1. INTRODUCTION

Thank you for purchasing the Thermos JEE-550 Soup Lunch Set. This manual provides essential information for the safe and effective use, maintenance, and care of your new lunch set. Please read these instructions thoroughly before first use and retain them for future reference.

2. PRODUCT OVERVIEW

The Thermos JEE-550 Soup Lunch Set is designed for convenient transport and enjoyment of both hot and cold meals. It includes an insulated soup jar, a food container, and a dedicated insulated pouch.

Components:

- **Insulated Soup Jar:** Features a stainless steel vacuum insulation structure for superior heat and cold retention.
- **Food Container:** Suitable for side dishes, rice, or pasta.
- **Insulated Pouch:** Enhances heat/cold retention and provides convenient carrying. Includes a back pocket for cutlery.

Image 2.4: Features of the insulated pouch, including its machine washable design and back pocket.

Key Features:

- **Dishwasher Safe:** All soup jars and containers are dishwasher safe for easy cleaning.
- **Excellent Insulation:** Designed to keep food hot or cold for extended periods.
- **Compact Design:** The insulated pouch allows for easy portability.

3. SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, wash the soup jar, food container, and their lids thoroughly with warm water and mild dish soap. Rinse completely. The insulated pouch can be wiped clean or machine washed (refer to care instructions).
3. **Drying:** Ensure all parts are completely dry before assembly or storage.

4. OPERATING INSTRUCTIONS

Using the Soup Jar:

1. **Pre-heating/Pre-cooling (Recommended):** For best results, fill the soup jar with hot water (for hot food) or cold water (for cold food) for 5-10 minutes. Empty the water before adding your meal.
2. **Filling:** Pour your hot soup or cold dessert into the soup jar. Do not overfill; leave a small space below the lid to prevent spills and ensure proper sealing.
3. **Sealing:** Securely attach the inner lid, then the outer lid, ensuring a tight seal to maintain temperature.

Using the Food Container:

1. **Filling:** Place your side dishes, rice, or pasta into the food container.
2. **Sealing:** Securely attach the lid to the food container.
3. **Microwave Use:** The food container (main body and lid) is microwave-safe. *Note: Do not microwave the soup jar or its lids.*

Assembling the Lunch Set:

1. Place the filled soup jar and food container into the insulated pouch.
2. Zip the pouch closed to maximize insulation and secure the contents.
3. Utilize the back pocket of the pouch for storing cutlery (sold separately).

5. MAINTENANCE AND CARE

Cleaning the Soup Jar and Food Container:

- **Dishwasher Safe:** The soup jar (body and lids) and food container (body and lid) are dishwasher safe. Place them on the top rack for best results.
- **Hand Washing:** For hand washing, use a soft sponge or brush with mild dish soap and warm water. Rinse thoroughly.
- **Drying:** Ensure all parts are completely dry before storing to prevent odors or mold.

Cleaning the Insulated Pouch:

- The pouch is machine washable. Use a gentle cycle with cold water and mild detergent.
- Air dry completely. Do not tumble dry.
- Do not use bleach or harsh cleaning agents.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Food does not stay hot/cold.	Lid not sealed properly; no pre-heating/pre-cooling; extreme ambient temperature.	Ensure lids are tightly sealed. Pre-heat/pre-cool the jar before use. Use the insulated pouch.
Lids are difficult to open.	Vacuum pressure buildup (especially with hot contents); food residue.	Allow contents to cool slightly before opening. Clean lids thoroughly.
Unpleasant odor inside jar/container.	Improper cleaning; food residue left for too long.	Wash immediately after use. Use a mixture of baking soda and water to soak, then rinse thoroughly. Ensure complete drying.

7. SPECIFICATIONS

Feature	Detail
