

## Beats MUW43LL/A

# Beats Solo 4 Wireless Bluetooth On-Ear Headphones User Manual

Model: MUW43LL/A

## INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Beats Solo 4 Wireless Bluetooth On-Ear Headphones. Please read this manual thoroughly before using the product.

The Beats Solo 4 headphones feature custom acoustic architecture and updated drivers for powerful sound, up to 50 hours of battery life, and a compact, lightweight, foldable design. They offer high-resolution lossless audio via USB-C or 3.5 mm audio cable and are compatible with both Apple and Android devices for seamless pairing.

## WHAT'S IN THE Box

- Beats Solo 4 Wireless Bluetooth On-Ear Headphones
- USB-C to USB-C charging cable
- 3.5mm audio cable
- Soft woven carrying case
- Quick Start Guide (this manual)
- Warranty Card

## SETUP

### 1. Charging Your Headphones

Before first use, fully charge your Beats Solo 4 headphones. Connect the included USB-C to USB-C cable to the charging

port on the headphones and to a compatible USB-C power adapter (not included) or computer USB-C port.

- A full charge provides up to 50 hours of listening time.
- A 10-minute Fast Fuel charge provides up to 5 hours of playback when the battery is low.

## Personalized Spatial Audio

Like being surrounded by 64 speakers at once.

Compatible hardware and software required. Works with compatible content in supported apps. Not all content available in Dolby Atmos. iPhone with TrueDepth camera required to create a personal profile for Spatial Audio, which will sync across Apple devices running the latest operating system software, including iOS, iPadOS, macOS, and tvOS.

### 2. Powering On/Off

To power on your headphones, press and hold the power button on the right earcup for 1 second. The LED indicator will light up. To power off, press and hold the power button for 1 second. The LED indicator will turn off.

### 3. Bluetooth Pairing

Your Beats Solo 4 headphones are designed for seamless pairing with both Apple and Android devices.

#### 1. For Apple Devices:

- Ensure Bluetooth is enabled on your iOS device.

- Hold your Beats Solo 4 headphones near your unlocked iOS device.
- Follow the on-screen prompts to connect.

## 2. For Android Devices:

- Download the Beats app from the Google Play Store (if not already installed).
- Enable Bluetooth on your Android device.
- Open the Beats app and follow the instructions to pair your headphones.

## 3. For Other Devices:

- With the headphones powered on, press and hold the power button for 3 seconds until the LED indicator begins to flash. This puts the headphones in pairing mode.
- Go to the Bluetooth settings on your device and select "Beats Solo 4" from the list of available devices.

# High-Resolution Lossless Audio

Via USB-C or 3.5 mm audio cable

Requires compatible lossless content from supported apps and services. Not all content is available in lossless format.

# OPERATING YOUR HEADPHONES

---

## Controls

The Beats Solo 4 headphones feature intuitive controls located on the earcups.

- **"b" Button (Left Earcup):**

- Press once: Play/Pause audio, Answer/End call.
- Press twice: Skip forward.
- Press three times: Skip backward.
- Press and hold: Activate voice assistant (Siri, Google Assistant).

- **Volume Controls (Left Earcup):**

- Volume up button: Increase volume.
- Volume down button: Decrease volume.

- **Power Button (Right Earcup):**

- Press and hold for 1 second: Power On/Off.
- Press and hold for 3 seconds (from powered on): Enter Bluetooth pairing mode.

## Audio Features

The Beats Solo 4 headphones offer advanced audio capabilities:

- **Personalized Spatial Audio:** Experience immersive sound that surrounds you. This feature requires compatible hardware and software, and a TrueDepth camera for personal profile creation on iOS devices.
- **High-Resolution Lossless Audio:** Connect via the included USB-C cable or 3.5 mm audio cable for high-fidelity audio playback. This mode does not consume battery power when using the 3.5mm cable.

# Up to 50 Hours of Battery Life

Plus endless listening via 3.5 mm audio cable, which requires zero battery power.

Testing conducted by Apple in March 2024 using preproduction Beats Solo 4 and software paired with iPhone 15 Pro units and pre-release software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50%. Testing consisted of full Beats Solo 4 battery discharge while playing audio until Beats Solo 4 stopped playback. Battery life depends on device settings, environment, usage, and many other factors.

# Apple and Android Compatibility

Enjoy seamless one-touch pairing, automatic account setup, and Find My or Find My Device.

