SURFOU SLT-001-BXG

SURFOU Kitchen Faucet User Manual

Model: SLT-001-BXG | Brand: SURFOU

1. INTRODUCTION

Thank you for choosing the SURFOU Kitchen Faucet. This modern and stylish faucet, made from durable stainless steel, is designed to enhance your kitchen experience with its convenient features. It includes a pull-out sprayer, 360-degree rotation, and multiple spray modes, making daily kitchen tasks easier and more efficient. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your faucet.

2. SAFETY INSTRUCTIONS

- Always turn off the main water supply before beginning any installation or maintenance work.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure all connections are secure and watertight to prevent leaks.
- Do not overtighten nuts or connections, as this can damage the faucet or plumbing.
- If you are unsure about any step, consult a qualified plumber.
- Keep small parts out of reach of children.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning installation:

- SURFOU Kitchen Faucet Body with Pull-Out Sprayer
- Mounting Hardware (nuts, washers, gaskets)
- Hot and Cold Water Supply Hoses (60 cm length)
- Counterweight for Pull-Out Hose
- User Manual (this document)

4. SETUP AND INSTALLATION

The SURFOU kitchen faucet is designed for easy single-hole installation. Follow these steps carefully:

- 1. Prepare the Sink:** Ensure the sink hole is clean and free of debris. The faucet requires a standard single-hole opening.

2. **Install the Faucet Body:** Insert the faucet body into the sink hole. Ensure the base gasket is properly seated to prevent leaks.
3. **Secure the Faucet:** From underneath the sink, slide the rubber washer, metal washer, and mounting nut onto the threaded shank of the faucet. Tighten the mounting nut securely using a basin wrench or appropriate tool.
4. **Connect Water Supply Hoses:** Attach the hot and cold water supply hoses (60 cm) to the corresponding inlets on the faucet body. Connect the other ends of the hoses to your hot and cold water supply lines. Ensure connections are hand-tight, then use a wrench for a final quarter-turn to secure.
5. **Install the Counterweight:** Attach the counterweight to the pull-out hose, typically at a point that allows the sprayer to retract smoothly and fully. This usually involves clipping it onto the hose.
6. **Test for Leaks:** Slowly turn on the main water supply. Check all connections for any signs of leaks. If leaks are present, tighten the connections slightly until they stop.
7. **Flush the System:** Remove the sprayer head and turn on the water to flush out any debris from the lines. Let the water run for a few minutes, then reattach the sprayer head.

the sink. This image highlights the secure fastening of the faucet to the countertop.

Figure 4.2: Detailed diagram displaying the key dimensions of the SURFOU kitchen faucet, including height, spout reach, and hose length, essential for planning installation space.

5. OPERATING INSTRUCTIONS

Your SURFOU kitchen faucet offers versatile functionality for various kitchen tasks.

5.1 Water Flow and Temperature Control

The single lever handle controls both water flow and temperature:

- **Flow Control:** Lift the handle upwards to increase water flow. Push it downwards to decrease or turn off the flow.
- **Temperature Control:** Move the handle to the left for hot water and to the right for cold water. Adjust the position to

achieve your desired temperature.

Flexible Temperatur-Einstellungen

Figure 5.1: This image illustrates the 360-degree swivel capability of the faucet and the range of motion for the single lever handle to control water temperature from cold (blue) to hot (red).

5.2 Pull-Out Sprayer and Spray Modes

The pull-out sprayer provides extended reach and flexibility:

- **Pull-Out Function:** Gently pull the sprayer head downwards to extend the hose. The hose can extend up to 40 cm, allowing you to reach all corners of your sink or fill large containers.
- **Automatic Retraction:** After use, the sprayer head automatically retracts back into the faucet spout thanks to the counterweight on the hose.
- **Spray Modes:** The sprayer head features buttons to switch between different water flow modes:
 - **Stream Mode:** Provides a steady, aerated stream for filling pots and general washing.
 - **Spray Mode:** Delivers a powerful, wide spray for rinsing dishes and cleaning the sink.
 - **Pause Function:** Temporarily stops water flow directly from the sprayer head, useful for moving the sprayer without

splashing or when filling a container away from the sink.

Wenn nach unten gezogen, wird der Schlauch freigelegt, um die Länge zu erhöhen, was das Geschirrspülen und die Essensvorbereitung zum Kinderspiel macht.

Figure 5.2: A user demonstrating the extended reach of the pull-out sprayer, showing it being used to rinse items in a large sink basin, highlighting its flexibility.

