USAGE INSTRUCTIONS

Applying Eau de Toilette

1. **Preparation:** For best results, apply fragrance to clean, dry skin.
2. **Application Points:** Spray the Eau de Toilette onto pulse points such as the wrists, neck, and behind the ears. These areas generate heat, which helps to diffuse the fragrance throughout the day.
3. **Distance:** Hold the bottle approximately 3-6 inches (8-15 cm) away from your skin when spraying.
4. **Avoid Rubbing:** After applying, do not rub the fragrance into your skin, as this can break down the scent molecules and alter the fragrance's longevity and character.
5. **Layering:** For a more intense and lasting scent, use the Hair + Body Shampoo from the set before applying the Eau de Toilette.

Using Hair + Body Shampoo

1. **Wet Hair and Body:** Thoroughly wet your hair and body in the shower.
2. **Apply:** Squeeze a small amount of shampoo into your palm.
3. **Lather:** Apply to your hair and body, working into a rich lather.
4. **Rinse:** Rinse thoroughly with water until all product is removed.

CARE AND MAINTENANCE

- **Storage:** Store fragrances in a cool, dry place away from direct sunlight and extreme temperatures. Heat and light can degrade the fragrance over time.
- **Cap Securely:** Always ensure the cap is securely placed on the fragrance bottle after use to prevent evaporation and maintain scent integrity.

- **Avoid Contamination:** Do not mix the fragrance with other substances or transfer it to different containers, as this can alter its composition.

TROUBLESHOOTING

Scent Not Lasting

- **Application:** Ensure you are applying to pulse points.
- **Skin Hydration:** Fragrance tends to last longer on moisturized skin. Consider using an unscented lotion before application.
- **Storage:** Verify the product is stored correctly, away from heat and light.
- **Layering:** Utilize the Hair + Body Shampoo from the set to build a stronger base for the fragrance.

Pump Not Spraying

- **Prime the Pump:** If it's the first use or if the bottle hasn't been used in a while, press the pump several times until a fine mist appears.
- **Check for Blockage:** Ensure the nozzle is not clogged. Gently wipe it with a clean, damp cloth if necessary.
