INTRODUCTION

This manual provides detailed instructions for the proper setup, operation, and maintenance of your Timex UFC Reveal TW2V85400 Men's Watch. Please read this manual thoroughly to ensure optimal performance and longevity of your timepiece.

Figure 1: Timex UFC Reveal TW2V85400 Men's Watch. This image displays the watch face with its black dial, prominent white hour markers and numerals, and the red UFC logo. The watch features a silver-tone case and a black silicone strap with a textured pattern and red accents.

SETUP

Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) out to the first position.
2. **Adjust the time:** Turn the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
3. **Push in the crown:** Once the correct time is set, push the crown back into its original position. This will start the watch movement.

Adjusting the Strap

The silicone strap is designed for comfort and durability. To adjust the fit, use the buckle to select the appropriate hole that provides a snug yet comfortable fit on your wrist. Ensure the watch is not too tight to avoid discomfort or too loose to

prevent it from rotating on your wrist.

OPERATION

Reading the Time

Your Timex UFC Reveal watch features a clear analog display with distinct hour, minute, and second hands. The dial includes both 12-hour and 24-hour markings for easy readability. The large numerals (1-12) indicate the standard hours, while smaller numerals (13-24) provide the military time equivalent.

Indiglo Night-Light Function

The watch is equipped with Timex's signature Indiglo night-light. To activate the Indiglo feature, simply press and hold the crown. The entire dial will illuminate, allowing you to read the time in low-light conditions. Release the crown to turn off the light.

MAINTENANCE

Cleaning Your Watch

- **Case and Crystal:** Wipe the watch case and crystal with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the finish.
- **Strap:** The silicone strap can be cleaned with mild soap and water. Rinse thoroughly and dry completely before wearing.

Water Resistance (WR 100M)

Your Timex UFC Reveal watch is water-resistant to 100 meters (WR 100M). This means it is suitable for showering, swimming, and snorkeling. However, it is **not** suitable for scuba diving. To maintain water resistance:

- Ensure the crown is fully pushed in before any contact with water.
- Do not operate the crown while the watch is wet or submerged.
- Avoid exposing the watch to extreme temperature changes, which can affect the water-resistant seals.

Note: Water resistance is not a permanent condition and may eventually be compromised by normal wear and tear or accidental damage. It is recommended to have the water resistance checked periodically by an authorized service center.

TROUBLESHOOTING

- **Watch is not running:**
 - Ensure the crown is fully pushed in. If it is pulled out, the watch will not run.
 - The battery may need replacement. Contact an authorized service center for battery replacement.
- **Time is inaccurate:**
 - Check if the time was set correctly. Re-set the time as per the "Setting the Time" instructions.
 - Extreme temperatures or strong magnetic fields can affect accuracy. Avoid such environments.
 - If inaccuracy persists, the movement may require servicing.
- **Indiglo light is dim or not working:**
 - This usually indicates a low battery. Replace the battery at an authorized service center.

SPECIFICATIONS

Model Number	TW2V85400
Brand	TIMEX
Movement	Quartz
Water Resistance	100 meters (WR 100M)
Case Material	Stainless Steel
Strap Material	Silicone
