Vieta Pro Orpheo (VM-BS1000BK)

Vieta Pro Orpheo Portable Bluetooth Speaker User Manual

Brand: Vieta Pro | Model: Orpheo (VM-BS1000BK)

INTRODUCTION

Thank you for choosing the Vieta Pro Orpheo Portable Bluetooth Speaker. This manual provides essential information for setting up, operating, and maintaining your speaker to ensure optimal performance and longevity. The Orpheo speaker combines vintage aesthetics with modern technology, offering a robust audio experience with features like Bluetooth 5.3, True Wireless Stereo (TWS) functionality, IPX7 water resistance, and USB playback.

The Vieta Pro Orpheo speaker is designed for portability and powerful sound, fitting comfortably in your hand.

PACKAGE CONTENTS

Before you begin, please ensure all items are present in the package:

- Vieta Pro Orpheo Portable Bluetooth Speaker
- USB Charging Cable
- User Manual

1. Charging the Speaker

Before first use, fully charge the speaker. Locate the charging port, usually protected by a waterproof cover, on the side of the device.

1. Open the protective cover on the side of the speaker.
2. Connect the provided USB charging cable to the speaker's charging port.
3. Connect the other end of the USB cable to a compatible USB power adapter (not included) or a computer's USB port.
4. The charging indicator light will illuminate. Once fully charged, the light may change color or turn off.

A full charge provides up to 10 hours of playback time.

The side panel of the speaker, where the charging port is located, is protected by a cover to maintain IPX7 water resistance.

OPERATING INSTRUCTIONS

1. Power On/Off

- To power on, press and hold the Power button for a few seconds until you hear an audible prompt or see the indicator lights activate.
- To power off, press and hold the Power button again until the speaker shuts down.

2. Bluetooth Pairing

The speaker uses Bluetooth 5.3 for stable and fast connections.

1. Ensure the speaker is powered on and in pairing mode (indicated by a flashing LED light, typically blue). If not, briefly press the Bluetooth button.
2. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
3. Select "Vieta Pro Orpheo" from the list of found devices.
4. Once connected, the LED indicator will typically turn solid blue, and you will hear a confirmation sound.

3. True Wireless Stereo (TWS) Mode

Connect two Vieta Pro Orpheo speakers for a true stereo sound experience.

1. Ensure both speakers are powered on and not connected to any other Bluetooth device.
2. On one speaker (this will be the primary speaker), press the TWS button (if available) or a designated pairing button.
3. The speakers will automatically search for and connect to each other. You will hear a confirmation sound when TWS pairing is successful.
4. Once paired, connect your device to the primary speaker via Bluetooth as described above. Both speakers will now play audio in stereo.

4. USB Playback

Play music directly from a USB flash drive.

1. Insert a USB flash drive containing audio files (e.g., MP3, WAV) into the speaker's USB port.
2. The speaker should automatically switch to USB playback mode. If not, press the Mode button (if available) to cycle through input sources.
3. Use the speaker's playback controls (Play/Pause, Next/Previous Track) to manage your music.

5. Volume Control

- Press the + button to increase volume.
- Press the - button to decrease volume.

The top panel of the speaker features intuitive control buttons for power, volume, and mode selection.

MAINTENANCE AND CARE

1. Cleaning

To keep your speaker in optimal condition:

- Wipe the exterior with a soft, damp cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents, as these may damage the surface.
- Ensure all ports are dry before charging or connecting cables.

2. IPX7 Water Resistance

The Orpheo speaker is IPX7 certified, meaning it can withstand immersion in water up to 1 meter for up to 30 minutes. To maintain its water resistance:

- Always ensure the protective cover for the charging and USB ports is securely closed before exposing the speaker to water.
- Do not expose the speaker to saltwater or other chemicals. If it comes into contact with such substances, rinse it with fresh water and dry thoroughly.
- Avoid prolonged immersion or exposure to high-pressure water jets.

The IPX7 rating ensures the speaker can withstand splashes and brief immersion, making it suitable for various environments.

3. Battery Care

- Charge the speaker regularly, even if not in use, to prolong battery life.
- Avoid fully discharging the battery frequently.
- Store the speaker in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not turn on.	Low battery.	Charge the speaker fully.
Cannot pair via Bluetooth.	Speaker not in pairing mode; device Bluetooth off; too far from speaker.	Ensure speaker is in pairing mode; enable Bluetooth on your device; move device closer to speaker (within 10m).
No sound.	Volume too low; incorrect input source; speaker not connected.	Increase volume on speaker and device; check input mode (Bluetooth/USB); ensure successful Bluetooth connection.
TWS pairing fails.	Speakers already connected to other devices; too far apart.	Disconnect speakers from other devices; ensure they are close to each other during TWS pairing.
