- A full charge takes approximately 3 hours.
- A 10-minute charge provides approximately 90 minutes of use with lights on, or 120 minutes with lights off.
- Low power reminder occurs 10-15 minutes before battery depletion.

Connecting to Devices

The Ozeino OW810 headset supports three connection modes: 2.4GHz Wireless, Bluetooth, and Wired.

Image: Diagram showing various connection methods for the Ozeino OW810 headset, including USB-A dongle for PS5/PS4, USB-C adapter for mobile/Switch, and compatibility with PC/Laptop/Mac via 2.4GHz, Bluetooth, or wired modes.

2.4GHz Wireless Mode (Recommended for PS5, PS4, PC, Mobile, Switch)

1. Ensure the headset is charged and powered on.
2. Slide the switch on the headset to the "2.4G" position.
3. For PS5/PS4/PC: Insert the USB-A 2.4GHz wireless dongle into an available USB port on your device.
4. For Mobile/Switch (with USB-C port): Insert the USB-C 2.4GHz wireless adapter into the device's USB-C port.
5. The headset will automatically connect to the dongle/adapter. An indicator light on the headset will confirm connection.
6. Adjust audio settings on your device if necessary to select the headset as the input/output device.

Bluetooth Mode (For Mac, Laptop, Mobile)

1. Ensure the headset is charged and powered on.
2. Slide the switch on the headset to the "BT" position. The headset will enter pairing mode (indicator light will flash).
3. On your device (Mac, laptop, mobile), go to Bluetooth settings and search for "Ozeino OW810" (or similar).
4. Select the headset to pair. An indicator light on the headset will confirm successful pairing.
5. *Note: Bluetooth mode does not directly support PS5, PS4, or PC for microphone functionality without an additional Bluetooth USB adapter (not included). 2.4GHz mode is recommended for these platforms.*

Wired Mode (For PC, Laptop, Mac, PS5, PS4)

1. Connect the USB-C end of the USB-C to 3.5mm audio cable to the headset's USB-C port.
2. Connect the 3.5mm jack end of the cable to the 3.5mm audio port on your device.
3. The headset will function as a wired audio device.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headset.	Headset not powered on. Incorrect connection mode selected. Volume too low on headset or device. Dongle/adapter not properly inserted or recognized. Device audio output not set to headset.	Ensure headset is powered on. Verify the 2.4G/BT switch is in the correct position. Increase volume on both headset and connected device. Re-insert the dongle/adapter. Try a different USB port. Check device audio settings and select the headset.
Microphone not working.	Microphone muted. Incorrect microphone input selected on device. Bluetooth mode used on PS5/PS4/PC without adapter.	Double click the multi-function button to unmute. Check device sound settings and select the headset microphone. Use 2.4GHz wireless mode for PS5/PS4/PC for microphone functionality.

Problem	Possible Cause	Solution
Intermittent connection or audio drops.	Out of range. Interference from other wireless devices. Low headset battery.	Move closer to the connected device (within 10m). Move away from other 2.4GHz devices (e.g., Wi-Fi routers). Charge the headset.
Headset not pairing via Bluetooth.	Headset not in pairing mode. Device Bluetooth is off.	Ensure the headset switch is on "BT" and indicator light is flashing. Enable Bluetooth on your device and search again.
