Hocosyme JZ-WF-600W

Hocosyme JZ-WF-600W Infrared Heating Mirror User Manual

Model: JZ-WF-600W

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, installation, and maintenance of your Hocosyme JZ-WF-600W Infrared Heating Mirror. Please read this manual thoroughly before using the product and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

Failure to follow these safety instructions may result in electric shock, fire, or personal injury. Always exercise caution when operating electrical appliances.

- Ensure the product is installed by a qualified professional in accordance with local electrical codes.
- Do not operate the heater with a damaged cord or plug, or after the heater malfunctions or has been dropped or damaged in any manner.
- This appliance is designed for indoor use only, specifically in bathrooms.
- The product features 100% flame-retardant materials and a flame-retardant aluminum plate on the back for enhanced safety.
- Equipped with double overheating protection to prevent hazards.
- The product has an IP54 rating, indicating protection against dust and splashing water. However, do not immerse the unit in water.
- Keep flammable materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the heater and away from the sides and rear.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
- Unplug the heater when not in use.

PRODUCT FEATURES

- **Graphene Electric Heating Technology:** Utilizes advanced graphene technology for efficient heating and reduced power consumption.
- **Rapid Heating:** Heats up to 248°F (120°C) within 3 minutes, providing quick warmth.
- **Infrared Heating:** Provides a healthy form of heating by directly warming objects and surfaces without creating air circulation, beneficial for allergy sufferers.

- **Dual Functionality:** Serves as both a functional mirror and an infrared heater.
- **Wall-Mounted Design:** Space-saving and easy to integrate into bathroom decor.
- **APP Control & Wireless Thermostat:** Allows remote control and precise temperature management via a smartphone application and included wireless thermostat.
- **Weekly Timer:** Programmable 7x24 timer for automated operation.
- **Safety Features:** Constructed with 100% flame-retardant materials, features a flame-retardant aluminum plate, and double overheating protection.
- **IP54 Waterproof Rating:** Suitable for bathroom environments, protected against splashing water.

SETUP AND INSTALLATION

1. Unpacking

Carefully remove the heating mirror and all components from the packaging. Inspect for any damage. Retain packaging for future transport or storage.

2. Components Included

- Hocosyme Infrared Heating Mirror
- Wireless Thermostat
- Installation materials (screws, wall anchors, mounting brackets)
- 1.8m power cable
- User Manual

3. Wall Mounting

The Hocosyme Infrared Heating Mirror is designed for wall-mounted installation. Ensure the chosen location in your bathroom is suitable, away from direct water spray, and has access to a 110V power outlet. It is recommended to have this installed by a qualified electrician.

1. Measure and mark the desired position for the mirror on the wall. Consider the approximate dimensions of the mirror (100cm width x 60cm height).
2. Using the provided installation materials, securely attach the mounting brackets to the wall. Ensure they are level and capable of supporting the mirror's weight (29.1 pounds).
3. Carefully lift the mirror and hook it onto the installed wall brackets. Ensure it is firmly seated and stable.
4. Connect the 1.8m power cable to a grounded 110V electrical outlet.

OPERATING INSTRUCTIONS

1. Power On/Off

Once properly installed and plugged in, the heater can be powered on using the wireless thermostat or the connected smartphone application.

2. Wireless Thermostat Operation

The included wireless thermostat allows for direct control of the heating mirror. Refer to the thermostat's specific instructions for detailed button functions (e.g., temperature adjustment, mode selection).

3. APP Control (TUYA Smart)

For remote control and advanced features, download the TUYA Smart application on your smartphone. Follow the in-app instructions to connect the infrared heating mirror to your mobile phone and Wi-Fi network.

- Download the "TUYA Smart" app from your device's app store.

- Register or log in to your TUYA Smart account.
- Add a new device and follow the pairing instructions for the heating mirror.
- Once connected, you can remotely adjust temperature, set timers, and monitor the heater's status.

Image: The Hocosyme Infrared Heating Mirror shown with its accompanying wireless thermostat and a smartphone displaying the TUYA Smart application for remote control.

4. Weekly Timer Function

The heating mirror supports a 7x24 weekly timer function. This can be configured via the TUYA Smart app to schedule heating periods according to your preferences, optimizing energy usage.

5. Anti-Fog Feature

The infrared heating element prevents the mirror surface from fogging up, even in humid bathroom conditions. This ensures a clear reflection at all times.

