> RVONOW Floating Bed Frame Full with LED Lights - Instruction Manual

## RVONOW C362-F-BK+FH

# RVONOW Floating Bed Frame Full with LED Lights

Model: C362-F-BK+FH

## 1. INTRODUCTION

---

Thank you for choosing the RVONOW Floating Bed Frame. This manual provides detailed instructions for the assembly, operation, and maintenance of your new bed frame. Designed with a unique hidden foot structure, this full-size bed frame creates an elegant floating visual effect, complemented by integrated RGB LED lighting. It features a robust metal construction for stability and durability, ensuring a comfortable and quiet sleeping environment. Please read this manual thoroughly before assembly and use to ensure proper setup and safe operation.

## 2. SAFETY INFORMATION

Please adhere to the following safety guidelines to prevent injury or damage to the product:

- **Weight Capacity:** Do not exceed the maximum weight capacity of 800 pounds for this bed frame. Overloading can lead to structural failure and injury.
- **Sharp Edges:** Exercise caution around metal components during assembly and handling, as some edges may be sharp.
- **Proper Assembly:** Ensure all parts are correctly assembled and tightened according to the instructions. Improper assembly can lead to instability and collapse.
- **Under-Bed Clearance:** Maintain a safe distance from the bed frame, especially when it appears to be 'floating', to avoid tripping or bumping into the hidden support structure.
- **Children and Pets:** Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- **Electrical Safety:** When installing or operating the LED lights, ensure power is off and follow all electrical safety

guidelines. Do not expose LED components to water.

### 3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

- Floating Bed Frame Components (Metal frame sections, upholstered side rails)
- Hardware Kit (Screws, bolts, washers, Allen wrench)
- LED Light Strips
- Remote Control for LED Lights
- Power Adapter for LED Lights
- Installation Manual (This document)

**Full Size**

**L x W x H**  
75.6 x 53.54 x 10.6

### 4. ASSEMBLY INSTRUCTIONS

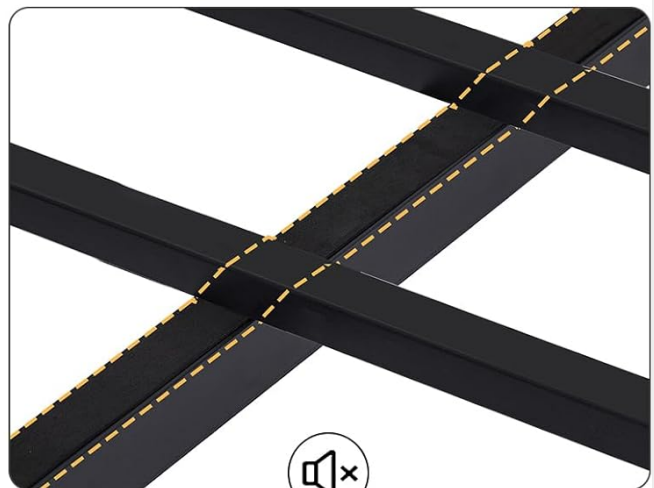

Assembly of the RVONOW Floating Bed Frame is designed to be straightforward. Follow these steps carefully for a successful setup. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Refer to the included parts diagram to identify each piece. Each part is clearly labeled.
2. **Assemble the Main Frame:** Connect the main metal frame sections using the provided hardware. Ensure all connections are secure but do not fully tighten screws until the frame is fully assembled. The U-shaped grooves facilitate easy alignment.
3. **Attach Upholstered Side Rails:** Secure the upholstered side rails to the assembled metal frame. These rails are designed to enclose the mattress, preventing slipping.
4. **Install Support Slats:** Place the metal support slats across the frame. The frame is designed with 9 metal bars and 9 metal bed legs for stable support. Ensure they are evenly spaced and secured.
5. **Final Tightening:** Once the entire frame is assembled, go back and fully tighten all screws and bolts. This ensures the frame's stability and reduces noise.
6. **Install LED Lights:** Carefully attach the RGB LED light strips to the designated areas under the bed frame. The strips are designed for easy application. Connect the power adapter.

