5. BATTERY LIFE AND REPLACEMENT

The included CR123A lithium battery provides up to 2 years of battery life. Battery life may vary depending on usage environment and methods.

To replace the battery, carefully open the sensor casing, remove the old CR123A battery, and insert a new one, ensuring correct polarity. Close the casing securely.

6. TROUBLESHOOTING

- **Sensor not detecting motion:** Check battery level in the Eufy Security app. Ensure the sensor is placed within its effective detection range and not obstructed. Adjust sensitivity settings if necessary.
- **No notifications:** Verify the sensor is connected to the HomeBase and the HomeBase is online. Check app notification settings and your smartphone's notification permissions for the Eufy Security app.
- **False alarms:** Adjust the detection sensitivity in the Eufy Security app. Ensure the sensor is not placed in an area with frequent environmental changes (e.g., direct sunlight, drafts, moving curtains).
- **Connection issues:** Ensure the HomeBase is powered on and connected to your network. Try restarting both the sensor and the HomeBase. If issues persist, re-pair the sensor with the HomeBase via the Eufy Security app.
