6. Troubleshooting

If you encounter any issues with your Albott Nightstand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Drawers do not slide smoothly.	Misaligned drawer slides or loose screws.	Check that drawer slides are correctly installed and aligned. Tighten any loose screws on the slides or drawer components.
Charging station is not working.	Power cord not fully plugged in, or power outlet issue.	Ensure the nightstand's power cord is securely plugged into a functional wall outlet. Test the outlet with another device.
Nightstand feels wobbly.	Loose assembly fasteners or uneven floor.	Check and tighten all assembly screws. If the floor is uneven, consider placing furniture pads under the feet to level the nightstand.
Scratches or minor damage on surface.	Accidental impact or abrasive cleaning.	For minor scratches, a furniture repair marker or wax stick matching the distressed white finish may be used. Always use a soft, dry cloth for cleaning.
