

Seauto SEAUTO-UFO

Seauto Cordless Robotic Pool Cleaner SEAUTO-UFO Instruction Manual

Model: SEAUTO-UFO

1. INTRODUCTION

Thank you for choosing the Seauto Cordless Robotic Pool Cleaner, Model SEAUTO-UFO. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your new pool cleaner. Please read this manual thoroughly before initial use and retain it for future reference.

2. SAFETY INFORMATION

WARNING: Read all safety warnings and instructions before using this appliance. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury.

- Ensure the charging port is dry before connecting the charger.
- Do not operate the cleaner if the power cord or charger is damaged.
- Keep children and pets away from the pool area when the cleaner is in operation or charging.
- Only use the original charger provided by the manufacturer.
- Do not use the cleaner to remove large debris such as leaves, branches, or rocks, as this may damage the unit. Manually remove large debris before operating the cleaner.
- Remove the cleaner from the pool after each cleaning cycle and before charging.
- Store the cleaner in a cool, dry place away from direct sunlight when not in use.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Seauto G900 Pool Cleaner (Model SEAUTO-UFO)
- 1 x Retrieval Hook

- 1 x Power Adapter
- 1 x User Manual (this document)
- 1 x Filter

4. PRODUCT OVERVIEW

The Seauto Cordless Robotic Pool Cleaner is designed for efficient and autonomous cleaning of various pool types. Its key features include:

- **Cordless Design:** Eliminates the need for hoses and tangled cords, offering hands-free operation.
- **Robust Battery Life:** Provides up to 60 minutes of cleaning time on a single charge.
- **Strong Suction:** Equipped with 6000Pa suction power to effectively remove debris.
- **Automatic Parking:** Returns to the pool edge when the battery is low for easy retrieval.

5. SETUP

5.1 Initial Charging

1. Ensure the cleaner is completely dry before charging.
2. Connect the power adapter to the charging port located on the underside of the cleaner.
3. Plug the power adapter into a standard electrical outlet.
4. Allow approximately 2.3 hours for a full charge. The indicator light will change to confirm charging status.

5.2 Placing in the Pool

1. Once fully charged, ensure the charging port cover is securely closed.
2. Gently lower the cleaner into the pool. It will sink to the bottom.
3. Ensure the cleaner is fully submerged before starting operation.

6. OPERATING INSTRUCTIONS

6.1 Starting Operation

- After placing the cleaner in the pool, press the power button (usually located on the top or side) to start the cleaning cycle.
- The cleaner will begin to move across the pool floor, collecting debris.

6.2 Cleaning Cycle

- The cleaner operates for approximately 60 minutes on a full charge.
- It is designed to clean pool areas up to 645 sq. ft. (60 m²) and pools with a diameter of up to 28.67 ft (8.74 m).
- The cleaner is suitable for flat-bottom pools with a slope of 10° or less, and compatible with various pool shapes, including above-ground and indoor swimming pools.

6.3 Automatic Parking and Retrieval

- When the battery level is low, the cleaner will automatically move to the nearest pool edge.
- Use the provided retrieval hook to carefully lift the cleaner out of the water.
- Always remove the cleaner from the pool after each use to prevent damage and prolong battery life.

7. MAINTENANCE

7.1 Cleaning the Filter

Regularly clean the filter to maintain optimal suction performance.

1. After removing the cleaner from the pool, open the filter compartment.
2. Remove the filter basket.
3. Rinse the filter thoroughly with a garden hose to remove all collected debris.
4. Ensure the filter is clean and dry before reinserting it into the cleaner.
5. Close the filter compartment securely.

7.2 Storage

- After cleaning, ensure the cleaner is completely dry before storing.
- Store the cleaner in a cool, dry place, away from direct sunlight and extreme temperatures.
- For long-term storage, it is recommended to charge the battery to approximately 50% every three months to maintain battery health.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cleaner does not start.	Battery is low or depleted.	Charge the cleaner fully.
Cleaner moves slowly or stops during operation.	Filter is clogged with debris.	Clean the filter thoroughly.
Cleaner is not picking up debris effectively.	Filter is dirty or damaged.	Clean or replace the filter. Ensure the suction inlet is clear.
Cleaner does not charge.	Charging port is wet or corroded. Charger is faulty.	Ensure charging port is dry and clean. Check charger connection. Contact customer support if issue persists.
Cleaner gets stuck or does not move properly.	Large debris obstructing wheels. Pool surface uneven or too steep.	Remove large debris. Ensure pool type is compatible with cleaner specifications.

9. SPECIFICATIONS
