SETUP AND INSTALLATION

Inserting the TF Card

The SYMYNELEC TF card is compatible with a wide range of devices including smartphones, tablets, cameras, dash cams, and PCs. To install, locate the memory card slot on your device. Gently insert the TF card into the slot until it clicks into place.

Formatting the TF Card (Optional)

For optimal performance, especially when using the card for the first time or with a new device, it is recommended to format the TF card using your device's settings. Refer to your device's user manual for specific formatting instructions.

Note: Formatting will erase all data on the card. Back up any important files before proceeding.

OPERATION

Data Storage

The 256GB capacity allows for extensive storage of Full HD video, high-resolution photos, music, and

other files. Transfer files to and from the card using your device's file management system or by connecting the device to a computer.

Recording

With U3, C10, and V30 speed ratings, the card supports smooth continuous shooting and Full HD (1080P) video recording. It is suitable for security cameras, dash cams, and camcorders.

MAINTENANCE AND DURABILITY

The SYMYNELEC TF card is built for reliability and durability, featuring:

- **Shockproof:** Designed to withstand impacts.
- **Temperature-proof:** Operates reliably in temperatures from 32°F to 158°F (0°C to 70°C).
- **Waterproof (IPX7):** Protected against water immersion up to 1 meter for 30 minutes.
- **X-ray-proof:** Safe from airport X-ray scanners.

To ensure longevity, avoid exposing the card to extreme physical stress or unauthorized disassembly.

TROUBLESHOOTING

Card Not Recognized

- Ensure the card is fully and correctly inserted into the device slot.
- Restart your device.
- Try the card in another compatible device to determine if the issue is with the card or the device.

- If the card is new, consider formatting it (see Setup section).

Slow Performance

- Performance can vary based on the host device, interface, and usage conditions. Ensure your device supports the card's speed class.
- Free up space on the card if it is nearly full.
- Avoid running multiple demanding applications simultaneously when accessing the card.

SPECIFICATIONS

Feature	Detail
Model Name	SYMYNELEC 256GB TF Memory Card
Flash Memory Type	TF Card (Micro SD)
Memory Storage Capacity	256 GB
Read Speed	Up to 80 MB/s
Write Speed	Up to 25 MB/s
Speed Class	Class 10, U3, V30, A1
Hardware Interface	USB (via adapter, not included)
