1. INTRODUCTION

The KU XIU X40Q is a versatile and compact 3-in-1 wireless charging station designed to simultaneously power your iPhone, Apple Watch, and AirPods. Featuring Qi2 certification and 15W magnetic fast charging for compatible iPhones, this device offers efficient and convenient charging in a foldable, travel-friendly aluminum alloy design. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your charging station.

2. WHAT'S IN THE BOX

Please verify that all items are present in your package:

- 1 x KU XIU X40Q 3-in-1 Foldable Wireless Charger
- 1 x 45W PD Fast Charging Adapter
- 1 x Travel Storage Bag
- 1 x USB-C to USB-C Cable
- 1 x User Manual (this document)

3. PRODUCT OVERVIEW

The X40Q charging station features a sophisticated foldable design crafted from aluminum alloy, ensuring both durability and portability. It integrates three distinct charging areas:

- **Magnetic Phone Charging Pad:** Located at the top, this pad provides 15W Qi2 certified magnetic wireless charging for compatible iPhones.
- **Apple Watch Charging Module:** Positioned behind the phone charging pad, this module offers 5W charging for Apple Watch models.
- **AirPods Charging Pad:** Situated at the base, this flat pad delivers 5W wireless charging for AirPods with wireless charging cases.

The device is designed for flexible use, allowing for various charging angles and easy portability when folded.

4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Power:** Insert one end of the provided USB-C to USB-C cable into the USB-C port on the back of the charging station. Connect the other end of the cable to the included 45W PD Fast Charging Adapter. Plug the adapter into a wall outlet.

3. **Unfold Charger:** Gently unfold the charging station to your desired configuration. The magnetic phone charging pad can be adjusted to various angles for optimal viewing and charging.

5. OPERATING INSTRUCTIONS

5.1 Charging Your Devices

- **iPhone:** Place your MagSafe-compatible iPhone (iPhone 12 series and newer) onto the magnetic charging pad. The magnets will automatically align your device for optimal 15W Qi2 fast charging. You can charge in both portrait and landscape orientations.
- **Apple Watch:** Place your Apple Watch onto the dedicated charging module behind the phone pad. Ensure it is properly seated for 5W charging.
- **AirPods:** Place your AirPods case (with wireless charging capability) onto the flat charging pad at the base of the station. Ensure the case is centered on the pad for 5W charging.

For optimal performance, always use the included 45W PD adapter. Using a lower wattage adapter (e.g., less than 30W) may result in slower charging or inability to charge all devices simultaneously.

5.2 Charging Speed and Efficiency

The X40Q utilizes Qi2 technology to deliver up to 15W fast charging for compatible iPhones, significantly reducing charging times compared to standard 7.5W wireless chargers.

Qi2 15W Ultra-Fast Wireless Charging

Double the speed of a traditional 7.5w charger

5.3 Adjustable Charging Angles

The foldable design allows you to adjust the angle of your iPhone for comfortable viewing in both landscape and portrait modes, ideal for video calls, media consumption, or using StandBy mode.

5.4 Device Compatibility

The KU XIU X40Q is compatible with a wide range of Apple devices:

- **iPhone:** 16/15/14/13/12 series (MagSafe compatible for 15W charging)
- **Apple Watch:** Ultra/Ultra 2/Series 10/9/8/7/6/5/4/3/2/SE

- **AirPods:** AirPods 4 with Active Noise Cancellation, AirPods 3, AirPods 2 (with wireless charging case), AirPods Pro, AirPods Pro 2

6. MAINTENANCE AND CARE

- **Cleaning:** Disconnect the charger from power before cleaning. Use a soft, dry, lint-free cloth to wipe the surfaces. Do not use abrasive cleaners, solvents, or chemical sprays.

- **Storage:** When not in use, fold the charging station into its compact form and store it in the provided travel bag to protect it from dust and scratches.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts. Keep it away from water, excessive heat, and direct sunlight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging or charging slowly.	Incorrect power adapter; device not aligned; foreign object; thick phone case.	Ensure you are using the included 45W PD adapter. Reposition the device on the charging pad. Remove any foreign objects. Remove thick or metallic phone cases.
Indicator light not on.	No power connection.	Check if the power adapter is securely plugged into the wall outlet and the charging station. Try a different outlet.
Charger or device getting hot.	Normal during charging; poor ventilation; foreign object.	Slight warmth is normal. Ensure adequate ventilation around the charger. Remove any foreign objects. If overheating persists, discontinue use and contact support.
Magnetic connection is weak.	Non-MagSafe phone; thick case.	Ensure your iPhone is MagSafe compatible. Use a MagSafe-compatible case or no case for optimal magnetic strength.

8. SPECIFICATIONS

Model Number	X40Q
Product Dimensions	2.68 x 2.68 x 1.07 inches (folded)
Item Weight	7.4 ounces (210g)
Connectivity Technology	Wireless
Connector Type	USB Type C
Input Voltage	12 Volts
iPhone Output	Up to 15W (Qi2 Certified)
Apple Watch Output	5W
AirPods Output	5W
Special Features	Foldable, Portable Travel Design, Magnetic, Aluminum Alloy, Wireless Fast Safe Charging
Manufacturer	Shenzhen Kuxiu Communication Co., Ltd
