Joyway TR008

Joyway Luggage Set User Manual

MODEL: TR008

1. INTRODUCTION

Thank you for choosing the Joyway 4-Piece Hard Shell Luggage Set. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your new luggage set. Please read it carefully to ensure a smooth travel experience.

Your set includes:

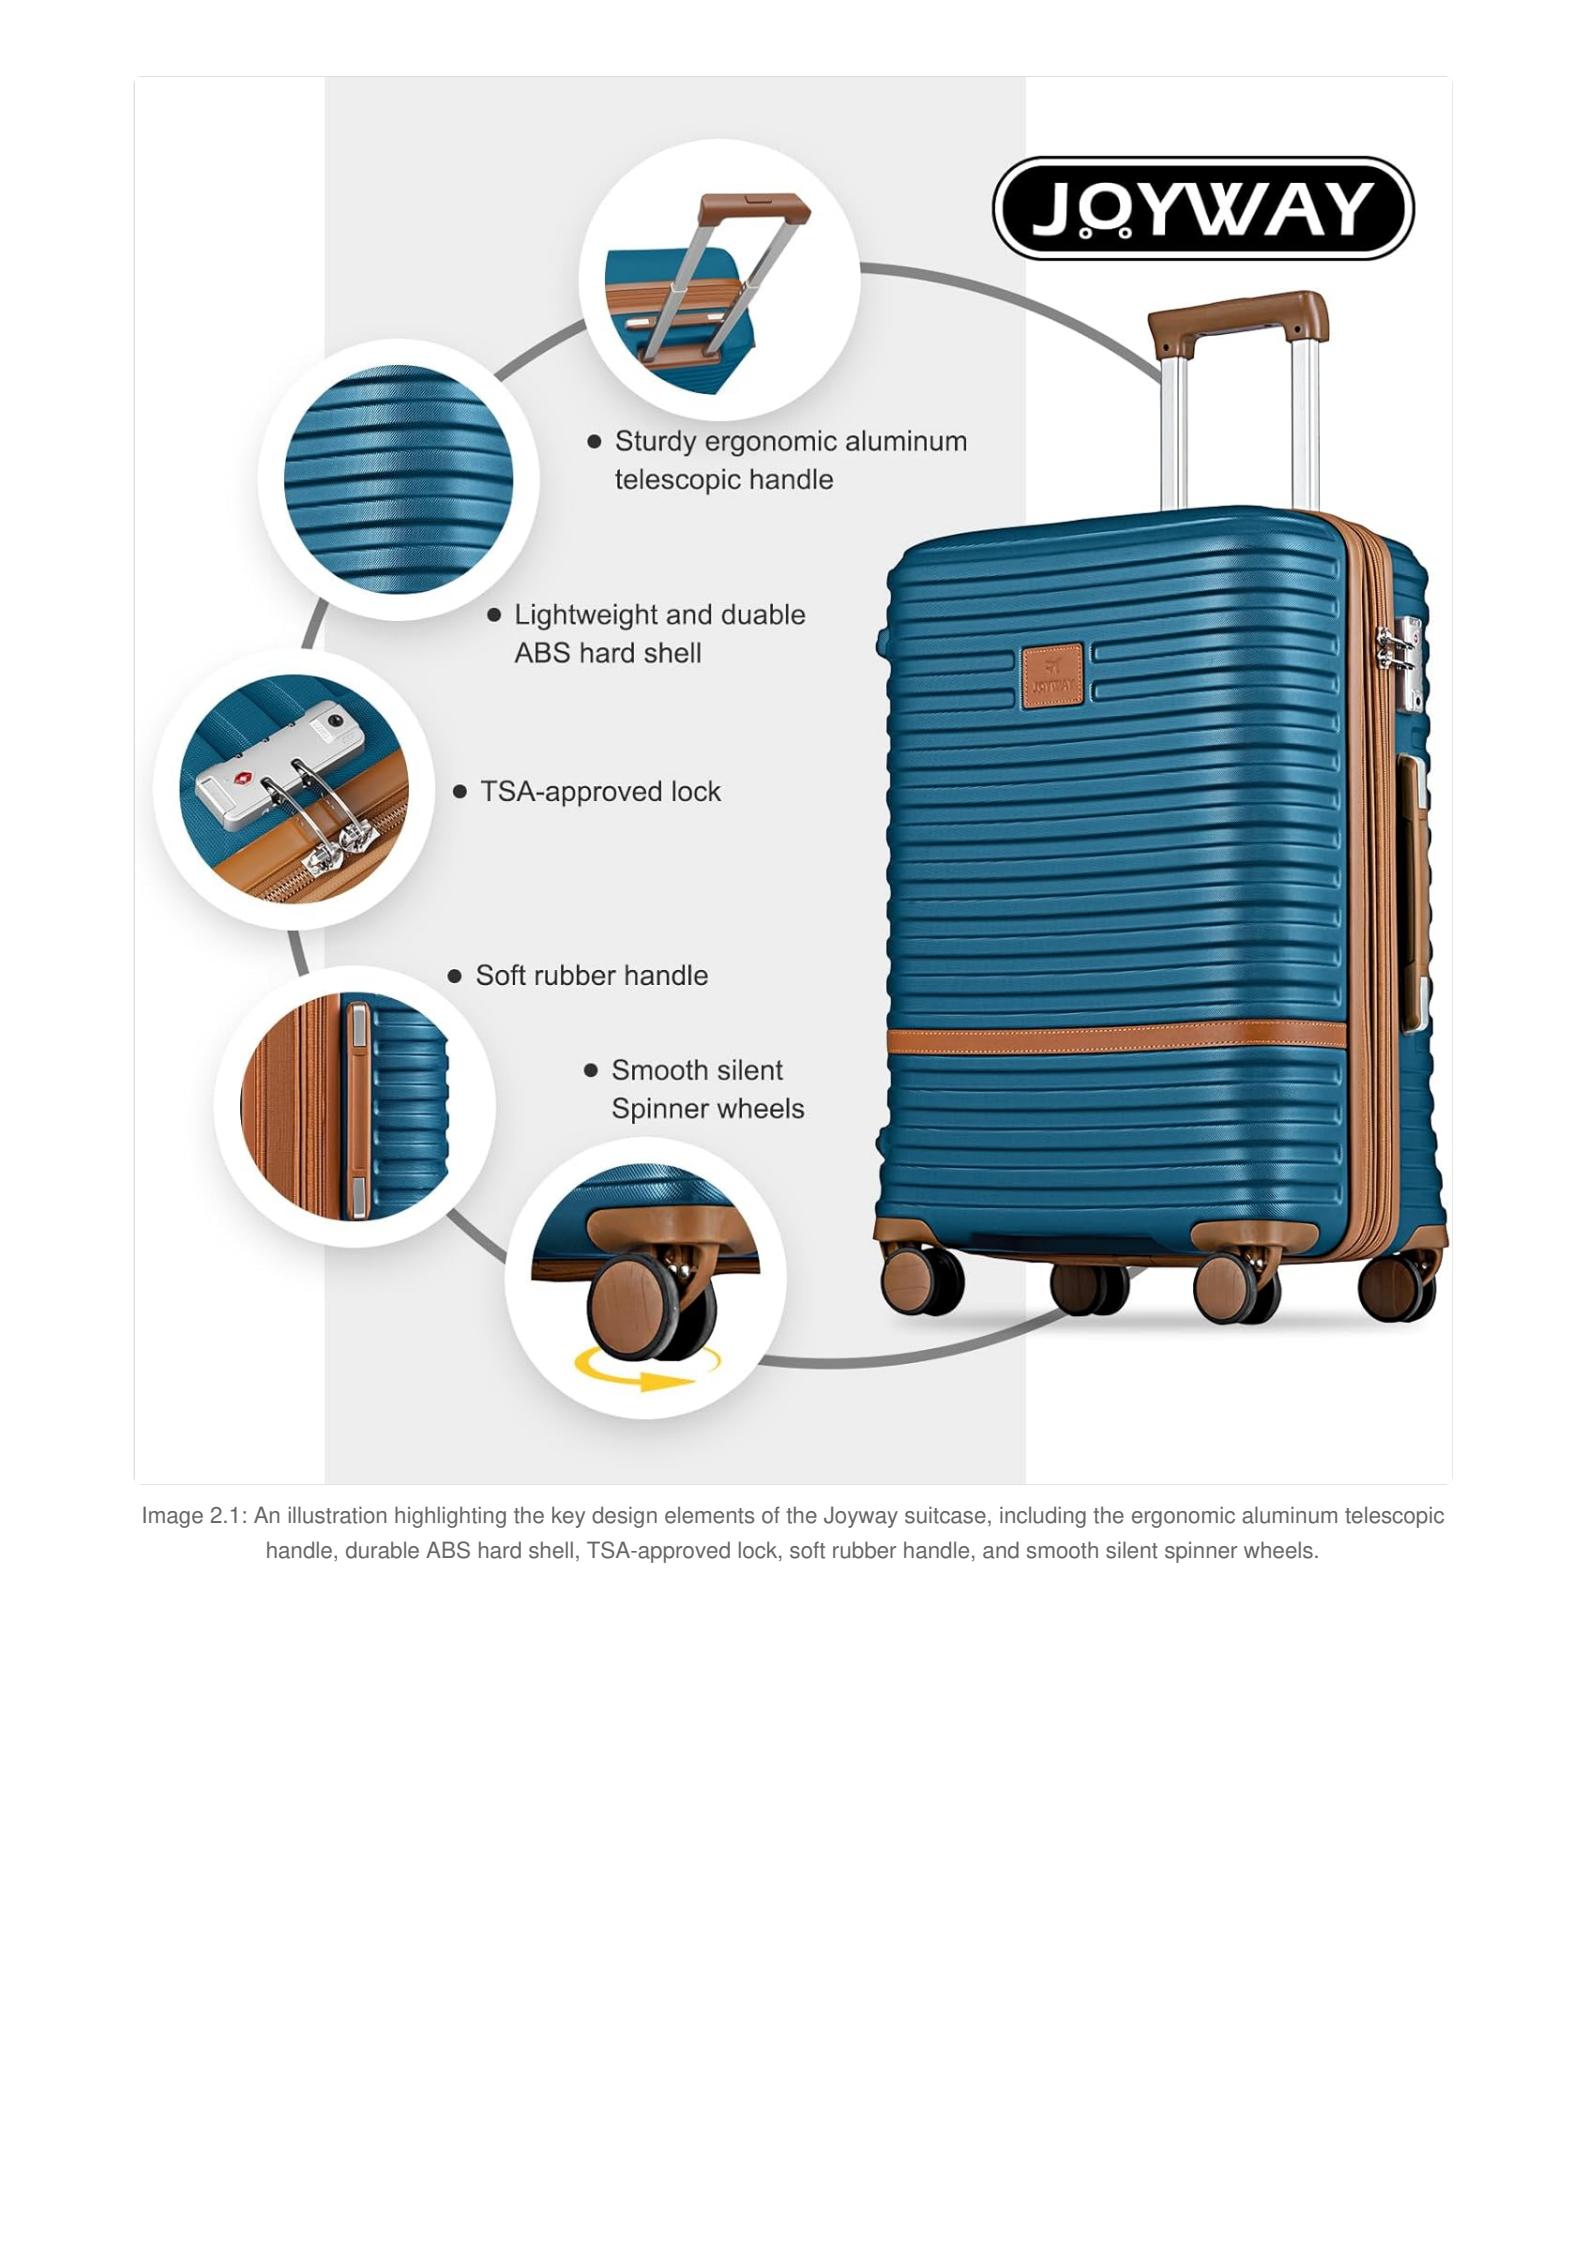

- 13-inch luggage
- 20-inch carry-on luggage
- Travel bag
- Toiletry bag

3. SETUP

3.1 Initial Unpacking

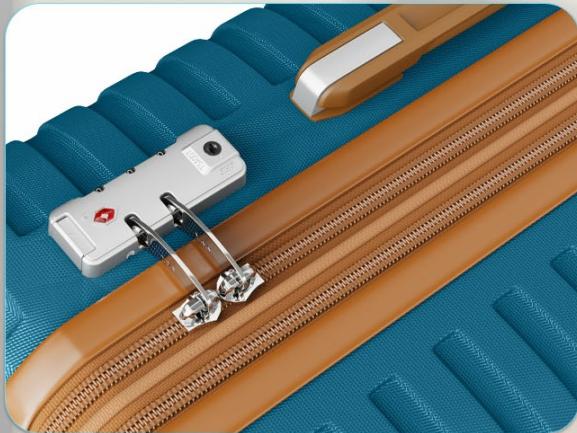

Upon receiving your Joyway luggage set, carefully remove all packaging materials. Inspect each piece for any signs of damage. The smaller pieces are designed to nest inside the larger ones for compact storage during shipping.

3.2 Setting the TSA Combination Lock

Your Joyway luggage is equipped with a TSA-approved combination lock. Follow these steps to set your personal combination:

1. Ensure the dials are set to the original factory default combination (usually 0-0-0).
