Wet Sounds WS-L

Wet Sounds Portable Bluetooth Speaker WS-L Instruction Manual

Model: **WS-L** | Brand: **Wet Sounds**

1. INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your Wet Sounds Portable Bluetooth Speaker (Model WS-L). Please read these instructions carefully before using the product to ensure optimal performance and longevity.

Figure 1: Front view of the Wet Sounds Portable Bluetooth Speaker.

2. SAFETY INFORMATION

Always follow basic safety precautions when using this product to reduce the risk of fire, electric shock, and injury. Keep the speaker away from extreme temperatures and direct sunlight. Do not attempt to disassemble or modify the speaker. Ensure the charging port is dry before connecting the power cable.

3. PACKAGE CONTENTS

- Wet Sounds Portable Bluetooth Speaker (WS-L)
- Power Cable
- Instruction Manual

4. SETUP

4.1 Initial Charging

Before first use, fully charge the speaker using the provided power cable. The Lithium-Ion battery provides approximately 40 hours of playtime at normal levels, or 9 hours at maximum volume. A full charge typically takes several hours.

4.2 Powering On/Off

Press and hold the power button located on the side control panel to turn the speaker on or off.

Figure 2: Side control panel with power button, volume, and LED controls.

4.3 Bluetooth Pairing

1. Ensure the speaker is powered on.

2. Activate Bluetooth on your smartphone, tablet, or laptop.
3. Select 'Wet Sounds WS-L' from the list of available devices.
4. A confirmation sound will indicate successful pairing.

The speaker offers a Bluetooth range of up to 60 feet.

4.4 SKAA Wireless Connection

The speaker supports SKAA wireless technology for professional-grade audio performance with minimal latency. Refer to the SKAA documentation for your specific SKAA-enabled devices for detailed connection instructions. This allows for multi-speaker connections.

4.5 Stacking Multiple Speakers

The WS-L speaker features an interlocking design, allowing multiple units to be stacked securely for a larger sound system. Align the stacking points on the top and bottom of the speakers and gently press them together until they lock into place.