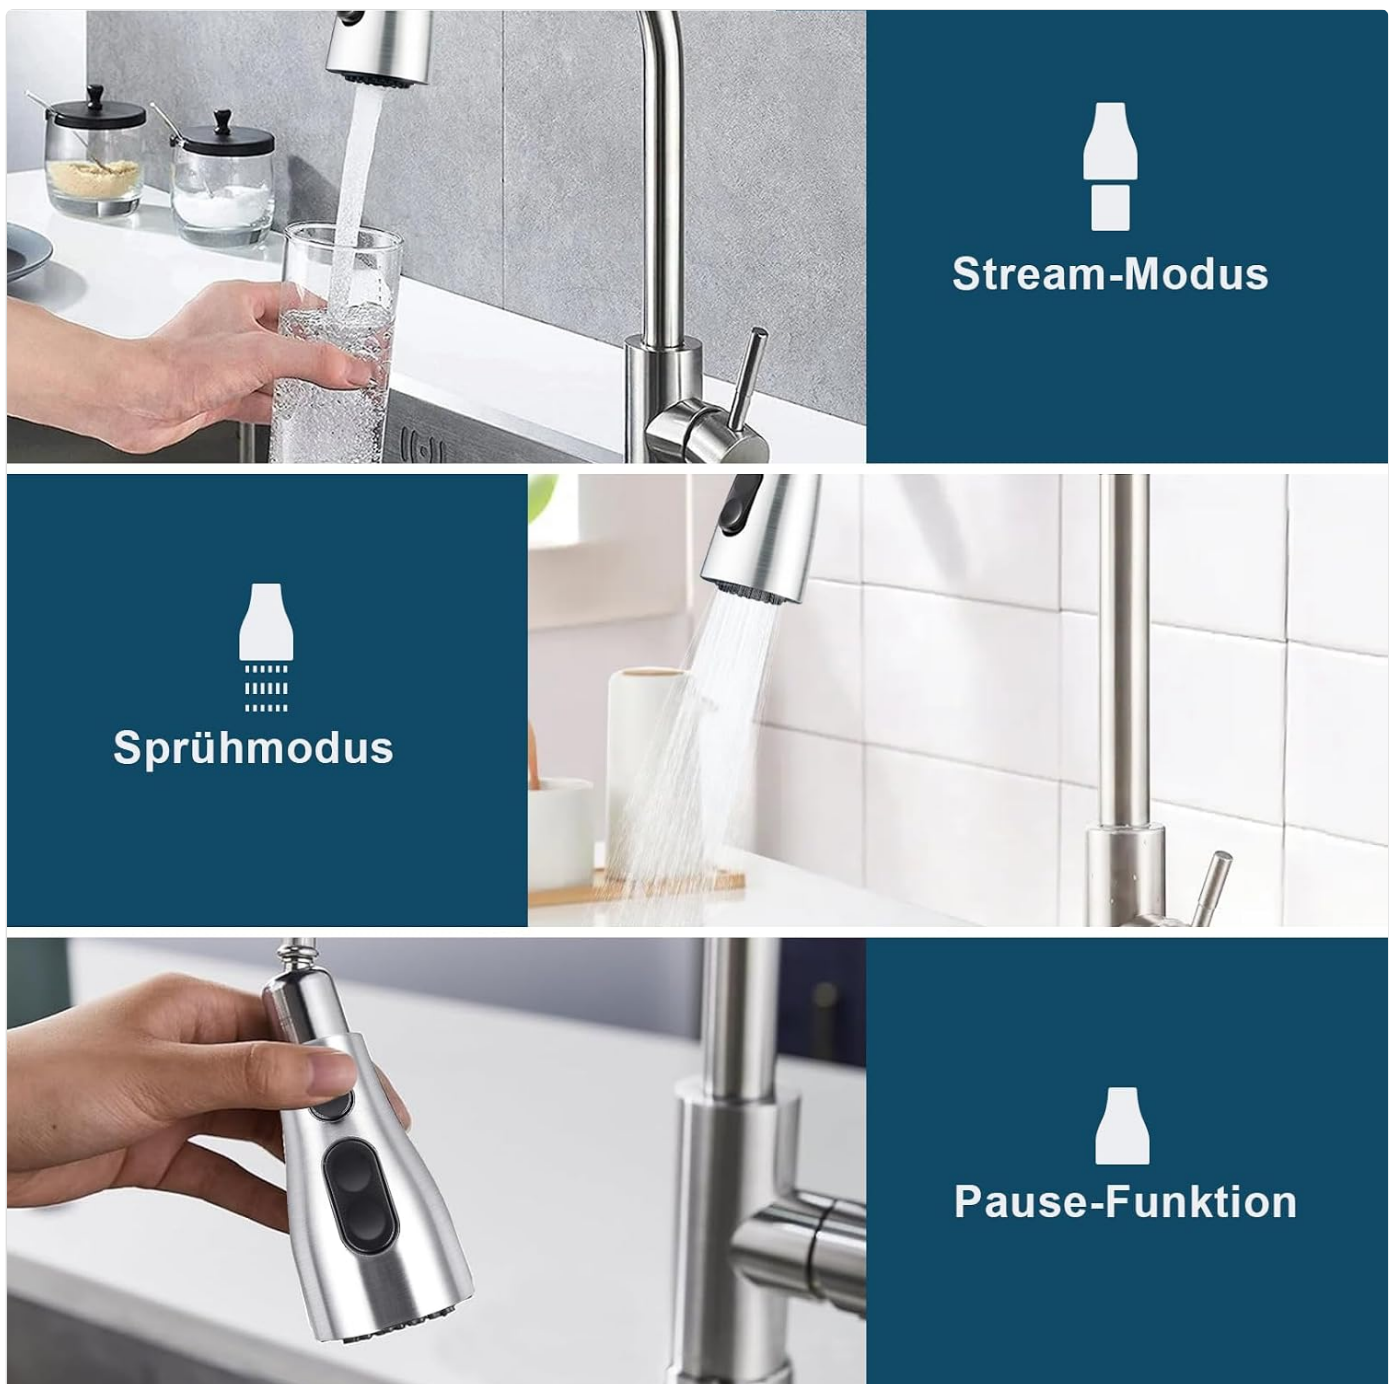

Figure 5.3: This composite image illustrates the three distinct spray modes available on the faucet's pull-out head: a steady stream, a wide spray, and the convenient pause function.

6. MAINTENANCE AND CARE

Proper care will ensure your SURFOU kitchen faucet remains in excellent condition and functions optimally for years.

- **Regular Cleaning:** Clean the faucet regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the stainless steel finish.
- **Spot Removal:** For water spots or fingerprints, wipe the faucet with a damp cloth and then dry immediately with a clean, soft cloth to prevent streaking.
- **Aerator Cleaning:** If water flow becomes restricted, the aerator (at the tip of the sprayer head) may be clogged with mineral deposits. Unscrew the aerator, clean it with a brush under running water, and soak it in a vinegar solution if necessary to remove stubborn deposits. Rinse thoroughly before reattaching.
- **Hose Maintenance:** Periodically check the pull-out hose for any kinks or wear. Ensure the counterweight moves freely and does not obstruct the hose's movement.

7. TROUBLESHOOTING

If you encounter any issues with your faucet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves; debris in water lines.	Clean the aerator. Ensure shut-off valves are fully open. Flush water lines.
Leaks from Faucet Base	Loose mounting nut; improperly seated gasket.	Tighten the mounting nut. Check and reposition the base gasket.
Leaks from Sprayer Head	Loose connection; damaged O-rings.	Ensure sprayer head is tightly screwed onto the hose. Inspect and replace O-rings if damaged.
