3. SETUP

3.1. Initial Charge

Before first use, fully charge your Ulefone TAB A11 Pro. Connect the USB Type-C cable to the tablet's charging port and the power adapter to a wall outlet. The charging indicator will show the charging status.

Spilt Screen

Handle More Tasks Simultaneously

Dividing the screen between two applications is a smooth and simple process, enhancing the ability to multitask effortlessly. Say goodbye to the chaos of swiftly switching between different applications.

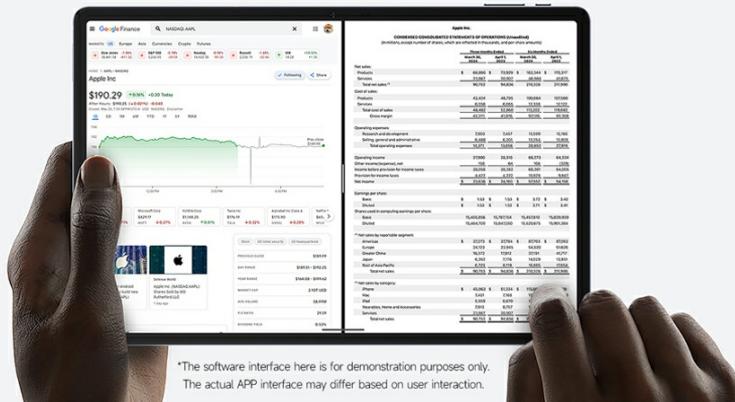

Image: The Ulefone TAB A11 Pro tablet highlighting its 8800mAh large battery and charging capabilities.

3.2. Inserting SIM Card and MicroSD Card

1. Locate the SIM card tray on the side of the tablet.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) and/or MicroSD card into the designated slots on the tray. Ensure the gold contacts face downwards.
4. Carefully push the tray back into the tablet until it clicks into place.

Up to 256GB ROM

Keep your creative flowing with the Tab A11 Pro and its maximum 256GB storage capacity. Store all your favorite media and files without worry.

UFS2.2
ROM

Up to 1TB of Expandable Storage

With the option to add a 1TB microSD card, you'll have endless room for photos, videos, files, games, and more.

256GB

*The maximum 8GB virtual memory can be activated in the Settings based on your preference.
The microSD card is not included and requires an additional purchase if needed.

3.3. Power On/Off

- To power on: Press and hold the Power button until the Ulefone logo appears.
- To power off: Press and hold the Power button, then select "Power off" from the options.

3.4. Initial Setup Wizard

Upon first power-on, follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, Google account login, and security settings.

4. OPERATING YOUR TABLET

4.1. Navigation and Gestures

- **Tap:** Select an item or activate a function.
- **Swipe:** Scroll through screens, lists, or content.
- **Pinch-to-Zoom:** Enlarge or reduce content on the screen.
- **Long Press:** Access contextual menus or move icons.

4.2. Connecting to Wi-Fi and Cellular Data

- Go to **Settings > Network & internet**.
- For Wi-Fi: Turn on Wi-Fi, select your desired network, and enter the password if required.
- For Cellular Data: Ensure your SIM card is inserted correctly and enable "Mobile network" in settings.

4.3. Using the Cameras

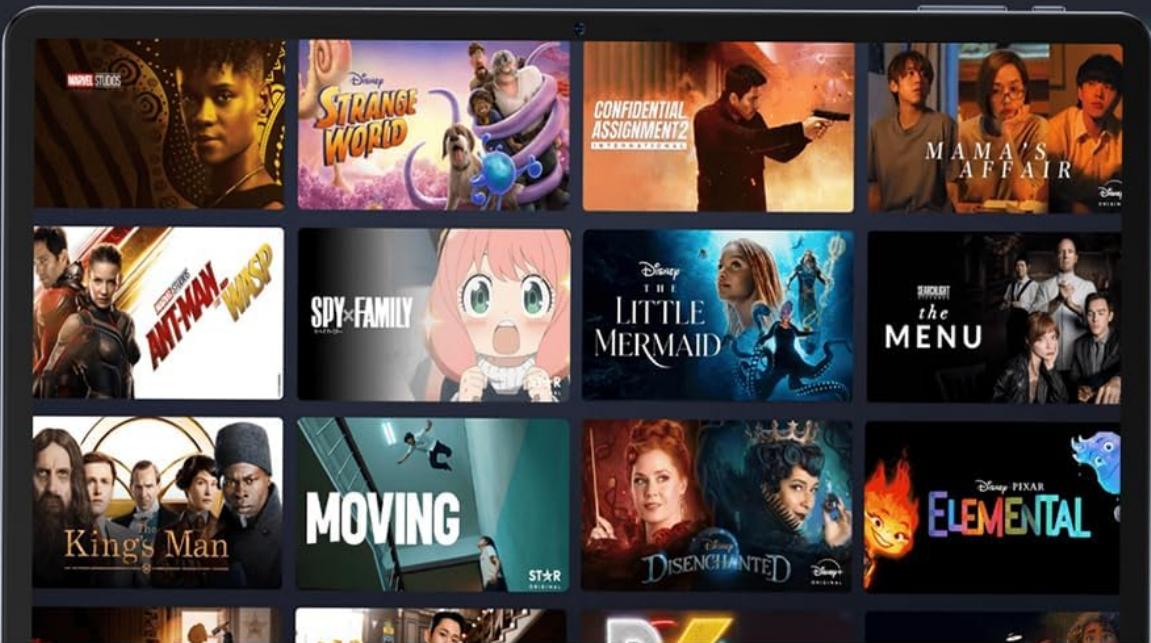

The tablet features a 16MP rear camera and an 8MP centered front camera.

- Open the Camera app from the home screen or app drawer.
- Tap the shutter button to take photos or switch to video mode to record.
- Use the front camera for video calls and selfies.

Widevine L1 Support

Unlock Stunning HD with YouTube, Netflix & Disney+

Immerse yourself in a captivating world of stunning visuals and sounds. The high-definition videos supported by popular platforms such as YouTube, Hulu, Amazon Prime Video, and Disney+ come together to deliver an unforgettable audiovisual experience.

*The aforementioned video platforms support HD streaming playback. However, some features may be unavailable if software upgrade issues arise.

5. MAINTENANCE

5.1. Cleaning the Device

Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid using harsh chemicals or abrasive materials that could damage the surface.

5.2. Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. Go to **Settings > System > System update**.

Image: Screenshots of the Ulefone TAB A11 Pro's Android 14 interface, highlighting its personalized and secure experience.

5.3. Battery Care

- Avoid exposing the tablet to extreme temperatures.
- Do not let the battery completely drain frequently.
- Use the original charger for optimal charging performance.

6. TROUBLESHOOTING

Problem	Solution
Tablet does not turn on	Ensure the battery is charged. Press and hold the Power button for 10-15 seconds to force a restart.
Cannot connect to Wi-Fi	Check Wi-Fi settings, restart your router, or try connecting to a different network.
Apps are crashing or freezing	Clear the app's cache (Settings > Apps > [App Name] > Storage & cache > Clear cache) or reinstall the app. Ensure sufficient RAM is available.
Slow performance	Close unnecessary background apps, clear cache, or free up storage space. Consider a factory reset as a last resort (backup data first).