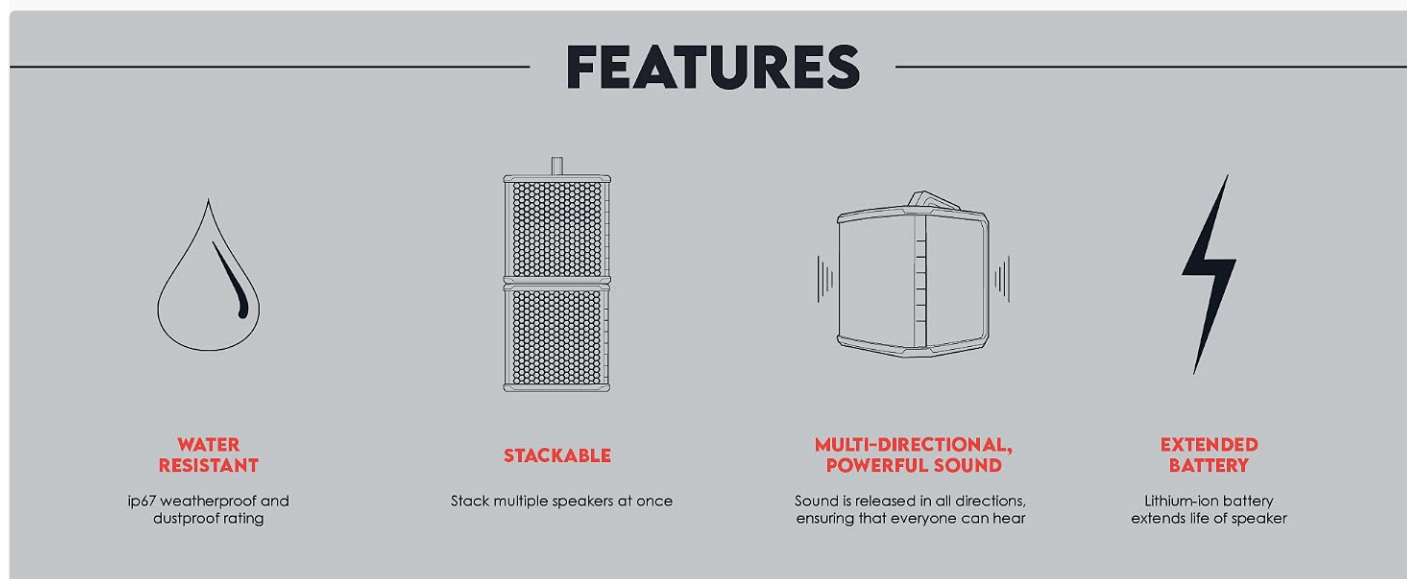

Figure 3: The speaker's stackable design for expanded audio coverage.

5. OPERATING INSTRUCTIONS

5.1 Basic Controls

The speaker features touch controls on its side panel:

- **Power Button:** Press and hold to turn on/off.
- **Volume Up (+):** Increase audio volume.
- **Volume Down (-):** Decrease audio volume.
- **Play/Pause:** Control media playback.
- **LED Control:** Cycle through LED modes or adjust brightness/color.

5.2 LED Lighting

The integrated LED lighting can be customized to enhance your listening experience. Use the dedicated LED control button on the side panel to adjust colors and brightness. Refer to the LED control section in the full manual for specific patterns and customization options.

MULTI-COLORED LEDS

Adjustable colors and brightness to suit any event

PORTABLE

Easily liftable at 25 lbs with built in handle

MULTI-CONNECTABLE

Connect to multiple speakers at once to amplify your sound

POWERFUL SOUND

126 dB of rich, crystal clear sound to fill any space

Figure 4: The speaker features multi-colored LED lighting.

5.3 Audio Output

The speaker provides stereo audio output. When multiple speakers are connected via SKAA, they can create a synchronized, multi-directional sound experience.

6. MAINTENANCE

6.1 Cleaning

To clean the speaker, use a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish. Ensure all ports are closed before cleaning with water.

6.2 Water and Dust Resistance

The Wet Sounds WS-L speaker has an IP67 weatherproof and dustproof rating. This means it is protected against dust ingress and can withstand immersion in water up to 1 meter for 30 minutes. While durable, it is recommended to avoid prolonged submersion.

DURABLE

Water and dust resistant

IP67 weatherproof and dustproof rating

Powerful battery Lithium-ion battery with 40 hour battery life at normal levels, 9 hours at max volume

Figure 5: The speaker's IP67 rating ensures protection against water and dust.

6.3 Storage

When not in use for extended periods, store the speaker in a cool, dry place. It is advisable to fully charge the battery before storing and to recharge it every few months to maintain battery health.

7. TROUBLESHOOTING

- **No Power:** Ensure the speaker is fully charged. Connect the power cable and allow it to charge for at least 30 minutes before attempting to power on again.
- **No Sound:** Check the volume levels on both the speaker and your connected device. Ensure the device is properly paired via Bluetooth or SKAA. Try re-pairing the device.
- **Bluetooth Disconnection:** Ensure your device is within the 60-foot Bluetooth range. Obstacles or other wireless devices can interfere with the connection. Try moving closer to the speaker or restarting both devices.

- **SKAA Connection Issues:** Verify that all SKAA-enabled speakers are within range and properly configured according to their respective manuals.
- **LEDs Not Working:** Check the LED control button. If the issue persists, try resetting the speaker (refer to the full manual for reset procedures if available).

If you encounter issues not covered here, please contact Wet Sounds customer support.

8. SPECIFICATIONS

Feature	Specification
Brand	Wet Sounds
Model Number	WS-L
Speaker Maximum Output Power	144 Watts
