SAMYBLOCKS LZ8317

SAMYBLOCKS Paris Skyline Micro Mini Blocks Architecture Building Set

Model: LZ8317

INTRODUCTION

This instruction manual provides detailed guidance for assembling your SAMYBLOCKS Paris Skyline Micro Mini Blocks Architecture Building Set, Model LZ8317. This set allows you to construct miniature replicas of iconic Parisian landmarks, including the Eiffel Tower, the Louvre, and the Arc de Triomphe, using 2462 micro-sized building blocks. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience. Due to the small size of the components, patience and attention to detail are essential.

SETUP

1. Unpacking and Inventory

Carefully open the product packaging. The set contains approximately 2462 micro-sized building blocks and an instruction manual. Verify that all bags of blocks are present. If any components appear to be missing or damaged upon initial inspection, refer to the "Troubleshooting" section.

2. Preparation of Workspace

Choose a clean, well-lit, and stable surface for assembly. Due to the small size of the blocks, it is recommended to use trays or containers to sort the pieces by color, shape, or size. This will significantly aid in locating specific blocks during the building process.

OPERATING (ASSEMBLY INSTRUCTIONS)

The assembly process is guided by the included instruction manual. Follow the steps sequentially, paying close attention to the diagrams and piece counts for each stage.

1. **Review the Manual:** Before starting, briefly review the entire instruction manual to understand the overall construction sequence and identify the major sub-assemblies.
2. **Identify Components:** Each step in the manual will illustrate the specific blocks required. Use your sorted piles to quickly find the necessary pieces.
3. **Connect Blocks:** Micro blocks connect by pressing them firmly together. Ensure each block is fully seated to create a stable structure.
4. **Layer-by-Layer Construction:** The model is built layer by layer. Verify each layer is correctly assembled before proceeding to the next.

5. **Landmark Assembly:** The set features three main landmarks:

- **Eiffel Tower:** This central structure requires careful alignment of its intricate sections.
- **The Louvre:** Assemble the detailed facade and roof elements.
- **Arc de Triomphe:** Construct the archway and its decorative features.

6. **Base Plate Integration:** Ensure all landmark sub-assemblies are securely attached to the base plate as indicated in the instructions.

If a block is misplaced or needs to be removed, use a thin, flat tool (such as a small flathead screwdriver or tweezers) to carefully pry it apart to avoid damage to the blocks or your fingers.

MAINTENANCE

Cleaning

To maintain the appearance of your assembled model, dust regularly with a soft, dry cloth or a soft-bristled brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners, as these may damage the plastic blocks.

Storage

Store the assembled model in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or warping of the plastic. If disassembling for storage, keep all blocks in sealed containers to prevent loss.

TROUBLESHOOTING

- **Missing Pieces:** If you believe you are missing pieces, first thoroughly check your workspace and packaging. Due to the small size, pieces can be easily overlooked. If pieces are genuinely missing, contact SAMYBLOCKS customer support for assistance.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. If a block is particularly stiff, try wiggling it gently while pressing. Avoid excessive force, which could damage the blocks.
- **Model Instability:** Review previous steps to ensure all blocks are firmly connected and correctly placed according to the instructions. Loose connections can lead to instability.

SPECIFICATIONS

Product Name	Paris Skyline Micro Mini Blocks Architecture Building Set
Brand	SAMYBLOCKS
Model Number	LZ8317
Number of Pieces	2462
Assembled Dimensions (Approx.)	9.49 x 2.35 x 13.78 inches (24.1 x 5.97 x 35 cm)
Item Weight	1.81 pounds (0.82 kg)
Manufacturer Recommended Age	6 years and up (Note: Due to the small size and intricate nature of micro-blocks, adult supervision or assistance may be beneficial for younger builders.)

French Landmarks

• 20.4cm/8in
