Ailltopd C5

Ailltopd Powerful Suction & Spot Remover (Model C5) Instruction Manual

Model: C5

1. PRODUCT OVERVIEW

The Ailltopd Powerful Suction & Spot Remover (Model C5) is a portable carpet and upholstery cleaning machine designed for effective spot and stain removal. It features a dual tank system to keep clean and dirty water separate, ensuring thorough cleaning. The device is equipped with powerful suction and various brush heads to tackle different types of messes on carpets, upholstery, and other fabric surfaces.

3. SETUP INSTRUCTIONS

1. **Fill the Clean Water Tank:** Remove the clean water tank (1.5L) from the main unit. Fill it with clean water up to the MAX line. If using a cleaning agent, add the recommended amount to the clean water tank. **Important: Do not exceed the MAX line, as this may affect suction performance.**
2. **Attach the Spray Hose:** Connect the spray hose securely to the designated port on the main unit.
3. **Select and Attach Brush Head:** Choose the appropriate brush head (large or small) for your cleaning task. Attach it firmly to the end of the spray hose handle.
4. **Plug In:** Plug the power cord into a suitable electrical outlet. The power cord is 5 meters long, providing ample reach.

4. OPERATING INSTRUCTIONS

The Ailltopd Spot Remover operates with a simple 3-step process: Spray, Scrub, and Suction.

1. **Power On:** Press the power button located on the main unit to turn on the device.
2. **Spray:** Position the brush head over the stained area. Press the spray trigger on the hose handle to dispense the cleaning solution onto the stain.
3. **Scrub:** Gently scrub the stained area with the brush head to agitate the stain and allow the cleaning solution to penetrate.
4. **Suction:** Release the spray trigger and firmly press the brush head against the surface. Pull the brush head slowly over the treated area to extract the dirty solution and moisture. Repeat as necessary until the stain is removed and the area is as dry as possible.

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Ailltopd Spot Remover.

1. **Empty and Rinse Tanks:** After each use, empty the dirty water tank and rinse both the clean and dirty water tanks thoroughly with clean water. Allow them to air dry before reassembling.
2. **Clean Brush Heads:** Remove the brush head from the hose handle. Rinse it under running water to remove any debris or residue. For stubborn dirt, use a small brush to clean the bristles.
3. **Clean Hose:** Periodically rinse the hose by running clean water through it.
4. **Store Properly:** Wrap the hose around the base and secure the power cord using the integrated storage hooks. Store the unit in a cool, dry place. The compact design allows for easy storage.

6. TROUBLESHOOTING

If you encounter issues with your Ailltopd Spot Remover, refer to the following common solutions:

- **No Suction:**

- Ensure the clean water tank is not overfilled (do not exceed MAX line).
- Check that both the clean and dirty water tanks are securely seated.
- Verify the hose and brush head are properly attached and free from blockages.
- Ensure the dirty water tank is not full. Empty if necessary.

- **Water Leaking:**

- Check that all tanks and connections are securely fastened.

- Inspect seals and gaskets for damage or improper seating.

- **Device Not Turning On:**

- Ensure the power cord is firmly plugged into a working electrical outlet.
- Check for tripped circuit breakers.

7. SPECIFICATIONS
