OPERATING AND USAGE

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. Its robust construction ensures stability and durability.

Key Features for Usage:

- **No Box Spring Needed:** The heavy-duty metal slats provide ample support for your mattress.
- **12" Under-Bed Storage:** Utilize the generous clearance beneath the frame for storing items, helping to keep your room tidy.
- **Noise-Free Design:** Engineered with muted processing on all connecting parts and EVA mute foam on slats to prevent squeaking.
- **Anti-Collision Edges:** Protective covers on exposed sharp edges reduce impact intensity.
- **Reflective Strips:** Fluorescent strips on the legs serve as a thoughtful reminder to prevent accidental toe stubbing.

MAINTENANCE

To maintain the appearance and longevity of your Feonase bed frame, follow these simple care instructions:

- Wipe the metal frame and faux leather headboard with a dry cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish or material.
- Periodically check all bolts and screws to ensure they remain tight and secure. Retighten if necessary.

TROUBLESHOOTING

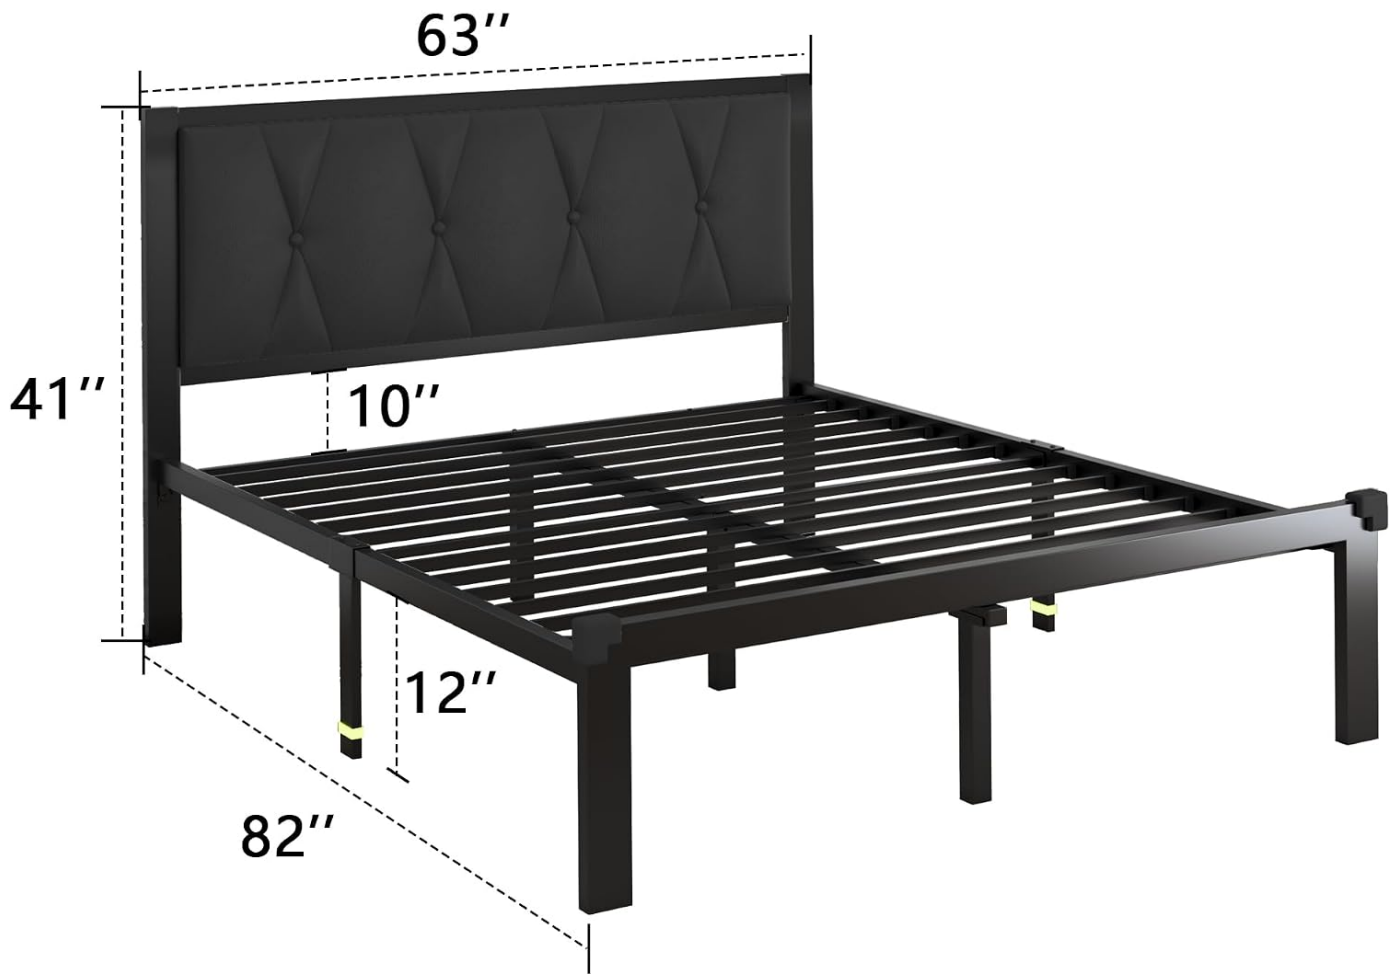

Common Issues and Solutions:

- Squeaking Noises:**
The bed frame is designed to be noise-free. If you experience squeaking, ensure all bolts and screws are fully tightened. Check that the EVA mute strips are properly placed on the slats. Over time, connections can loosen, requiring a simple retightening.
- Instability/Wobbling:**
Verify that all frame components are correctly assembled and securely fastened. Ensure the bed is placed on a flat, level surface. Check that all 9 support feet are making firm contact with the floor.
- Mattress Sliding:**
The frame has an anti-sliding design. Ensure your mattress is properly centered on the slats. If sliding persists, consider using a non-slip mattress pad between the mattress and the slats.
