Casaria Acacia Wood Bar Stools with Backrest

Model: B0DB22PPB4

INTRODUCTION

Thank you for choosing the Casaria Acacia Wood Bar Stools. This manual provides essential information for the safe assembly, operation, and maintenance of your new bar stools. Please read these instructions carefully before use and retain them for future reference.

SAFETY INSTRUCTIONS

- **Maximum Load Capacity:** Each bar stool is designed to support a maximum weight of 150 kg (330 lbs). Do not exceed this limit to prevent damage or injury.
- **Stable Surface:** Always place the bar stools on a flat, stable, and level surface to prevent tipping.
- **Assembly:** Ensure all components are correctly assembled and all fasteners are securely tightened before use. Periodically check and retighten fasteners as needed.
- **Children:** Supervise children when they are near or using the bar stools to prevent accidents. Do not allow children to climb or play on the stools.
- **Outdoor Use:** While acacia wood is weather-resistant, prolonged exposure to extreme weather conditions (heavy rain, direct sunlight, frost) can affect its durability and appearance. Store indoors or cover during harsh weather.
- **Moving the Stools:** Lift the stools when moving them; do not drag them, as this can damage the legs or floor.

PACKAGE CONTENTS

Your package should contain the following items:

- 2 x Casaria Acacia Wood Bar Stools (disassembled)
- All necessary assembly hardware (screws, bolts, washers, Allen key)
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Assembly is required for these bar stools. Please follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
2. **Identify Parts:** Refer to the included parts list and diagrams to identify all components and hardware.
3. **Assemble Legs and Footrests:** Attach the side rails and footrests to the legs using the provided screws and an Allen key. Do not fully tighten the screws yet.
4. **Attach Seat:** Secure the seat panel to the top of the leg assembly. Ensure the seat is oriented correctly.
5. **Attach Backrest:** Fasten the backrest to the rear legs and seat.
6. **Final Tightening:** Once all components are loosely assembled, place the stool on a flat surface. Apply gentle pressure to ensure it is level, then progressively tighten all screws until secure. Do not overtighten.

OPERATING INSTRUCTIONS (USAGE)

These bar stools are designed for comfortable seating at bars, kitchen counters, or high tables. Their versatile design makes them suitable for both indoor and outdoor environments.

- **Seating:** Sit centrally on the seat for optimal balance and comfort. The ergonomic backrest provides support.
- **Footrest:** Utilize the integrated footrests for added comfort and stability, especially during prolonged sitting.
- **Placement:** The stools can be easily slid under most bar tables when not in use, optimizing space.

MAINTENANCE

Proper maintenance will extend the life and preserve the appearance of your acacia wood bar stools.

- **Cleaning:** Wipe the stools with a damp cloth to remove dust and dirt. Avoid abrasive cleaners or harsh chemicals, which can damage the wood finish.
- **Wood Treatment:** To maintain the natural beauty and weather resistance of the acacia wood, regular treatment with a wood care oil is recommended. This helps protect against moisture and UV radiation.
- **Outdoor Protection:** If used outdoors, consider covering the stools or storing them in a sheltered area during periods of non-use or inclement weather to prevent premature aging.
- **Fastener Check:** Periodically check all screws and bolts and tighten them if necessary to ensure the structural integrity of the stools.

TROUBLESHOOTING

If you encounter any issues with your bar stools, refer to the following common solutions:

- **Stool Wobbles:**

Solution: Ensure the stool is on a flat surface. Check all assembly screws and tighten them evenly. Sometimes, loosening all screws slightly, sitting on the stool to settle the joints, and then retightening can resolve wobbling.

- **Difficulty Assembling:**

Solution: Double-check that you are using the correct parts for each step as per the assembly diagram. Do not overtighten screws until all parts are loosely fitted. If a part seems stuck, do not force it; re-examine the instructions.

- **Wood Discoloration/Drying:**

Solution: This is common for natural wood, especially with outdoor exposure. Apply a suitable wood care oil as part of regular maintenance to restore and protect the wood's appearance.

SPECIFICATIONS

Feature	Specification
Brand	Casaria
Model Number	B0DB22PPB4

Feature	Specification
Material	Acacia Wood
Color	Brown
Overall Dimensions (L x W x H)	40 x 36 x 110 cm (15.7 x 14.2 x 43.3 inches)
