Anker A82G2

Anker Nano USB A to USB C Cable (6 ft, Black) Instruction Manual

Model: A82G2

INTRODUCTION

The Anker Nano USB A to USB C Cable is designed for reliable charging and data transfer between USB-A and USB-C compatible devices. This 6-foot black cable features an upcycled-braided cord for enhanced durability and a tangle-resistant design for ease of use and storage. It supports various devices including iPhone 15/16/17 series, Samsung Galaxy Note20, and more.

SETUP

To set up your Anker Nano USB A to USB C Cable, follow these simple steps:

1. **Identify Ports:** Locate a standard USB-A port on your power adapter, computer, or car charger. Identify the USB-C port on your smartphone, tablet, or other compatible device.
2. **Connect USB-A:** Insert the USB-A end of the cable into the USB-A port of your power source or host device.
3. **Connect USB-C:** Insert the USB-C end of the cable into the USB-C port of your target device. Ensure a firm connection at both ends.

For in-car use with systems like Apple CarPlay or Android Auto, connect the USB-A end to your vehicle's USB-A data port and the USB-C end to your smartphone.

Lasts for 10 Years with Superior Bend Durability

35,000+

Bend Lifespan

*Based on internal lab testing involving 8 bends per day,
this cable is projected to last up to 10 years.

Note that the image shows only the USB-C end; this is a USB-A to USB-C cable.

OPERATING

The Anker Nano USB A to USB C Cable facilitates both charging and data transfer for compatible devices.

- **Charging:** When connected to a compatible power adapter, the cable delivers power to your USB-C device. It

supports up to 5V 3A (15W) and Quick Charge (QC) 18W Max for efficient charging.

- **Data Transfer:** The cable supports data transfer speeds of up to 480 Mbps, allowing for quick synchronization of files, photos, and videos between your devices.
- **CarPlay/Android Auto:** For vehicles equipped with Apple CarPlay or Android Auto, this cable provides a stable and reliable connection for seamless integration of your smartphone's features with your car's infotainment system.

Sustainably Charged

MAINTENANCE

To ensure the longevity and optimal performance of your Anker Nano USB A to USB C Cable, consider the following maintenance tips:

- **Storage:** The cable features a tangle-resistant design. When not in use, coil the cable neatly and secure it with the included strap or a cable tie to prevent tangles and kinks.
- **Cleaning:** Use a soft, dry cloth to wipe the cable and connectors. Avoid using harsh chemicals or abrasive materials, which can damage the cable's braided exterior or connectors.
- **Handling:** Avoid excessive bending or sharp angles, especially near the connectors, to prevent internal wire damage. The cable is engineered to withstand over 35,000 bends, but proper handling extends its lifespan.
- **Environment:** Store the cable in a cool, dry place away from direct sunlight, extreme temperatures, and moisture.

TROUBLESHOOTING

If you encounter issues with your Anker Nano USB A to USB C Cable, refer to the following common problems and solutions:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
- Verify that the power adapter or USB-A port is functional and providing power.
- Check if your device's charging port is clean and free of debris.
- Confirm that your device is compatible with USB-C charging.

- **Slow Charging:**

- Ensure your power adapter supports the required charging speed for your device (e.g., Quick Charge).
- Some devices have limited charging speeds via USB-A. Refer to your device's specifications.

- **Data Transfer Issues:**

- Ensure both devices (e.g., phone and computer) are powered on and configured for data transfer.
- Check your device's settings to allow data access when connected via USB.

- **CarPlay/Android Auto Disconnections:**

- Ensure your car's infotainment system and smartphone software are up to date.
- Try restarting both your phone and the car's infotainment system.
- Verify that the USB-A port in your car supports data transfer for CarPlay/Android Auto.
