4. PRODUCT OVERVIEW

The WMARK NG-X1 is a professional-grade cordless hair clipper designed for precision and durability. Key features include:

- **10,000 RPM Maglev Vector Motor:** Provides high-torque cutting power for smooth performance on various hair types. The transparent cover design allows visibility of the motor.
- **DLC Coated Zero-Gapped Fade Blade:** Offers ultra-precise cuts and boasts a 2x longer lifespan with enhanced wear resistance.
- **Adjustable Cutting Lengths:** Features a lever for 5 adjustable cutting length levels (1.0mm, 1.5mm, 2.0mm, 2.5mm, 3.0mm) for versatile styling.
- **Long-lasting Lithium-Ion Battery:** A 2500mAh battery provides up to 150 minutes of continuous use on a 3-4 hour full charge. An LED indicator displays power levels.
- **Durable Construction:** Crafted from high-strength metal and engineering-grade ABS for scratch and drop resistance.
- **Ergonomic Grip:** Designed for comfortable handling, reducing wrist fatigue during extended use.
- **Replaceable Shells:** Customize your clipper with included red, black, and gold shells.

5. SETUP

5.1 Initial Charging

Before first use, fully charge your WMARK NG-X1 hair clipper. Connect the USB Type-C charging cable to the clipper or place it on the charging base. The LED indicator will show charging status (red while charging, white when full). A full charge takes approximately 3-4 hours and provides up to 150 minutes of runtime.

5.2 Attaching Guide Combs

Select the desired magnetic guide comb (1.5mm, 3mm, 4.5mm, 6mm, 10mm, or 13mm) for your preferred cutting length. The magnetic attachment ensures a secure fit during use.

5.3 Blade Adjustment

Use the adjustable lever on the side of the clipper to fine-tune the blade's cutting length between 1.0mm and 3.0mm. This allows for precise fading and blending.

6. OPERATING INSTRUCTIONS

To turn the clipper on or off, press the power button located on the front of the device. The powerful 10,000 RPM Maglev motor ensures efficient and smooth cutting. Always ensure the blades are clean and oiled before each use for optimal performance.

7. MAINTENANCE

7.1 Cleaning the Blades

Regular cleaning is crucial for maintaining the clipper's performance and blade longevity. After each use, brush away loose hairs from the blades using the provided cleaning brush. For a more thorough clean, detach the blades (refer to the included manual for specific instructions) and rinse them under running water. Ensure blades are completely dry before reattaching.

7.2 Oiling the Blades

Apply a few drops of the included blade oil to the blades after cleaning and before each use. Turn the clipper on for a few seconds to distribute the oil evenly. This lubricates the blades, reduces friction, and prevents rust.

7.3 Storage

Store the clipper in a dry, cool place. Use the blade guard to protect the blades when not in use. The charging base provides a convenient and stable storage solution.

8. TROUBLESHOOTING

If you encounter any issues with your WMARK NG-X1 hair clipper, please refer to the following common troubleshooting tips:

- **Clipper not turning on:** Ensure the battery is charged. Connect to the charger and check the LED indicator.
- **Poor cutting performance:** Clean and oil the blades. Check if the blades are properly aligned and free from debris. Ensure the correct guide comb is securely attached.
- **Excessive noise or vibration:** This may indicate a need for blade cleaning and oiling. If the issue persists, contact customer support.
- **Battery not charging:** Verify the USB cable and charging base are correctly connected and functional. Try a different power source.

For further assistance, please contact WMARK customer support.

9. SPECIFICATIONS

Feature	Specification
Model Number	NG-X1
Motor Speed	Max 10,000 RPM (Maglev Vector Motor)
Blade Type	DLC Coated Zero-Gapped Fade Blade
Battery Type	2500mAh Lithium Ion
