommended to minimize mineral buildup.

- Replace the top lid securely.

Image 3: Demonstrates the easy top-fill design of the humidifier, allowing for convenient water replenishment.

4. **Power On:** Plug the power cord into a suitable electrical outlet. The humidifier will enter standby mode.

Operating Instructions

Power On/Off:

- Press the **ON/OFF** button on the control panel or remote to turn the humidifier on or off.

Mist Level Adjustment:

- Press the **Mist** button repeatedly to cycle through low, medium, and high mist output levels.

Automatic Mode:

- Press the **Humidity** button to activate Auto Mode. In this mode, the humidifier will automatically adjust mist levels to maintain a preset humidity level.

- You can set your desired humidity level using the **Humidity** button. The humidifier will turn on/off to maintain this level.

Image 4: Illustrates the automatic humidity adjustment feature, where the humidifier maintains desired humidity levels and can auto-shutoff.

Timer Function:

- Press the **Timer** button to set the operating time from 1 to 12 hours. The humidifier will automatically turn off after the set time.

Night Light & Sleep Mode:

- Press the **Sleep** button to activate the soothing night light and enter sleep mode, which turns off the display lights for undisturbed rest.

Image 5: Shows the humidifier operating quietly in a bedroom, emphasizing its low noise level and integrated night light feature.

Essential Oil Diffusion:

- Locate the aroma box on the humidifier.
- Add a few drops of your favorite essential oil onto the aroma pad inside the box.
- Close the aroma box. The humidifier will diffuse the scent along with the mist.
- **Note:** Do not add essential oils directly into the water tank.

Image 6: Depicts the humidifier's dual function as an essential oil diffuser, showing how to add oils to the dedicated aroma box.

Maintenance

Regular cleaning is essential for optimal performance and hygiene.

Daily Maintenance:

- Unplug the humidifier.
- Empty any remaining water from the tank and base.
- Wipe the tank and base dry with a clean cloth.

Weekly Cleaning:

- Unplug the humidifier.
- Remove the top lid and water tank.
- **Descaling:** Fill the base with 1 cup of white vinegar and let it soak for 20-30 minutes to loosen mineral buildup.
- Use a soft brush or cloth to clean the inside of the water tank and the base, paying attention to the nebulizer and water sensor.

- Rinse all components thoroughly with clean water until the smell of vinegar is gone.
- Dry all parts completely before reassembling or storing.

Storage:

- Ensure the humidifier is completely clean and dry before storing.
- Store in a cool, dry place away from direct sunlight.

Troubleshooting

If you encounter issues with your humidifier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or low mist output	Low water level Mineral buildup on nebulizer Air outlet blocked	Refill water tank Clean the nebulizer and base (refer to Maintenance) Ensure mist outlet is clear
Humidifier not turning on	Not plugged in Power outage Internal packing not removed	Check power connection Verify power supply Ensure all internal packing materials are removed
Unusual odor	Stagnant water Dirty water tank/base	Empty and refill with fresh water daily Clean the humidifier thoroughly (refer to Maintenance)
Water leakage	Tank not seated correctly Overfilled water tank	Ensure water tank is properly aligned and seated Do not fill past the "MAX" line
