EUGAD B0D9W8228X

EUGAD Bathroom Vanity Cabinet Instruction Manual

Model: B0D9W8228X

INTRODUCTION

The EUGAD Bathroom Vanity Cabinet is designed for under-sink storage, offering a blend of functionality and modern aesthetics. Constructed from high-quality E1 engineered wood with a water-resistant melamine veneer, this cabinet is built for durability and easy maintenance in bathroom environments. It features three spacious drawers and a two-tier cabinet with an adjustable shelf, providing versatile storage solutions for various bathroom essentials. The minimalist white design with linear handles complements contemporary bathroom decor.

SAFETY INFORMATION

- Ensure all components are securely fastened during assembly.
- Do not overload drawers or shelves beyond their specified weight capacity (5 kg per drawer, 10 kg per compartment).
- Place the cabinet on a level surface to prevent tipping.
- Keep small parts away from children during assembly.

PACKAGE CONTENTS

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Cabinet panels (E1 engineered wood with melamine veneer)
- 3 Drawers
- 1 Cabinet door
- Adjustable shelf
- Metal hinges
- Linear handles
- Raised metal legs
- Assembly hardware (screws, dowels, etc.)
- Assembly instructions

SETUP AND ASSEMBLY

The EUGAD Bathroom Vanity Cabinet requires assembly. Follow the included step-by-step instructions carefully. It is recommended to assemble the unit on a soft, clean surface to prevent scratches.

1. **Unpack Components:** Lay out all parts and hardware. Verify against the parts list in the manual.
2. **Assemble Frame:** Connect the side panels, back panel, and top/bottom panels using the provided hardware. Ensure all connections are tight.
3. **Install Drawer Runners:** Attach the drawer runners to the cabinet frame as indicated in the instructions.
4. **Assemble Drawers:** Construct the three drawers and install their respective runners.
5. **Install Cabinet Door:** Attach the metal hinges to the cabinet door and then to the cabinet frame. Adjust hinges for proper door alignment.
6. **Insert Adjustable Shelf:** Place the adjustable shelf into the cabinet compartment at your desired height.
7. **Attach Legs:** Secure the raised metal legs to the bottom of the cabinet.
8. **Position Cabinet:** Carefully move the assembled cabinet into its final position under the sink. Ensure the siphon cutout aligns correctly with your plumbing. The siphon cutout measures 17.5 x 10 cm.

OPERATING AND USAGE

This cabinet provides organized storage for your bathroom essentials.

- **Drawers:** Utilize the three drawers for smaller items such as toiletries, cosmetics, or cleaning supplies. Each drawer has a weight capacity of 5 kg.
- **Cabinet Compartment:** The two-tier cabinet behind the door is suitable for larger items. The internal shelf is adjustable to two positions, allowing you to customize the storage space. It can be moved up or down by 6.5 cm or removed entirely to accommodate taller items. Each compartment has a weight capacity of 10 kg.
- **Siphon Cutout:** The cabinet is designed with a specific cutout (17.5 x 10 cm) to fit around standard sink plumbing, maximizing under-sink storage.

MAINTENANCE

To maintain the appearance and longevity of your EUGAD Bathroom Vanity Cabinet:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. The water-resistant melamine veneer makes cleaning easy. Avoid abrasive cleaners or harsh chemicals.
- **Spills:** Promptly wipe up any water spills to prevent moisture damage, although the material is water-resistant.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Tighten if necessary.
- **Hinges:** The high-quality metal hinges are rust-resistant. Keep them clean and dry.

Water-resistant surface for easy cleaning.

Durable, rust-resistant metal hinges.

TROUBLESHOOTING

- **Cabinet is Wobbly:**

- Ensure the cabinet is placed on a level surface.
- Check that all assembly screws are tightened securely.
- Adjust the feet if they are uneven.

- **Drawers Do Not Slide Smoothly:**

- Verify that the drawer runners are installed correctly and are not obstructed.
- Ensure drawers are not overloaded.
- Check for any debris in the drawer tracks.

- **Door Does Not Close Properly:**

- Check hinge alignment. Adjust the screws on the hinges to fine-tune the door position.
- Ensure no items inside the cabinet are obstructing the door's closure.

- **Siphon Cutout Does Not Fit:**

- Confirm the dimensions of your sink's siphon against the cabinet's cutout (17.5 x 10 cm). If it does not fit, professional modification may be required or the cabinet may not be compatible with your sink.
