TUITA S10WM-01

TUITA S10WM-01 Li-ion Battery Pack User Manual

Model: S10WM-01 | Brand: TUITA

1. INTRODUCTION AND OVERVIEW

This manual provides essential information for the safe and effective use of your TUITA S10WM-01 Li-ion Battery Pack. This battery is designed as a replacement or spare for Tineco S10 and S10 ZT cordless vacuum cleaners. The S10WM-01 battery pack features a 22.2V DC output with a capacity of 2500mAh (55.5Wh), ensuring reliable power for your cleaning tasks.

2. SAFETY INFORMATION

Please read all safety instructions before using the battery pack to prevent injury or damage.

- **Charger Compatibility:** Use only with specified chargers: YLS0241A-T260060 or KL-WA260060-J. Using an incompatible charger may cause damage or fire.
- **Certifications:** This replacement lithium-ion battery meets FCC and ROHS certifications and standards.
- **Built-in Protections:** The battery includes built-in protections against over-charge, over-discharge, over-voltage, over-current, and over-heat to ensure safe operation.
- **Storage:** Store the battery in a cool, dry place away from direct sunlight, heat sources, and flammable materials.
- **Disposal:** Do not dispose of the battery in fire or water. Follow local regulations for proper recycling of Li-ion batteries.

3. PRODUCT FEATURES

The TUITA S10WM-01 Li-ion Battery Pack offers the following features:

- **High Capacity:** 22.2V DC, 2500mAh (55.5Wh) for extended runtime.
- **No Memory Effect:** Lithium-ion technology ensures consistent performance without degradation from partial charges.
- **LED Indicator:** Equipped with an LED indicator to display battery status.
- **Compatibility:** Specifically designed for Tineco S10 and S10 ZT cordless vacuum cleaners.

4. SETUP AND INSTALLATION

The TUITA S10WM-01 battery pack is designed for easy installation into compatible Tineco S10 and S10 ZT cordless vacuum cleaners.

1. **Power Off:** Ensure your Tineco vacuum cleaner is powered off and unplugged from any charging source before attempting battery replacement.
2. **Locate Battery Compartment:** Refer to your vacuum cleaner's original manual to locate the battery compartment and release mechanism.
3. **Remove Old Battery:** Press the battery release button (if present) and slide out the old battery pack.
4. **Insert New Battery:** Align the TUITA S10WM-01 battery pack with the slot in the vacuum cleaner. Slide it in firmly until it clicks into place. Ensure it is securely seated.
5. **Initial Charge:** It is recommended to fully charge the new battery before its first use.

5. OPERATION (CHARGING)

Proper charging is crucial for the longevity and performance of your Li-ion battery pack.

1. **First Use:** Fully charge the battery before its initial use.
2. **Charging Time:** A full charge typically takes approximately 4 to 4.5 hours.
3. **Compatible Chargers:** Always use the original Tineco charger or a compatible charger model YLS0241A-T260060 / KL-WA260060-J.
4. **Charging Process:** Connect the charger to the vacuum cleaner (with the battery installed) and plug it into a power outlet. The LED indicator on the battery or vacuum will show the charging status.
5. **Avoid Overcharging:** While the battery has over-charge protection, it is good practice to disconnect the charger once the battery is fully charged.

6. MAINTENANCE

Follow these guidelines to maintain your battery pack:

- **Regular Cleaning:** Keep the battery contacts clean and free from dust or debris. Use a dry cloth to wipe them if necessary.
- **Temperature:** Avoid exposing the battery to extreme temperatures (hot or cold), as this can affect its performance and lifespan.
- **Long-Term Storage:** If storing the battery for an extended period, charge it to approximately 50-60% capacity and store it in a cool, dry place. Recharge it every 3-6 months to prevent deep discharge.
- **Avoid Physical Damage:** Do not drop, puncture, or disassemble the battery pack.

7. TROUBLESHOOTING

If you encounter issues with your battery pack, consider the following common solutions:

- **Battery Not Charging:**
 - Ensure the charger is correctly connected to both the vacuum and the power outlet.
 - Verify that you are using a compatible charger (YLS0241A-T260060 / KL-WA260060-J).
 - Check for any visible damage to the charger cable or battery contacts.
- **Short Run Time:**
 - Ensure the battery is fully charged before use.
 - Over time, all rechargeable batteries experience some capacity degradation. If the battery is old, it may be nearing the end of its lifespan.
- **Vacuum Not Powering On:**
 - Confirm the battery is securely installed in the vacuum cleaner.
 - Check if the battery has sufficient charge.

If problems persist, contact the seller or manufacturer for further assistance.

8. SPECIFICATIONS

Specification	Detail
Model	S10WM-01
Battery Type	Li-ion
Voltage	22.2V DC
Capacity	2500mAh
Energy	55.5Wh
Compatible Vacuum Models	Tineco S10, Tineco S10 ZT
Compatible Chargers	YLS0241A-T260060 / KL-WA260060-J
Certifications	FCC, ROHS