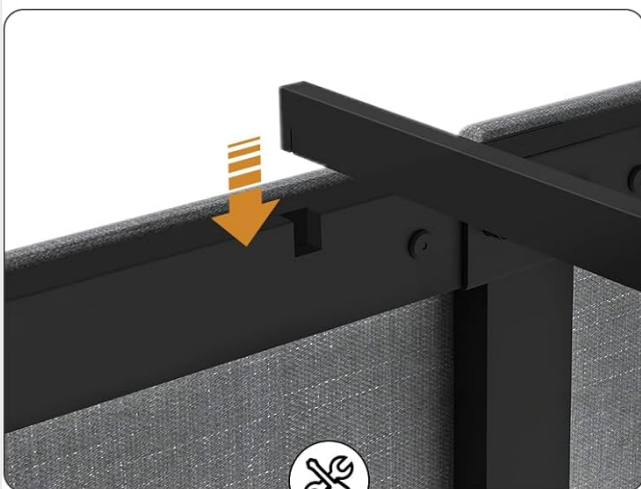

## Focus on details

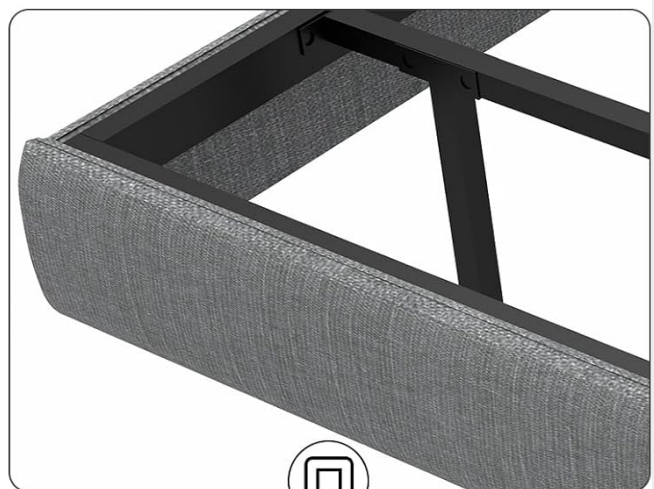

Sturdy Structure

No Squeaks

Easy Assemble

Fully Upholstered Covered

## Ensure for whole stability Even you sit on bedside

Image 4.2: The bed frame's robust construction ensures stability, even when weight is applied to the bedside.

### 5. OPERATING LED LIGHTS

The integrated RGB LED lights enhance the aesthetic appeal of your floating bed frame. Use the provided remote control to manage the lighting features.

- **Power On/Off:** Press the power button on the remote to turn the LED lights on or off.
- **Color Selection:** Choose from 12 distinct RGB colors using the color buttons on the remote.
- **Brightness Adjustment:** Adjust the light intensity with the three brightness settings available.
- **Scene Modes:** Select from four pre-programmed scene modes to create different ambiances.
- **DIY Scene Mode:** Customize your own scene mode by adjusting colors and effects to your preference.
- **Timing Function:** Utilize the automatic timer function to set the lights to turn off after a specified duration.

## 6. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the metal and upholstered surfaces with a dry, soft cloth. Avoid using abrasive cleaners or harsh chemicals, which can damage the finish or fabric.
- **Dusting:** Regularly dust the frame to prevent buildup.
- **Inspections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaks.
- **LED Lights:** Keep the LED light strips clean and free of dust. Do not attempt to repair or modify the LED components yourself.

## 7. TROUBLESHOOTING

If you encounter any issues with your RVONOW Floating Bed Frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose screws or incorrect assembly.	Ensure all screws and bolts are fully tightened. Review assembly instructions to confirm correct part placement.
Squeaking noises.	Loose connections or friction between metal parts.	Tighten all hardware. The frame is treated with EVA Silent Foam to reduce noise, but re-tightening can help.
LED lights not working.	Power connection issue, remote battery dead, or faulty LED strip.	Check if the power adapter is securely plugged in. Replace the remote control battery. Ensure LED strips are properly connected. If issues persist, contact customer support.
Mattress slides on the frame.	Mattress not properly seated or anti-slip features not effective.	Ensure the mattress is firmly embedded within the recessed design of the frame. The embedded design and anti-slipping fixtures are intended to prevent this.

## 8. SPECIFICATIONS

Detailed specifications for the RVONOW Floating Bed Frame (Full Size):

- **Model Number:** C362-F-BK+FH
- **Size:** Full
- **Product Dimensions (L x W x H):** 75.6" x 53.54" x 10.6"
- **Color:** Black Bed Frame, Gray Fabric
- **Material:** Metal, Upholstered Fabric
- **Finish Type:** Powder Coated
- **Weight Capacity:** Up to 800 pounds
- **Under-bed Clearance:** Approximately 10.6 inches
- **Special Features:** Floating Design, Integrated RGB LED Lights, No Box Spring Needed, Noise-Free Design, Under-bed Storage Space
- **Compatible Mattress Size:** 10"-14" thickness recommended
- **Assembly Required:** Yes
- **Included Components:** Floating Bed Frame, Installation Manual, LED Lights, Remote Control

## Anti-Slipping Fixtures

Embedded Design, Enclose  
the mattress to prevent  
slipping

**Ours: Bound with widened outer frame**

**Others: Regular thin frame**

Image 8.1: Anti-slipping fixtures and the robust bound outer frame design, ensuring mattress stability and overall durability.

## 9. WARRANTY AND SUPPORT

RVONOW is committed to providing high-quality products and excellent customer service. If you encounter any issues with your Floating Bed Frame, such as damage upon arrival, missing parts, or functional problems, please do not hesitate to contact us.

Our dedicated customer support team will provide the most satisfactory solution in a timely manner. Please have your purchase details and model number (C362-F-BK+FH) ready when contacting support to expedite the process.

For further assistance, please visit the official RVONOW store on Amazon or contact us through the platform where you made your purchase.

Thank you for choosing RVONOW.
