› Papablic Bottle Washer Pro, Baby Bottle Washer & Sterilizer & Dryer, 4-in-1 Bottle Washer Sanitizer for Bottles, Pump Parts, & Baby Essentials - Quick & Clean with 60 Detergent Tablets White Instruction Manual

## Papablic ZMW-STHB03

# Papablic Bottle Washer Pro Instruction Manual

Model: ZMW-STHB03

Brand: Papablic

## 1. INTRODUCTION

The Papablic Bottle Washer Pro is an advanced 4-in-1 solution designed to simplify baby bottle and accessory care. This innovative appliance washes, sterilizes, dries, and stores, providing a hygienic and convenient method for maintaining your baby's feeding essentials. Its intuitive design and powerful cleaning capabilities ensure thorough sanitation and peace of mind for new parents.

# PureVault™ System

Intense Sterilization Kills **99.9%** of Germs with Natural Steam

Image: Visual representation of the PureVault System, showing intense sterilization with natural steam to kill 99.9% of germs inside bottles.

## 3. SETUP

Before first use, ensure the unit is placed on a stable, level surface near a power outlet and a sink for drainage. Unpack all components and remove any protective packaging.

### 3.1 Initial Placement

Position the Papablic Bottle Washer Pro on a clean, dry countertop. Ensure there is adequate space around the unit for proper ventilation and access to the water tank and drain hose.

### 3.2 Water Tank and Drain Hose Connection

The unit features a removable water tank and a 1-meter flexible drain hose. Connect the drain hose securely to the designated outlet on the back of the unit and place the other end into a sink or suitable drainage area. This design eliminates the need for a dirty water tank, simplifying disposal.

#### Effortless No-bend Panel Design

One-touch start for cleaning, sterilizing, drying, and storage

## 4. OPERATING INSTRUCTIONS

Follow these steps for effective cleaning, sterilization, and drying of your baby's items:

1. **Step 1: Add Water.** Fill the water tank to the "MIN" line with clean water. The tank has a 2.5L capacity.
2. **Step 2: Load Items.** Place dirty bottles, pump parts, sippy cups, pacifiers, or other baby essentials into the washer. Ensure items are arranged to allow water and steam to reach all surfaces.
3. **Step 3: Add Detergent.** Place one Papablic detergent tablet into the machine bottom.
4. **Step 4: Select Mode.** Choose your desired cleaning mode using the angled control panel.

#### Come with 60 Detergent Tablets

One tablet goes a long way in thoroughly cleaning bottles, nipples, and accessories

Image: A four-step guide demonstrating how to use the bottle washer: adding water, loading items, adding a detergent tablet, and selecting a mode.

## 4.1 Wash Modes

The Papablic Bottle Washer Pro offers two smart wash modes:

- **Quick Wash (19 min):** Ideal for light milk residue and daily cleaning.
- **Normal Wash (29 min):** Provides thorough cleaning for stubborn buildup.

Image: A visual guide to the two smart wash modes: Quick Wash (19 min) for light residue and Normal Wash (29 min) for thorough cleaning.

## 4.2 Sterilization and Drying

After washing, the unit automatically proceeds to sterilization and drying cycles. The PureVault™ System uses natural steam for 99.99% germ elimination, followed by 360° hot air circulation to ensure items are completely dry and ready for storage.

Image: Illustration of the 360° hot air circulation system, continuously refreshing air to maintain a clean and sterile environment inside the washer.

## 5. LOADING CAPACITY AND ITEM PLACEMENT

The Papablic Bottle Washer Pro is designed to accommodate a variety of baby feeding items. For optimal cleaning, ensure items are placed correctly within the racks.

- **Baby Bottles:** Can hold over 4 standard bottles.
- **Pump Parts:** Fits 2 full pump kits, including wearable and traditional breast pump components.
- **Other Essentials:** Suitable for sippy cups, pacifiers, and small kidware.

