

VGR V-558

VGR V-558 Travel 2-in-1 Curling Iron and Straightener Instruction Manual

Model: V-558

Brand: VGR

1. IMPORTANT SAFETY INFORMATION

To ensure safe operation and prevent injury or damage to the appliance, please read and adhere to the following safety guidelines:

- **Keep Away From Water:** Do not use this appliance near bathtubs, showers, basins, or other vessels containing water. Never immerse the appliance in water or any other liquid.
- **Avoid Skin Contact:** The heating plates and barrel become extremely hot during use. Avoid direct contact with skin, especially the scalp, ears, and neck, to prevent burns. Use the provided heat-resistant glove when handling the hot surfaces.
- **Unplug After Use:** Always unplug the appliance immediately after use and before cleaning. Never leave it unattended when plugged in.
- **Ensure Safe Temperature Before Handling:** Allow the appliance to cool down completely before storing it or touching the heating elements. Use the heat-proof mat for safe placement during and after use.
- **Children and Individuals with Reduced Capabilities:** This appliance is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- **Power Cord:** Do not wrap the power cord around the appliance. Do not use if the cord is damaged.

2. PRODUCT OVERVIEW

The VGR V-558 is a versatile 2-in-1 hair styling tool designed for both curling and straightening. Its dual voltage capability (110~250V) makes it ideal for international travel, automatically adjusting to the local

voltage. The ceramic plates are infused with argan oil for smooth styling and reduced frizz.

3. PACKAGE CONTENTS

Your VGR V-558 package includes:

- VGR V-558 2-in-1 Curling Iron and Straightener
- European (EU) Plug Adapter
- United Kingdom (UK) Plug Adapter
- Heat-Proof Mat / Travel Case
- Heat-Resistant Glove

4. SETUP

4.1 Unboxing

1. Carefully remove the VGR V-558 styling tool and all accessories from the packaging.
2. Inspect the appliance and accessories for any signs of damage. If any damage is found, do not use the product and contact customer support.

4.2 Power Connection

The VGR V-558 features smart dual voltage technology (110~250V) for worldwide use. It can be used directly in US outlets without an adapter.

1. **For US Outlets:** Plug the appliance directly into a standard 110-120V AC outlet.
2. **For European (EU) Outlets:** Attach the European plug adapter to the appliance's plug. Ensure it is securely connected. Then, plug the adapter into a standard 220-240V AC EU outlet.
3. **For United Kingdom (UK) Outlets:** Attach the UK plug adapter to the appliance's plug. Ensure it is securely connected. Then, plug the adapter into a standard 220-240V AC UK outlet.

Comes with EU/UK Plug Adapters

"Without adapter it could be directly used in US outlets. The removable adapters are for Europe and UK respectively. No matter where you are in the world, you can style your hair effortlessly."

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Temperature Control

1. Plug the appliance into a suitable power outlet as described in Section 4.2.
2. Press and hold the power button to turn the appliance ON. The indicator light will illuminate.
3. Allow the tool to heat up. The VGR V-558 heats up quickly.
4. To adjust the temperature, use the temperature control buttons (if available, or refer to specific model instructions for temperature adjustment method).
5. **Temperature Lock Function:** Double-click the power button to lock the current temperature setting. Double-click again to unlock.
6. To turn the appliance OFF, press and hold the power button until the indicator light turns off.

5.2 Styling Hair (Curling and Straightening)

Ensure your hair is clean, dry, and detangled before styling. For best results and heat protection, apply a heat protectant spray.

For Curling:

1. Take a small section of hair.
2. Open the clamp and place the hair section between the plates, close to the roots.
3. Rotate the tool 180 degrees, wrapping the hair around the barrel.
4. Slowly glide the tool down the hair section to the ends. The integrated cooling fan helps to set the curl as you release it.
5. Repeat for all sections of hair.

For Straightening:

1. Take a small section of hair.
2. Place the hair section between the ceramic plates, close to the roots.
3. Gently clamp the plates together and slowly glide the tool down the hair section to the ends.
4. Repeat for all sections of hair until desired straightness is achieved.

5.3 Using the Silicone Sleeve for Clip

The silicone sleeve is designed to enhance the grip between the clip and the hair, which is particularly useful for fine or thin hair. This helps to prevent hair from slipping out during styling.

1. Carefully slide the silicone sleeve onto the curling iron clip.
2. When styling, ensure the hair is positioned closer to the root part of the clamp with the silicone sleeve for a tighter grip.

Silicone Sleeve for Clip

The silicone sleeve can enhance the friction between the clip and the hair, even fine thin hair can be better gripped.

When the silicone sleeve is applied, the clamp will grip your hair tighter as it gets closer to the root part of the clamp, so if you have super thin fine hair, please fit your hair at the root part of the clamp as suggested.

6. MAINTENANCE AND CARE

6.1 Cleaning

1. Always ensure the appliance is unplugged and completely cool before cleaning.
2. Wipe the ceramic plates and outer surfaces with a soft, damp cloth.
3. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and ceramic coating.
4. Ensure no moisture enters the internal components of the appliance.

6.2 Storage

1. After use, allow the appliance to cool down completely.
2. The included heat-proof mat doubles as a carrying case. You can wrap the still-warm (but not excessively hot) appliance in the mat for immediate packing.
3. Store the appliance in a dry, safe place, out of reach of children.
4. Do not wrap the power cord tightly around the appliance, as this can cause damage over time.

Comes with Heat Proof Mat Case

"Comes with a heat resistant mat that doubles as a carrying case. No need to wait for your curling iron to cool down, you can wrap it immediately after use."

7. TROUBLESHOOTING

If you encounter any issues with your VGR V-558, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on or heat up.	Not properly plugged in; power outlet issue; damaged cord.	Ensure the plug and any adapter are securely connected to a working power outlet. Check if the power cord is damaged.
International adapter not working.	Incorrect adapter for the region; adapter not fully engaged.	Verify you are using the correct EU or UK adapter for your location. Ensure the adapter is firmly attached to the appliance's plug and fully inserted into the wall outlet.
Hair is not curling/straightening effectively.	Incorrect temperature setting; hair section too large; improper technique.	Ensure the appliance has reached the desired temperature. Use smaller hair sections. Review operating instructions for proper curling/straightening technique.
Hair is pulling or slipping from the clamp.	Hair is too fine; clamp not gripping sufficiently.	Use the provided silicone sleeve on the clamp to improve grip, especially for fine hair. Ensure hair is placed correctly within the clamp.

8. SPECIFICATIONS

- **Model Number:** V-558
- **Product Dimensions:** 12 x 2 x 2 inches
- **Weight:** 1.5 Pounds

- **Brand:** VGR
- **Material:** Ceramic
- **Color:** Blue (Note: Product color may vary based on specific variant)
- **Voltage:** 110~250V (Dual Voltage)
- **Features:** 2-in-1 Curling Iron & Straightener, Argan Oil Infusion, Auto Turn Off, 360° Swivel Cord, Double-Click Temperature-Lock Functions
