5. TROUBLESHOOTING

If you encounter any issues with your WLIVE Night Stand, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED lights not turning on or changing colors.	Power connection issue; App not connected; LED strip detached.	Ensure the power cord is securely plugged in. Verify the dedicated USB port for the LED lights is connected. Re-pair the app if necessary. If the LED strip is detached, re-adhere it securely.

Problem	Possible Cause	Solution
Devices not charging via USB ports or AC outlets.	Nightstand not powered; Device cable faulty; Overload.	Check if the nightstand's main power cord is plugged into a live outlet. Try a different charging cable or device. Avoid plugging in too many high-power devices simultaneously to prevent overload.
Nightstand is wobbly or unstable.	Uneven floor; Loose screws.	Adjust the foot pads at the bottom of the nightstand to compensate for uneven flooring. Check and tighten all assembly screws.
Fabric drawers are difficult to open/close.	Overloaded; Misaligned.	Reduce the weight or volume of items in the drawer. Ensure the drawer is properly seated within its compartment.