2. Locate the reset button (a small, recessed button, often on the side of the lock). Use a pen or a pointed tool to press and hold this button until you hear a "click" sound.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. You should hear another "click" sound, indicating your new combination is set.

Remember your new combination. If you need to reset the combination in the future, repeat these steps.

TSA Lock Instruction Manual

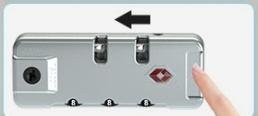

1. Put the dials at its original numbers 0-0-0.

2. Press down the reset button(b) with a tool until hear the "click" sound.

3. Set your combination by turning the dials(a), for example 8-8-8.

4. Push the button(c) toward to the direction of arrow and you will hear a "click" sound again, then done!

Now you have finished setting your personal combination. Please repeat the above steps if you want to reset the number.

4. OPERATING YOUR LUGGAGE

4.1 Using the Spinner Wheels

The 360-degree spinner wheels allow for smooth and effortless movement in any direction. To maneuver, simply push or pull the luggage from the telescopic handle. The wheels are designed for stability and ease of glide across various surfaces.

The duffel bag can be easily attached to the handle

Expandable duffel bag provides extra room

4.2 Expanding Capacity

For additional packing space, locate the expansion zipper around the perimeter of the hard shell suitcases. Unzip this section to gain approximately 15% more volume. This feature is ideal for accommodating extra items or souvenirs acquired during your travels.

4.3 Attaching Travel and Toiletry Bags

The travel bag is designed with a rear luggage sleeve, allowing it to be securely attached to the telescopic handle of the larger suitcases. This provides convenient stacking and easier transport of multiple bags.

5. MAINTENANCE

5.1 Cleaning the Hard Shell

To clean the ABS hard shell, wipe with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents, as these can damage the surface. Dry thoroughly after cleaning.

5.2 Cleaning Fabric Bags

For the travel and toiletry bags, spot clean with a damp cloth and mild detergent. Allow to air dry completely. Do not machine wash or tumble dry.

5.3 Wheel and Zipper Care

Periodically check the spinner wheels for any debris or hair that might impede their movement. Clean as necessary. For zippers, a small amount of silicone spray can help maintain smooth operation if they become stiff.

6. TROUBLESHOOTING

6.1 TSA Lock Issues

If you forget your combination or the lock is not functioning correctly, refer to Section 3.2 for instructions on how to reset the lock. Ensure the dials are aligned precisely with your chosen numbers when attempting to open.

6.2 Stiff Zippers

If zippers become stiff or difficult to move, apply a small amount of zipper lubricant or a graphite pencil lead along the teeth. Slowly work the zipper back and forth to distribute the lubricant.

6.3 Wheel Malfunction

If a wheel is not spinning freely, check for any lodged debris (e.g., hair, lint) and carefully remove it. If the issue persists, ensure the wheel is securely attached. Avoid overloading the luggage, as excessive weight can strain the wheels.

7. SPECIFICATIONS

Attribute	Detail
Product Dimensions	15 x 9.5 x 22 inches (20-inch carry-on)
Item Weight	10.28 pounds (total set)
Department	Unisex Adult
ASIN	B0DB5D781Y
