Qinline Fire Rescue Building Blocks Advent Calendar 2025 User Manual

Model: 633016, 633043

1. INTRODUCTION

The Qinline Fire Rescue Building Blocks Advent Calendar 2025 provides a daily building experience for children aged 6 and above, leading up to Christmas. This set includes 24 individual building block models, which can be assembled into smaller fire rescue-themed vehicles and structures. These smaller models can then be reconfigured into two larger models: a fire rescue plane and a fire truck.

Image: Overview of the Qinline Fire Rescue Building Blocks Advent Calendar, showing the advent calendar box, numerous small fire rescue vehicles, and two larger combined models (a fire truck and a fire plane).

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts.

This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during assembly and play, especially for younger children within the recommended age range.

- **Recommended Age:** 6+ years old.
- Ensure all small parts are kept away from infants and young children to prevent accidental ingestion.
- Inspect all pieces regularly for damage. Discontinue use if any parts are broken or pose a hazard.
- Do not modify the building blocks or use them for purposes other than intended.

3. PRODUCT CONTENTS

The Qinline Fire Rescue Building Blocks Advent Calendar includes:

- 1 x Advent Calendar box with 24 individually numbered compartments.
- Building blocks for 24 unique small fire rescue-themed models.
- Building blocks that can be reconfigured to form 2 larger models (a fire rescue plane and a fire truck).
- 2 x Detailed instruction manuals for assembly.
- Total of 1132 pieces.

4. ASSEMBLY INSTRUCTIONS

This advent calendar is designed for a daily building experience. Each day from December 1st to 24th, open the corresponding numbered compartment to find the building blocks for a new small model. Follow the instructions carefully for each day's build.

4.1. Building Individual Small Models (Days 1-24)

1. **Identify Parts:** Open the numbered compartment for the current day. Locate the bag of building blocks and identify the serial numbers on the bags, if present, to match them with the correct instructions.
2. **Consult Instructions:** Refer to the provided detailed instruction manuals. Each manual contains specific instructions for building the 24 individual small models.
3. **Follow Steps:** Carefully follow the step-by-step diagrams and instructions to assemble the small model for that day. Pay close attention to the orientation and placement of each brick.
4. **Verify Assembly:** Ensure all pieces are securely fitted together to complete the model.

Image: A visual guide illustrating the process of finding serial numbers, following specific instructions, and building a small model.

4.2. Building Large Combined Models

After completing all 24 small models, you have the option to reassemble them into two larger, more complex models: a fire rescue plane and a fire truck. Note that you cannot build all 24 small models and the 2 large models simultaneously, as the large models require disassembling and reusing parts from the small models.

1. **Collect Small Models:** Gather the 12 small models designated for one of the large builds (e.g., the fire rescue plane).
2. **Disassemble:** Carefully disassemble the 12 small models into their individual building blocks.
3. **Consult Large Model Instructions:** Refer to the specific pages in the instruction manuals (e.g., pages 17-25 and 14-26 as indicated in some instructions) that detail the assembly of the large fire rescue plane or fire truck.
4. **Assemble Large Model:** Follow the instructions to construct the large model using the collected and disassembled

blocks.

5. **Repeat for Second Large Model:** If desired, repeat the process with the remaining 12 small models to build the second large model.

Image: An illustration demonstrating how 12 small fire rescue models can be combined to form a large fire rescue plane, and another 12 small models can form a large fire truck.

5. PLAYING WITH THE ADVENT CALENDAR

The Qinline Fire Rescue Building Blocks Advent Calendar offers a unique way to engage children during the holiday season. Each day presents a new building challenge and a new toy to play with.

- **Daily Discovery:** Starting December 1st, open one numbered compartment each day to reveal new building blocks.
- **Creative Play:** After assembling each small model, children can engage in imaginative play with their new fire rescue vehicle or structure.
- **STEM Skill Development:** The building process encourages hand-eye coordination, imagination, creativity, hands-on problem-solving, and focus.
- **Model Transformation:** Explore the possibility of transforming the small models into two larger, more complex fire

rescue vehicles, offering extended play value. Each small model can also be transformed into 2 different forms, further enhancing creative possibilities.

Image: A comprehensive display of 24 small fire rescue building block models, each shown with two possible configurations or transformations, highlighting the versatility of the set.

6. MAINTENANCE

Proper care will ensure the longevity of your building block set.

- **Cleaning:** To clean the building blocks, wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners. Ensure blocks are completely dry before storage.
- **Storage:** Store the building blocks and completed models in a cool, dry place away from direct sunlight to prevent discoloration or warping. The original advent calendar box can be used for storage, or a separate container.
- **Handling:** Handle the blocks gently to avoid breakage. While designed for durability, excessive force can damage the pieces.

7. TROUBLESHOOTING

7.1. Difficulty with Assembly

- **Review Instructions:** If you encounter difficulty, re-examine the instruction manual for the specific model. Pay close attention to the diagrams and ensure all pieces are oriented correctly.
- **Piece Identification:** Double-check that you are using the correct pieces for each step. Some pieces may appear similar.
- **Seek Assistance:** For younger builders, adult assistance may be required, especially for more complex steps or when transitioning to the larger models.

7.2. Missing or Damaged Pieces

- **Check Packaging:** Thoroughly check all packaging materials and compartments to ensure no small pieces were overlooked.
- **Contact Support:** If you find any pieces are genuinely missing or damaged upon opening, please contact Qinline Customer Service for assistance. Refer to the 'Warranty and Support' section for contact details.

8. SPECIFICATIONS

Feature	Detail
Brand	Qinline
Model Numbers	633016, 633043
Color	A2.Fire Rescue Plane & Truck
Material Type	Plastic
Item Weight	2.61 pounds
