## 3. SETUP

---

### 3.1 Charging the Headphones

Before first use, fully charge your Rythflo WH03 headphones. A full charge takes approximately 2 hours

and provides up to 150 hours of playtime. For quick power, a 10-minute charge can provide up to 15 hours of listening time.

1. Locate the USB-C charging port on the control module.
2. Open the protective flap covering the port.
3. Connect the provided USB-C cable to the headphones and the other end to a compatible USB power source (e.g., wall adapter, computer USB port).
4. The LED indicator will show charging status and turn off when fully charged.
5. Close the protective flap securely after charging to maintain IPX7 water resistance.

### 3.2 Selecting Eartips

For optimal sound quality and comfort, choose the eartips that best fit your ears. The package includes multiple sizes (S/M/L) of soft silicone eartips.

1. Gently remove the pre-installed eartips.
2. Try different sizes until you find a snug and comfortable fit that creates a good seal in your ear canal.
3. A proper seal enhances bass response and noise isolation.

### UNLEASH THE TRUE POWER OF SOUND

At Rythflo, we combine innovation and passion to deliver top-notch audio products. With **20+ years** of experience in audio design and production, we offer a range of innovative **Bluetooth headphones, portable speakers, and microphones for iPhone** that will transform your audio experience. And more...

## 3.3 Powering On/Off and Pairing

The Rythflo WH03 headphones feature a magnetic power control for convenience.

- **Power On:** Separate the magnetic earbuds. The headphones will automatically power on and enter pairing mode (indicated by a flashing LED).
- **Power Off:** Bring the magnetic earbuds together. They will automatically power off.
- **Pairing:**
  1. Ensure the headphones are powered on and in pairing mode (flashing LED).
  2. On your device (smartphone, tablet, etc.), enable Bluetooth.
  3. Search for "WH03" or "Rythflo WH03" in the list of available Bluetooth devices.
  4. Select the headphones to connect. Once connected, the LED indicator will stop flashing.

Note: This video features a different model (Truefree HD-100) but illustrates general Bluetooth headphone functionality.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Control Functions

The Rythflo WH03 headphones feature an inline control module for easy management of audio and calls.

Button/Action	Function
<b>Power Button (Middle)</b>	Single Press: Play/Pause music, Answer/End call Long Press: Power On/Off (if not using magnetic control), Reject call
<b>Volume Up (+)</b>	Single Press: Increase volume Long Press: Next track
<b>Volume Down (-)</b>	Single Press: Decrease volume Long Press: Previous track

## 4.2 Call Management

The built-in microphone with Environmental Noise Cancellation (ENC) ensures clear voice transmission during calls.

- **Answer Call:** Press the Power Button once.
- **End Call:** Press the Power Button once during a call.
- **Reject Call:** Long press the Power Button.

Image: Close-up of the control module, highlighting the microphone for Environmental Noise Cancellation (ENC) for clear calls.

## 5. MAINTENANCE

### 5.1 Cleaning and Storage

- Wipe the headphones with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials.
- Store the headphones in a cool, dry place away from extreme temperatures and direct sunlight.
- When not in use, allow the magnetic earbuds to connect to prevent tangling and conserve battery.

### 5.2 Water Resistance (IPX7)

The Rythflo WH03 headphones are IPX7 rated, meaning they are protected against immersion in water up to 1 meter for up to 30 minutes. They are sweatproof and suitable for workouts and outdoor activities.

- Ensure the USB-C charging port cover is securely closed before exposure to water.
- Do not intentionally submerge the headphones for prolonged periods or in depths greater than 1 meter.
- Rinse with fresh water and dry thoroughly after exposure to sweat or saltwater.

## 6. TROUBLESHOOTING

---

If you encounter issues with your Rythflo WH03 headphones, try the following steps:

- **No Power:** Ensure the headphones are fully charged.
- **Cannot Pair:**
  - Make sure Bluetooth is enabled on your device.
  - Ensure the headphones are in pairing mode (flashing LED).
  - Turn off and on your device's Bluetooth, then try pairing again.
  - If previously paired, try "forgetting" the device on your phone and re-pairing.
- **Poor Sound Quality:**
  - Check eartip fit for a proper seal.
  - Ensure the headphones are within the Bluetooth range of your device.
  - Clean any debris from the eartips or speaker grilles.
- **Intermittent Connection:**
  - Move closer to your paired device.
  - Avoid strong electromagnetic interference.
  - Ensure no other devices are actively trying to connect to the headphones.

If the issue persists, please contact customer support for assistance.
