XMING Xming Page One

XMING Page One Projector User Manual

Model: Xming Page One

Brand: XMING

INTRODUCTION

The XMING Page One Projector offers a high-quality visual experience with its Full HD 1080P resolution and 1000 ANSI Lumens brightness. Designed for versatility, it features advanced automatic adjustments and comprehensive connectivity options, making it suitable for various entertainment and presentation needs.

Key Features

- **High-Quality Visuals:** Full HD 1920 x 1080 resolution, 1000 ANSI Lumens, 2000:1 contrast ratio, 40 to 120-inch screen projection.
- **Advanced Focus and Correction:** Auto-focus and omni-directional automatic keystone correction for a perfectly aligned and clear picture.
- **Powerful Performance:** MT9630 CPU, 2GB RAM, 16GB EMMC storage, Google TV with Netflix support.
- **Versatile Connectivity:** Dual-band WiFi, Bluetooth 5.0, HDMI 2.1 (ARC), USB 2.0, Chromecast, automatic obstacle avoidance.
- **Elegant Design:** Dark Spring Green finish, compact (207.4 x 190.5 x 127.4 mm), 2.07 kg, quiet operation (≤ 30 dB).

WHAT'S IN THE BOX

Upon unboxing your XMING Page One Projector, please ensure all the following items are present:

- XMING Page One Projector Unit
- Power Cord
- Remote Control
- User Manual
- Warranty Card

SETUP INSTRUCTIONS

Initial Placement and Power

1. Place the projector on a stable, flat surface. For optimal projection, ensure it is positioned directly in front of the desired projection surface (wall or screen).
2. Connect the power cord to the projector and plug it into a power outlet.
3. Press the power button on the projector or remote control to turn it on. The projector will initiate its automatic focus and keystone correction.

Connectivity

The XMING Page One Projector offers various connectivity options:

- **HDMI:** Connect external devices such as laptops, gaming consoles, or TV sticks using an HDMI cable.

- **USB:** Insert a USB drive to play media files directly.
- **Wi-Fi:** Connect to your home Wi-Fi network (2.4GHz/5GHz dual-band) for internet access and streaming.
- **Bluetooth 5.0:** Pair with external Bluetooth speakers or headphones for enhanced audio.
- **Chromecast:** Wirelessly cast content from compatible devices.

OPERATING INSTRUCTIONS

Navigation and Apps

- Use the remote control to navigate the Google TV interface.
- Access pre-installed streaming apps like Netflix, YouTube, Prime Video, and Disney+.
- Utilize the Google Assistant for voice commands and content search.

Automatic Adjustments

The projector is equipped with intelligent features for optimal display:

- **Auto-Focus:** The lens automatically adjusts for a sharp image.
- **Omni-Directional Automatic Keystone Correction:** The image automatically corrects its shape to form a perfect rectangle, even if the projector is placed at an angle.
- **Automatic Obstacle Avoidance:** The projector can detect obstacles in the projection path and adjust the image to avoid them.

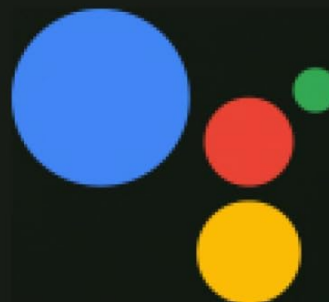

**Omni-directional
automatic correction**

**Automatic obstacle
avoidance**

Screen Mirroring

Wirelessly display content from your smartphone or tablet:

1. Ensure your mobile device and the projector are connected to the same Wi-Fi network.
2. On the projector's main menu, select the 'Screen Mirroring' option.
3. On your mobile device, activate screen mirroring (e.g., 'Screen Mirroring' on iOS, 'Smart View' on Android) and select the projector from the list of available devices.

Your browser does not support the video tag.

Digital Zoom

Adjust the screen size without moving the projector:

- Navigate to the 'Projection Settings' menu.
- Select 'Zoom' and use the remote control to adjust the image size from 50% to 100% of its original size.

MAINTENANCE

Lens Cleaning

To maintain optimal image clarity, regularly clean the projector lens using a soft, lint-free cloth. Avoid abrasive materials or harsh chemicals.

Dustproof Design

The XMING Page One features a dustproof optical design with 3 pieces of photosensitive glass, a high-transparency LCD screen, and an enclosed low-resistance circulating air duct to minimize dust accumulation and ensure longevity.

Common Issues and Solutions

- No Image/Connection Issues:**
 - Ensure all cables (HDMI, power) are securely connected.
 - Verify the correct input source is selected on the projector.
 - Check Wi-Fi and Bluetooth connections for stability.
- Unit Unresponsive/Frozen:**
 - Perform a hard reset by unplugging the power cord, waiting 10 seconds, and plugging it back in.
 - If the remote is unresponsive, try replacing its batteries.
- Image Quality Issues (Blurry/Distorted):**
 - Allow the automatic focus and keystone correction to complete.
 - Ensure the lens is clean and free of dust or smudges.
 - Check the projection distance is within the recommended range (3-16 feet).

If issues persist, please refer to the detailed troubleshooting section in the included User Manual or contact customer support.