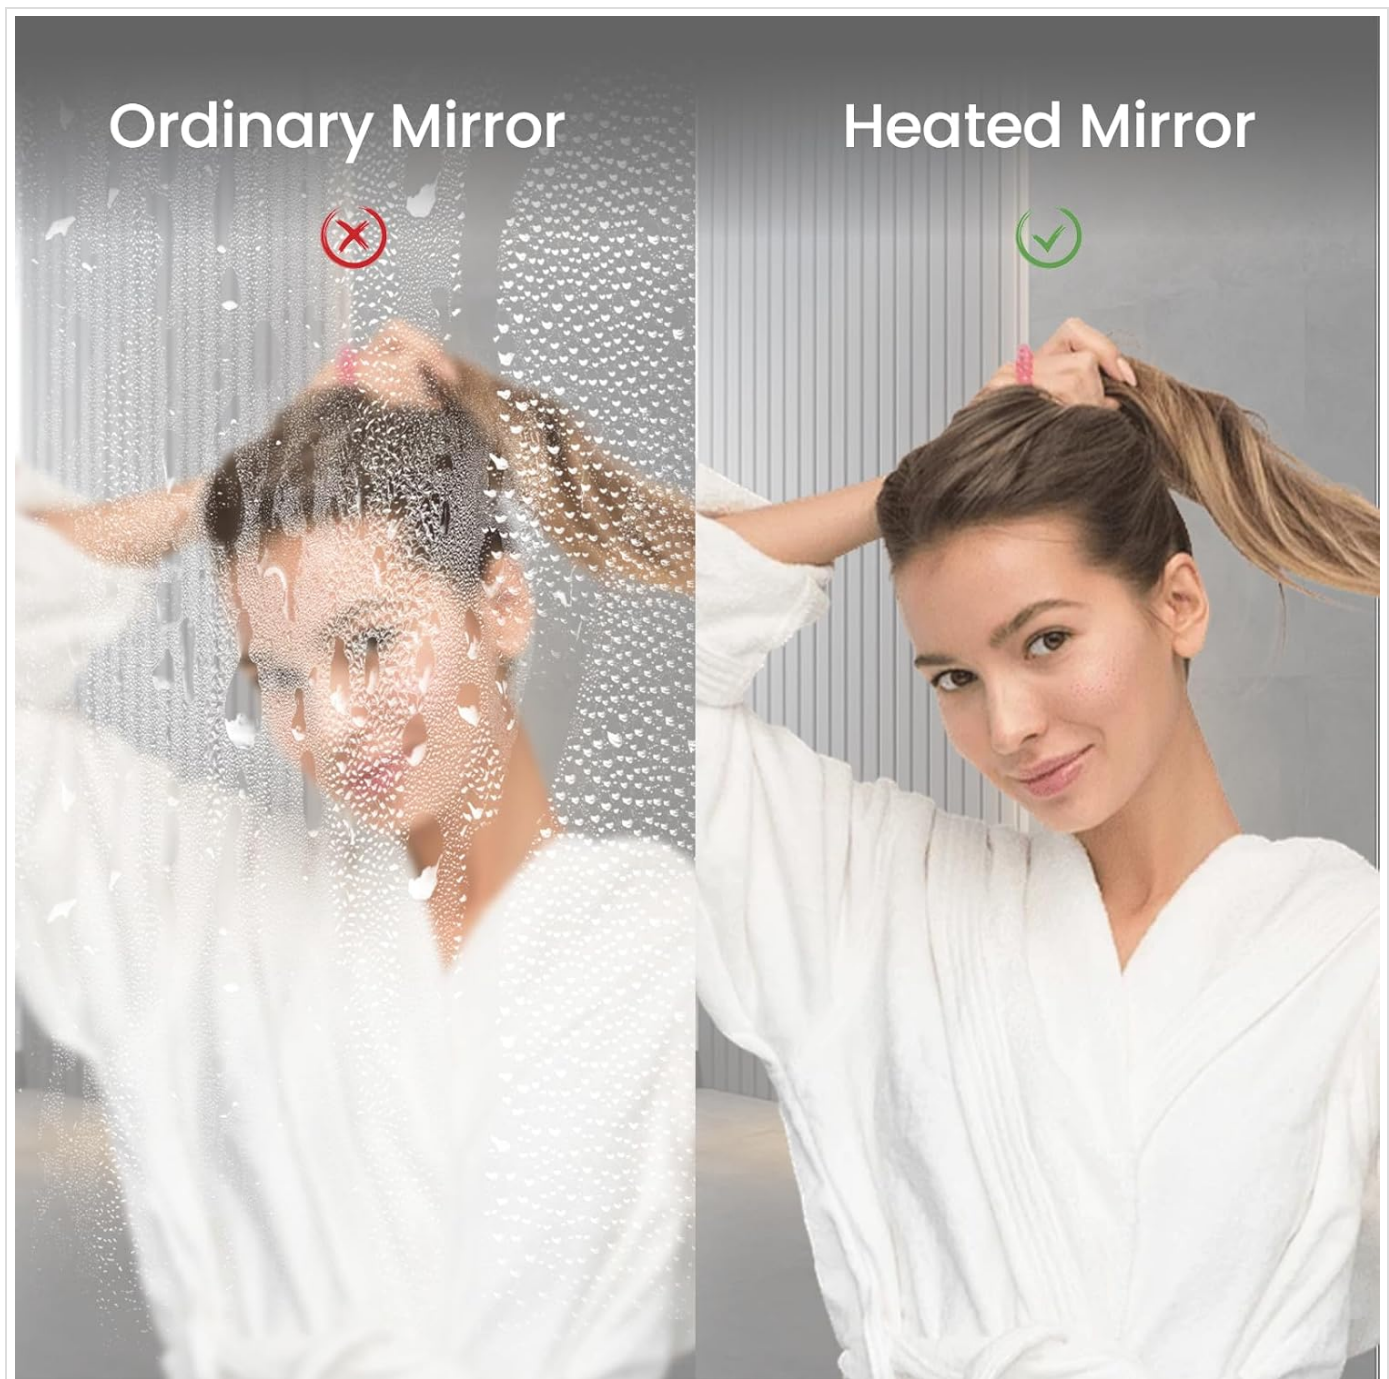

Image: A side-by-side comparison demonstrating how an ordinary mirror fogs up in a humid environment, while the heated mirror remains clear.

MAINTENANCE

1. Cleaning the Mirror Surface

To clean the mirror surface, use a soft, damp cloth and a mild glass cleaner. Do not use abrasive cleaners or harsh chemicals, as these may damage the mirror coating. Ensure no liquid enters the electrical components.

2. General Care

Regularly inspect the power cord and plug for any signs of damage. Keep the area around the heater clear of dust and debris to ensure optimal performance and safety.

TROUBLESHOOTING

If you encounter issues with your Hocosyme Infrared Heating Mirror, please refer to the following common solutions:

- **Heater Not Turning On:**

- Check if the power cord is securely plugged into a working 110V outlet.
- Ensure the circuit breaker has not tripped.
- Verify the wireless thermostat or app is set to an "On" state and the desired temperature is above the current room temperature.

- **Insufficient Heating:**

- Confirm the thermostat setting is appropriate for the room size and desired warmth.
- Ensure no objects are obstructing the mirror's heating surface.
- Note that infrared heaters warm objects and people directly, rather than heating the air like conventional heaters.

- **APP Connectivity Issues:**

- Ensure your Wi-Fi network is active and the signal strength is adequate in the bathroom.
