Sanorum G53

Sanorum G53 Smart Watch User Manual

Model: G53 | Brand: Sanorum

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your Sanorum G53 Smart Watch. Please read this manual thoroughly to ensure proper use and to maximize the features of your device. The Sanorum G53 Smart Watch is designed to be a versatile companion for your daily activities, offering comprehensive health monitoring and fitness tracking capabilities.

Figure 1: The Sanorun G53 Smart Watch displaying time and activity data. The watch features a round black face with a black silicone band, and a smaller inset image shows a call notification on the watch face.

SETUP

1. App Installation

To unlock the full potential of your Sanorun G53 Smart Watch, you must install the companion application on your smartphone. Search for either **DekeFit** or **GloryFit** in your device's app store (Google Play Store for Android or Apple App Store for iOS).

Figure 2: Icons for the DekeFit and GloryFit applications, which are compatible with the Sanorun G53 Smart Watch.

2. Device Pairing

1. Open the installed app (DekeFit or GloryFit) on your smartphone.
2. Navigate to the 'Device' section within the app.

3. Tap on 'Add a new device' to begin the pairing process. Ensure your watch is powered on and close to your phone.

Figure 3: Screenshot of the app interface, highlighting the 'Add a new device' button for initiating the pairing process.

4. From the list of found devices, select 'G53 Smartwatch' to connect.

Figure 4: Screenshot of the app displaying the 'G53 Smartwatch' as a selectable option for connection.

5. Confirm the Bluetooth pairing request on your phone when prompted.

3. Charging the Device

The Sanorum G53 Smart Watch features a magnetic charging port on its rear. Connect the provided charging cable to the watch, ensuring the pins align correctly. Connect the other end of the cable to a USB power source (e.g., computer USB port, wall adapter). A full charge typically provides up to 7 days of heavy use, 14 days of daily use, or 30 days of standby time.

Figure 6: The smartwatch screen indicating a full 100% battery charge, emphasizing its multi-day battery life.

OPERATING INSTRUCTIONS

1. Navigating the Interface

The Sanorum G53 Smart Watch features a responsive touchscreen and a side button for navigation. Swipe left/right or up/down to access different screens and menus. Press the side button to return to the home screen or to wake the device.

2. Customization

- **Watch Faces:** Personalize your watch by choosing from over 400 DIY watch faces available through the app. You can also upload your own photos.

DIY and 400 dials, choose
your favourite style

Figure 7: A collection of diverse watch faces, including photo customization options, demonstrating the watch's personalization features.

- **Brightness:** Adjust screen brightness for optimal visibility in various lighting conditions via the settings menu.
- **Themes:** Select different display themes (e.g., List, Nest, Spin) to change how app icons and menus are presented.

3. Core Features

- **Call & Messaging:** Answer/make calls directly from your watch when connected via Bluetooth. Receive social media notifications and text messages.

Figure 8: The smartwatch showing an incoming call and various social media application notifications.

- **Health Tracking:** Monitor your heart rate, sleep patterns (deep, light, awake), SpO2 (blood oxygen) levels, and daily steps. The watch also includes women's health tracking features.

24/7 Health Track More Care On Women

Figure 9: A detailed view of the smartwatch's health tracking capabilities, including sleep analysis, heart rate, blood oxygen, and a women's health calendar.

- **Fitness Modes:** Choose from over 70 sports modes to accurately track your workouts, including running, cycling, yoga, and more. The watch records calories burned, step count, and distance.

MAINTENANCE

1. Water Resistance

The Sanorum G53 Smart Watch is 5ATM waterproof, meaning it can withstand pressures equivalent to a depth of 50 meters. This makes it suitable for swimming and showering, but it is not recommended for diving or high-pressure water activities. Always ensure the watch is dry before charging.

Figure 13: The smartwatch being splashed with water, illustrating its IP68 waterproof capability.

2. Cleaning

Regularly clean your watch and band with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the device. Ensure the charging contacts are clean and dry.

TROUBLESHOOTING

- **Connectivity Issues:** If the watch fails to connect to Bluetooth, ensure Bluetooth is enabled on your phone, the app is open, and the watch is within range. Try restarting both the watch and your phone. Verify app permissions for Bluetooth access.
- **Tracking Inaccuracies:** Ensure the watch is worn snugly on your wrist. For activity tracking, calibrate the app settings if discrepancies are noted.
- **Charging Problems:** Check if the charging cable is securely connected to both the watch and the power source. Ensure the charging contacts on the watch are clean and free of debris.
- **Software Glitches:** If the watch exhibits unexpected behavior (e.g., random app changes, screen lines), try performing a factory reset through the watch's settings menu.
