

Babymoov A014433

Babymoov YOO Go+ HD Video Baby Monitor

Model: A014433 | Brand: Babymoov

INTRODUCTION

The Babymoov YOO Go+ HD is a portable video baby monitor designed to provide peace of mind for parents. Featuring a large 5-inch HD screen, this monitor offers exceptional image quality and versatile placement options with its included accessories. It is equipped with infrared night vision and a x2 zoom function, allowing clear monitoring of your child day and night. The YOO Go+ HD operates on rechargeable batteries for both the parent and baby units, ensuring long autonomy and freedom of movement.

KEY FEATURES

- **Portable Design:** The camera is manually orientable and can be attached, hung, or placed anywhere using the 4 included accessories (stand, suction cup, clip, wall mount).
- **Rechargeable Batteries:** Both parent and baby units operate on rechargeable batteries, offering up to 8 hours of autonomy.
- **Extended Range:** Provides a range of up to 300 meters, allowing monitoring from various locations within your home or garden.
- **Large HD Screen:** A 5-inch HD screen with 720P resolution delivers optimal image quality and clarity.
- **Night Vision & Zoom:** Infrared night vision and a x2 digital zoom ensure clear visibility even in low light conditions.
- **Sleep Technology (VOX Mode):** Activates only when sound is detected, conserving battery life and reducing wave emissions when the baby is sleeping quietly.
- **User-Friendly Interface:** Quick setup with pre-paired units and an intuitive menu for easy adjustments.
- **Integrated Lullabies:** Features 8 gentle lullabies to help soothe your baby to sleep.
- **Two-Way Talkie-Walkie Function:** Allows you to speak to and reassure your baby remotely from the parent unit.
- **Alarms:** Includes visual and audible alarms, as well as an out-of-range alert.
- **Lifetime Warranty:** Babymoov offers a lifetime warranty on this product (registration required within 2 months of purchase).

PACKAGE CONTENTS

Please ensure all items are present in the package:

- 1 x Parent Unit (Monitor)

- 1 x Baby Unit (Camera)
- 2 x USB-C Charging Cables
- 4 x Camera Mounting Accessories (Stand, Suction Cup, Clip, Wall Mount)

SETUP

1. Charging the Units

Before first use, fully charge both the Parent Unit and the Baby Unit. Connect each unit to a power source using the provided USB-C cables. The charging indicator will show when the units are charging and when they are fully charged.

2. Positioning the Baby Unit (Camera)

The YOO Go+ HD camera is designed for versatile placement. Choose the most suitable accessory for your needs:

- **Stand:** Place the camera on a flat surface such as a dresser or shelf.
- **Suction Cup:** Attach the camera to a smooth surface like a window.
- **Clip:** Secure the camera to the edge of a travel cot, playpen, or stroller.
- **Wall Mount:** Permanently fix the camera to a wall for a stable view.

Ensure the camera has a clear, unobstructed view of your baby. The camera can be manually oriented to adjust the viewing angle.

Image: The Babymoov YOO Go+ HD camera shown with its four versatile mounting accessories: a stand, a suction cup, a clip, and a wall mount. A hand is also depicted inserting a rechargeable battery into the camera unit, highlighting its autonomous operation.

3. Initial Pairing (Pre-paired)

The Parent Unit and Baby Unit are pre-paired at the factory. Simply power on both units, and they should automatically connect. If connection issues occur, refer to the troubleshooting section for manual pairing instructions.

Image: A complete overview of the Babymoov YOO Go+ HD Video Baby Monitor system, including the camera unit, the parent monitor unit displaying a baby in a crib, and all four mounting accessories (stand, suction cup, clip, wall mount) arranged around them.

OPERATING INSTRUCTIONS

1. Power On/Off

Press and hold the power button on both the Parent Unit and the Baby Unit to turn them on or off.

2. Adjusting Volume and Brightness

Use the dedicated buttons on the Parent Unit to adjust the volume of the audio and the brightness of the screen according to your preference.

3. Zoom Function

Press the zoom button on the Parent Unit to activate the x2 digital zoom, allowing a closer view of your baby.

4. Night Vision

The camera automatically switches to infrared night vision in low light conditions, providing a clear black and white image on the Parent Unit.

