4. SETUP

1. **Software Installation:** Refer to the included physical instruction manual for details on where to download the necessary software for your device. Install the software on your computer, laptop, or Android phone.

2. **Connect the Device:** Plug the USB Type-A connector of the QX-18 speaker microphone into an available USB port on your compatible device.

3. **Configure Mode:** Follow the instructions in the software or the physical manual to select the desired operating mode (Microphone Mode or Keyboard Mode).

4. **Install Holder (Optional):** Attach the microphone holder mount to a suitable surface if desired, then place the speaker microphone into the holder.

5. OPERATING INSTRUCTIONS

5.1. Microphone Mode

In Microphone Mode, the device functions as a communication microphone with speaker output.

- **Transmit Signal (PTT1):** Press the PTT1 button to transmit your voice. A red indicator light will illuminate when transmission is active.
- **Adjust Volume:** Use the dedicated volume buttons on the device to adjust the received audio volume.
- **Customizable Button (PTT2):** The PTT2 button can be configured within the software to perform any desired keyboard function.

5.2. Keyboard Mode

In Keyboard Mode, all buttons on the device can be customized to act as specific keyboard inputs.

- **Custom Key Mapping:** All buttons on the speaker microphone can be assigned custom keyboard values through the accompanying software.
- **No Call Function:** Please note that the call function is not available when the device is operating in Keyboard Mode.

6. MAINTENANCE

To ensure the longevity and optimal performance of your UAYESOK QX-18 speaker microphone, follow these

maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts. Do not attempt to disassemble the unit, as this will void the warranty.

7. TROUBLESHOOTING

If you encounter issues with your UAYESOK QX-18 speaker microphone, consider the following basic troubleshooting steps:

- **Connection Check:** Ensure the USB cable is securely connected to both the speaker microphone and your device.
- **Software Review:** Verify that the correct software is installed and configured according to the instructions in the physical manual. Check for any available software updates.
- **Restart Device:** Sometimes, restarting the connected computer or phone can resolve connectivity issues.
- **Test on Another Port/Device:** If possible, try connecting the speaker microphone to a different USB port or another compatible device to rule out port or device-specific problems.

For further assistance, please refer to the support section.

8. SPECIFICATIONS

|