Sprayer Does Not Retract Fully	Counterweight improperly positioned or obstructed; kinked hose.	Adjust the counterweight position. Clear any obstructions. Straighten the hose.
Water Temperature Issues	Incorrect hot/cold supply connections; water heater issues.	Verify hot and cold lines are connected correctly. Check water heater settings.

8. SPECIFICATIONS

Feature	Detail
Brand	SURFOU
Model Number	SLT-001-BXG
Item Weight	2 Kilograms
Package Dimensions	54 x 26 x 6 cm
Color	Silver
Style	Contemporary
Finish	Stainless Steel
Material	Stainless Steel
Installation Method	Single Hole (Deck Mount)
Number of Items	1
Number of Holes Required	1
Handle/Lever Placement	Central
Number of Handles	1
Handle Material	Stainless Steel

Feature	Detail
Special Features	Pull-out Sprayer, Pause Button, 360° Swivel
Included Components	Instruction Manual
Batteries Required?	No
Recommended Product Use	Kitchen
Hose Length	60 cm (Supply Hoses), 40 cm (Pull-out Sprayer Extension)

9. WARRANTY INFORMATION

SURFOU stands behind the quality of its products. For specific warranty terms and conditions, please refer to the warranty card included with your purchase or visit the official SURFOU website. Please retain your proof of purchase for any warranty claims.

10. CUSTOMER SUPPORT

If you have any questions, require assistance with installation, or need troubleshooting support that is not covered in this manual, please contact SURFOU customer service. Contact details can typically be found on the product packaging or the official SURFOU website.