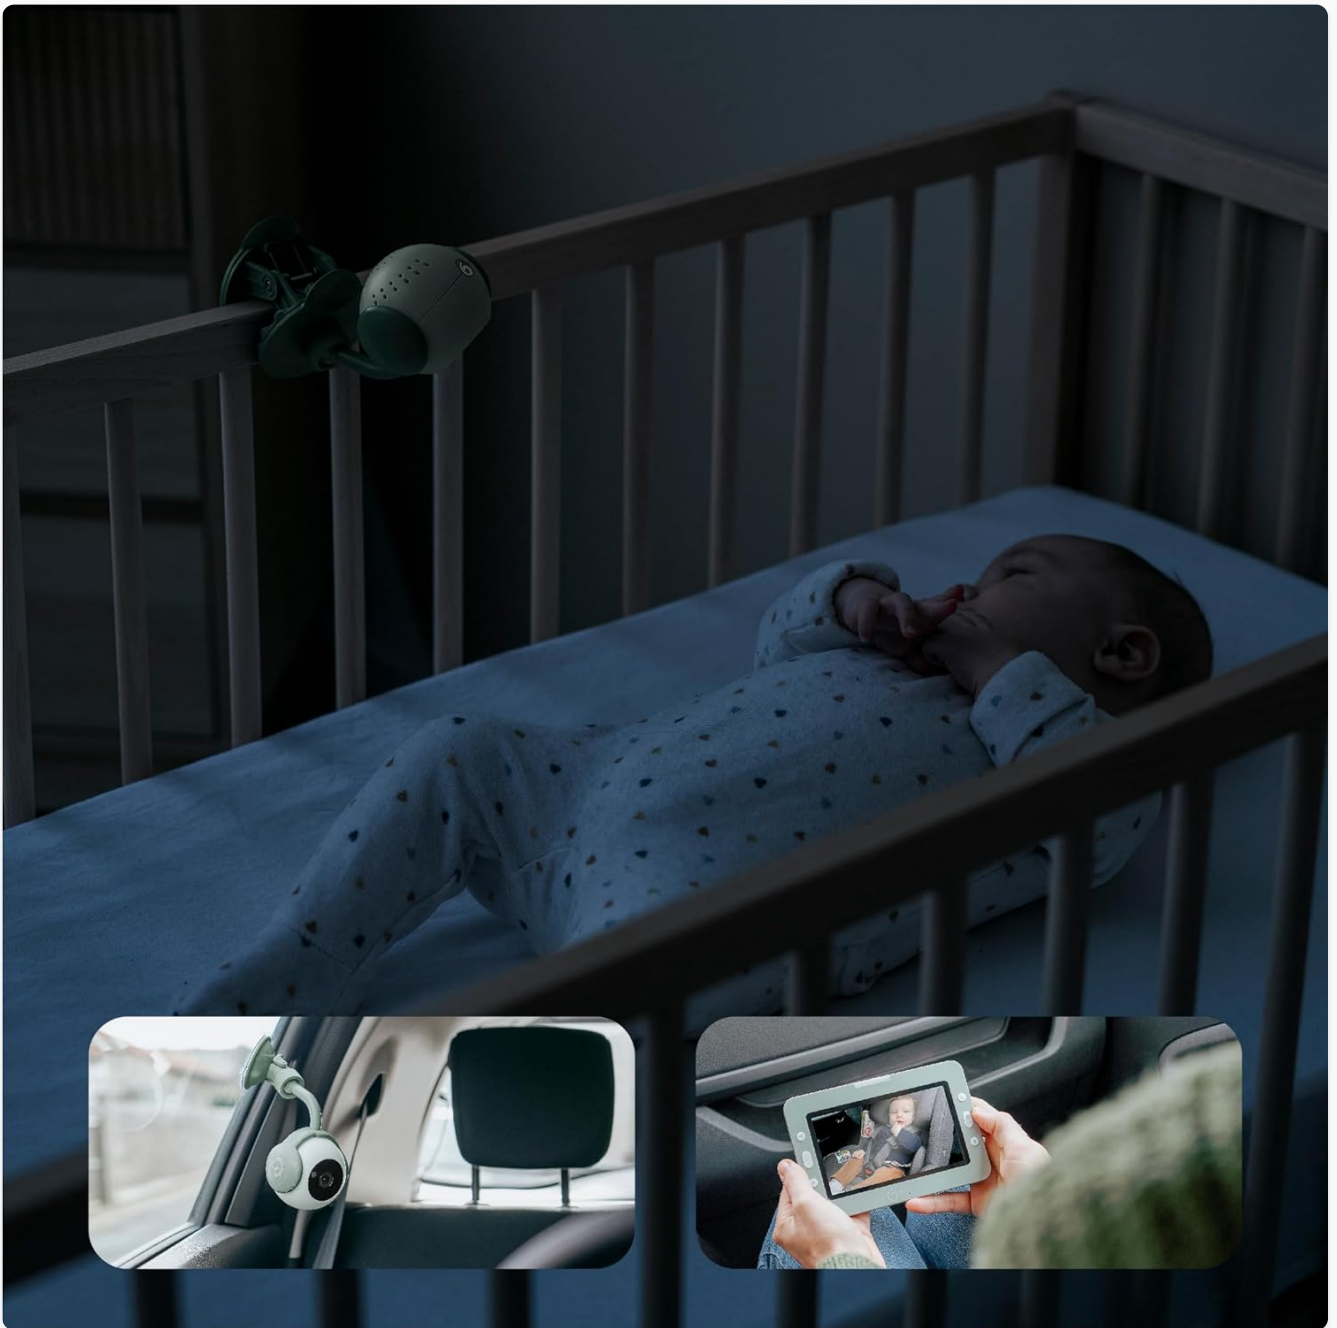

Image: The Babymoov YOO Go+ HD camera is shown mounted on a crib, monitoring a sleeping baby in a darkened room, demonstrating its night vision capability. Insets show the parent unit being used in a car, highlighting its portability and versatility for on-the-go monitoring.

5. Talkie-Walkie Function

Press and hold the talk button on the Parent Unit to speak to your baby through the camera's speaker. Release the button to listen.

6. Lullabies

Access the menu on the Parent Unit to select and play one of the 8 integrated lullabies. You can also adjust the volume of the lullabies.

7. Sleep Technology (VOX Mode)

This mode conserves battery by keeping the screen off and audio muted until a sound is detected from the baby's room. You can adjust the microphone sensitivity in the menu to control when the monitor activates.

8. Alarms

The monitor provides visual and audible alerts for various events, including an out-of-range warning if the connection

between the units is lost.

Caméra complète

MAINTENANCE

Cleaning

To clean the units, wipe them with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners or solvents. Ensure the units are completely dry before use.

Battery Care

To prolong battery life, avoid fully discharging the units frequently. Store the units in a cool, dry place if not in use for extended periods. The integrated lithium batteries are designed for long-term use.

