4. MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your Hot Wheels die-cast vehicles.

4.1 Cleaning

- Wipe the vehicles with a soft, dry cloth to remove dust and fingerprints.
- For stubborn dirt, lightly dampen a cloth with water and gently wipe the affected area. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint and decals.
- Ensure the vehicles are completely dry before storing or displaying.

4.2 Storage

- Store vehicles in a cool, dry place away from direct sunlight to prevent fading of colors and decals.
- Consider using a display case or the original packaging for protection against dust and damage.

5. TROUBLESHOOTING

Most issues with die-cast vehicles are minor and easily resolved.

5.1 Wheels Not Rolling Smoothly

- **Check for debris:** Inspect the axles and wheels for any lint, hair, or small particles that might be obstructing movement. Carefully remove any foreign objects.
- **Wheel alignment:** Ensure all wheels are properly aligned and not bent. Gentle manipulation may correct minor misalignments.

5.2 Paint or Decal Damage

- Die-cast vehicles are durable but can sustain cosmetic damage from impacts or rough play.
- Avoid dropping the cars or subjecting them to excessive force.