- Restart your router and try reconnecting the device through the TUYA Smart app.
- Verify that the app is updated to the latest version.

- **Mirror Fogging:**

- Ensure the heater is powered on and operating. The anti-fog function relies on the heating element.

If the problem persists after attempting these solutions, please contact customer support.

SPECIFICATIONS

Brand	Hocosyme
Model Number	JZ-WF-600W
Power Output	600W
Voltage	110 Volts
Approximate Width	39.37 inches (100cm)
Approximate Height	23.62 inches (60cm)
Thickness	0.86 inches
Mounting Type	Wall Mount
Room Type	Bathroom
Special Feature	Overheat Protection
IP Rating	IP54
Item Weight	29.1 pounds
Certifications	TÜV, GS

WARRANTY AND SUPPORT

Your Hocosyme Infrared Heating Mirror is backed by comprehensive support and warranty:

- **Manufacturer's Warranty:** A 10-year warranty covers manufacturing defects.
- **Returns Policy:** Enjoy 90-day free returns.
- **Money-Back Guarantee:** A 3-hour money-back guarantee is provided.
- **Replacement Policy:** If the product is damaged within one year of purchase, it will be replaced with a new one immediately.

For technical assistance, warranty claims, or any other inquiries, please contact Hocosyme customer support through the retailer where the product was purchased or refer to the contact information provided on the product packaging or official website.