Repairability

In line with Babymoov's eco-responsible approach, the YOO Go+ HD is designed to be repairable. For any issues, please contact Babymoov customer support.

TROUBLESHOOTING

- **No Signal / Out of Range:** Ensure both units are powered on and within the 300-meter range. Obstacles like thick walls or other electronic devices can interfere with the signal. Try moving the units closer or adjusting their positions.
- **Poor Image / Sound Quality:** Check for interference from other 2.4 GHz devices. Ensure the camera lens is clean and unobstructed. Adjust the antenna on the parent unit if applicable.
- **Battery Not Charging:** Verify that the USB-C cables are securely connected to both the units and the power source. Ensure the power source is active.
- **Units Not Pairing:** Although pre-paired, if units lose connection, consult the full manual (if available) or Babymoov support for manual pairing instructions. Typically, this involves a pairing button on both units.

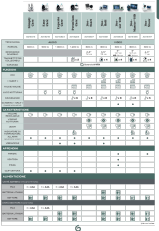

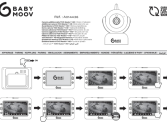

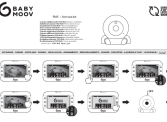

SPECIFICATIONS

Feature	Specification
Color	Green
Number of Channels	2
Form Factor	Dome
Viewing Angle	360 Degrees (Manual Orientation)
Night Vision Range	300 Meters
Material	Plastic (ABS)
