3. SETUP INSTRUCTIONS

The MEGA BLOKS Build & Race Rig is designed for easy assembly and reconfiguration. Follow these steps to set up your play:

1. **Assemble the Race Cars:** Each race car consists of a chassis with wheels and a colorful car body. Snap the car bodies onto the chassis to complete the two race cars. The car bodies are interchangeable, allowing for mix-and-match customization.

2. **Prepare the Rig:** The big rig truck comes in two main sections (red cab and blue trailer). These sections can be connected or separated depending on the desired play configuration.
