Model: EQDWTTXL

1. IMPORTANT SAFETY INFORMATION

Please read this manual thoroughly before operating your appliance and retain it for future reference. This manual contains important information regarding the safe installation, use, and maintenance of the dishwasher.

- Ensure the appliance is properly earthed before use.
- Do not operate the dishwasher if the power cord or plug is damaged.
- Keep children away from the appliance during operation and when the door is open.
- Only use detergents and rinse aids specifically designed for dishwashers.
- Do not open the door during operation, especially during the washing cycle, as hot water may spray out.
- Always disconnect the appliance from the power supply before cleaning or maintenance.
- This appliance is intended for residential use only.

2. PRODUCT OVERVIEW

The electriQ XL Mini Table Top Dishwasher is a compact yet spacious appliance designed for small kitchens, holiday homes, or small households. It offers a generous 8 place setting capacity and can be placed on a countertop or integrated.

3. SETUP AND INSTALLATION

3.1 Placement:

The dishwasher is designed for countertop placement. Ensure the surface is stable, level, and capable of

supporting the weight of the appliance when full. Allow adequate space around the unit for ventilation and hose connections.

3.2 Water Connections:

This dishwasher offers flexible water supply options:

- **Direct Water Line Connection:** Connect the inlet hose to a cold water tap with a 3/4-inch thread. Ensure the connection is secure to prevent leaks.
- **Built-in Water Tank:** For areas without a direct water supply, the dishwasher can be filled manually. Refer to the control panel indicators for water level.

Connect the drain hose to a suitable drain point, ensuring it is not kinked or blocked. The drain hose should be positioned to allow proper drainage.

3.3 Electrical Connection:

Plug the dishwasher into a grounded mains electricity supply (220 Volts). Ensure the socket is easily accessible and not overloaded.

4. OPERATING INSTRUCTIONS

4.1 Loading the Dishwasher:

Scrape off large food particles from dishes before loading. Place larger items in the lower rack and smaller, more delicate items like glasses and cups in the upper rack. Ensure items do not block the spray arms.

4.2 Adding Detergent and Rinse Aid:

Open the detergent dispenser and add the recommended amount of dishwasher detergent. Fill the rinse aid dispenser as needed; the indicator light will signal when it's low.

4.3 Program Selection:

Select the desired wash program using the control panel. Available programs include:

- **Rapid Cycle:** For lightly soiled loads, completes in 30 minutes.
- **90-Minute Cycle:** For a full wash, rinse, and dry cycle.
- **Intensive Cycle:** Designed for heavily soiled dishes with tough, baked-on food.
- **Glass Cycle:** Gentle cleaning for delicate glassware.
- **ECO Cycle:** Energy-efficient and environmentally friendly option.

4.5 Delay Timer:

Use the delay timer to postpone the start of a wash cycle for 1 to 24 hours. This feature is useful for running the dishwasher during off-peak energy hours.

5. MAINTENANCE AND CARE

5.1 Cleaning the Filters:

Regularly clean the filter system located at the bottom of the dishwasher tub to ensure optimal cleaning performance and prevent blockages. Remove the filter assembly, rinse it under running water, and brush away any food debris. Reassemble correctly.

5.2 Self-Cleaning Feature:

The dishwasher includes a self-cleaning feature. Refer to the control panel or specific program settings for activating this cycle, which helps maintain the internal cleanliness of the appliance.

5.3 Exterior and Interior Cleaning:

Wipe the exterior of the dishwasher with a soft, damp cloth. For the interior, periodically wipe down the walls and door seal with a mild detergent solution to prevent odor buildup and maintain hygiene.

6. TROUBLESHOOTING

Before contacting customer support, please refer to the following common issues and their potential solutions:

Problem	Possible Cause / Solution
Dishwasher does not start	Check if the power cord is securely plugged in. Ensure the door is fully closed and latched. Check the circuit breaker.
Dishes are not clean	Ensure dishes are loaded correctly and not blocking spray arms. Check detergent dispenser. Clean filters. Select a more intensive wash program if needed.
Water not draining	Check if the drain hose is kinked or blocked. Clean the filter system.
Excessive noise	Ensure dishes are not rattling against each other or the spray arms. Check for foreign objects in the pump area.
Leaks from the door	Check the door seal for damage or debris. Ensure the dishwasher is level.