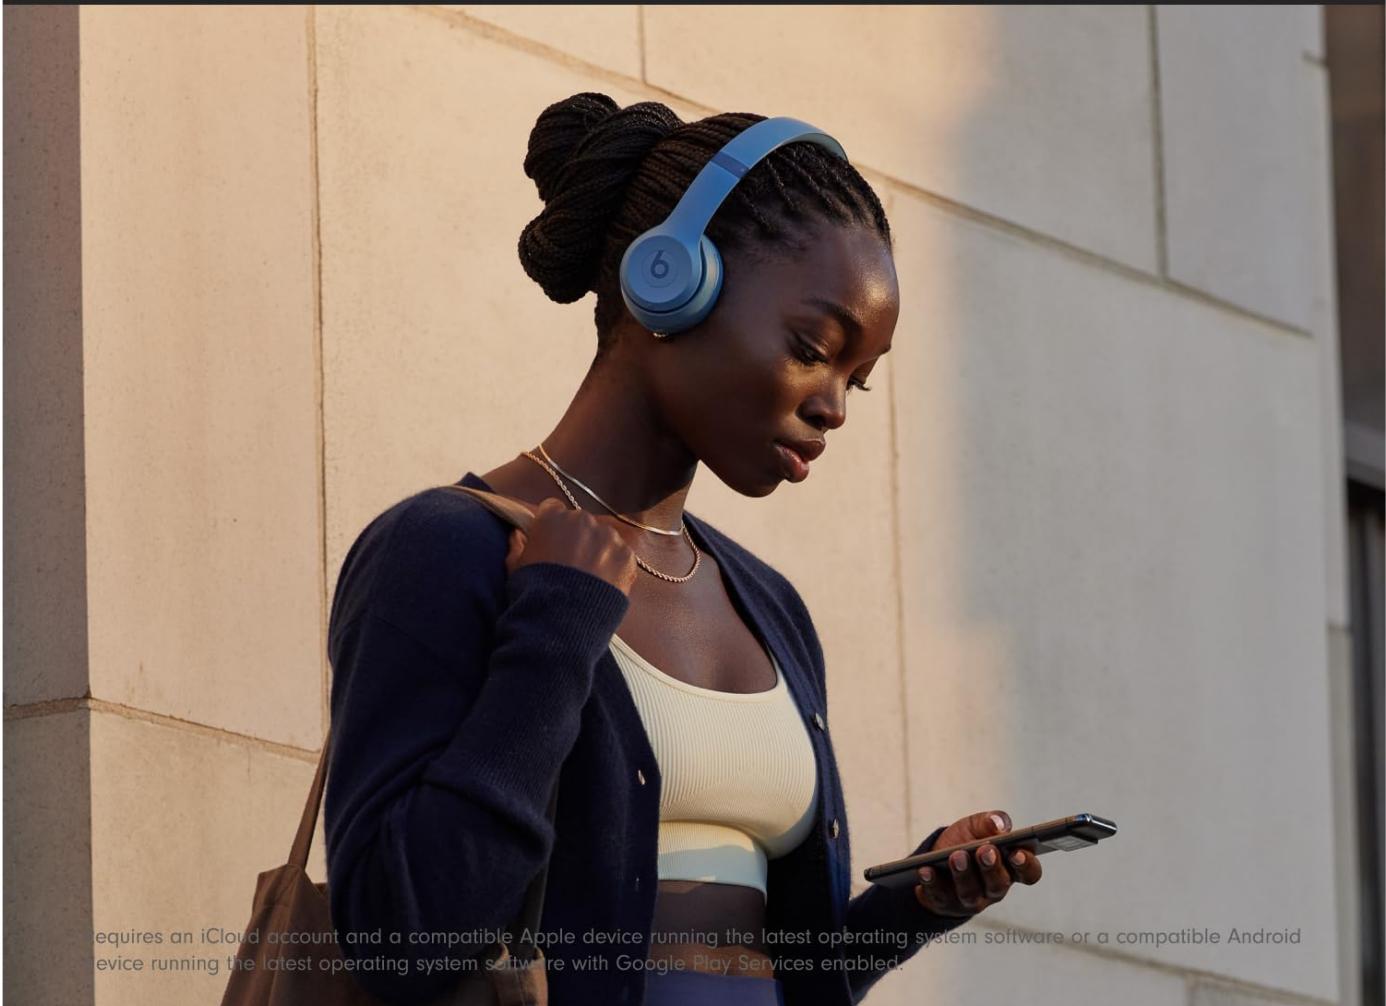

Image: A person wearing Beats Solo 4 headphones connected via a USB-C cable, demonstrating the high-resolution lossless audio capability.

## MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store your headphones in the included soft woven carrying case to protect them from dust and scratches. The foldable design allows for compact storage.
- **Avoid Moisture:** Keep the headphones away from water and excessive moisture.
- **Temperature:** Avoid exposing the headphones to extreme temperatures.

# Compact & Lightweight

Foldable design with soft woven carrying case

## TROUBLESHOOTING

Problem	Possible Solution
Headphones not powering on	Ensure the headphones are charged. Connect to a power source and try again.
Cannot pair via Bluetooth	Ensure headphones are in pairing mode (LED flashing). Turn Bluetooth off and on again on your device. Forget "Beats Solo 4" from your device's Bluetooth settings and try pairing again. Ensure headphones are within range of your device.

Problem	Possible Solution
No sound or low volume	<p>Check volume levels on both headphones and your connected device.</p> <p>Ensure the headphones are properly connected via Bluetooth or audio cable.</p> <p>Try playing audio from a different source.</p>
Audio quality issues	<p>Move closer to your device to avoid interference.</p> <p>Ensure no other strong wireless signals are nearby.</p> <p>If using the 3.5mm cable, ensure it is fully inserted.</p>