### HEPA Filtration System

**99.5%** Dust

**99.9%** Impurities

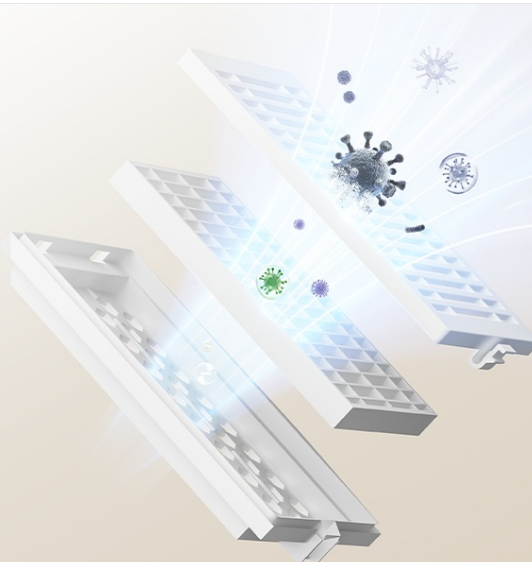

Image: Examples of optimal item placement for baby bottles, wearable pump parts, and breast pump parts within the washer for a perfect clean.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Papablic Bottle Washer Pro.

### 6.1 Cleaning the Unit

- Wipe down the exterior with a damp cloth regularly.
- Periodically clean the interior and racks to prevent mineral buildup.

### 6.2 Descaling

To prevent limescale buildup, especially in hard water areas, descale the unit every three months or as needed. Refer to the full user manual for detailed descaling instructions using a descaling solution or white vinegar.

### 6.3 HEPA Filtration System

The unit is equipped with a HEPA filtration system to ensure clean air circulation during the drying process, filtering 99.5% of dust and 99.9% of impurities. Replace the HEPA filter as recommended in the full user manual to maintain efficiency.

## Compact Size for Most Kitchens

Comparable in size to a 5Qt air fryer, it fits neatly under cabinets while maximizing internal capacity for bottles and accessories

Image: Diagram illustrating the multi-layer HEPA Filtration System, designed to remove 99.5% of dust and 99.9% of impurities from the air.

### 6.4 Detergent Tablets

Use Papablic detergent tablets for optimal cleaning performance. Each tablet is formulated to thoroughly clean bottles, nipples, and accessories. The product comes with 60 tablets to get you started.

## 7. TROUBLESHOOTING

If you encounter any issues with your Papablic Bottle Washer Pro, refer to the following common troubleshooting tips:

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                           | Possible Cause                                                | Solution                                                                                                                                                               |
|-----------------------------------|---------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Items not thoroughly cleaned      | Improper loading; insufficient detergent; heavy milk residue. | Ensure items are not overcrowded and spray jets are unobstructed. Use one detergent tablet per wash. For heavy residue, pre-rinse items or use Normal Wash mode.       |
| Water spots on items after drying | Hard water; items not positioned to drain properly.           | Use distilled water if hard water is an issue. Ensure items with grooves or indentations are placed on their side to allow water to drain. Descale the unit regularly. |
| Unit not starting or responding   | Power issue; lid not properly closed.                         | Check power connection. Ensure the lid is securely latched.                                                                                                            |
| Unusual odor during operation     | Buildup of milk residue or mineral deposits.                  | Clean the interior thoroughly and perform a descaling cycle.                                                                                                           |

For issues not listed here, please contact Papablic customer support.

## 8. SPECIFICATIONS

| Specification            | Detail                       |
|--------------------------|------------------------------|
| Product Dimensions       | 10.83 x 14.88 x 16.06 inches |
| Item Model Number        | ZMW-STHB03                   |
| Material Composition     | Sterilizer                   |
| Item Weight              | 15.23 pounds                 |
| Water Tank Capacity      | 2.5 Liters                   |
| Sterilization Efficiency | 99.99%                       |
| Spray Jets               | 26 Precision Jets            |
| Pressure                 | 25,000Pa                     |

## 9. WARRANTY AND SUPPORT

The Papablic Bottle Washer Pro comes with a**3-year exclusive warranty**, supported by Papablic's professional

engineering team. This warranty covers defects in materials and workmanship under normal use.

For warranty claims, technical assistance, or any questions regarding your product, please contact Papablic customer support through their official website or the contact information provided in your product packaging.
