

## HaiQin PD1701

# HaiQin Pagani Design 1701 Men's Chronograph Watch User Manual

Model: PD1701

## 1. INTRODUCTION

---

This manual provides detailed instructions for the proper use, setup, and maintenance of your HaiQin Pagani Design 1701 Men's Chronograph Watch. Please read this manual thoroughly to ensure optimal performance and longevity of your timepiece. Keep this manual for future reference.

## 2. PRODUCT OVERVIEW

---

The Pagani Design 1701 is a professional chronograph watch featuring a Japanese VK63 quartz movement, a durable stainless steel strap, and 100-meter water resistance. It is designed for precision timekeeping and includes chronograph functions for measuring elapsed time.

### Key Features:

- **Japanese VK63 Quartz Movement:** Ensures high accuracy and reliable timekeeping.
- **Professional Chronograph:** Features small seconds subdial, 60-minute subdial, 24-hour subdial, and a central chronograph hand for precise timing.
- **Stainless Steel Construction:** Case and strap are made from stainless steel, offering durability and corrosion resistance.
- **100-Meter Water Resistance:** Suitable for daily wear, including splashes, rain, and swimming. Not recommended for hot baths, saunas, or diving.
- **Sapphire Crystal:** Provides enhanced scratch resistance for the watch face.

- **Luminous Elements:** Hands and markers feature luminous material for visibility in low-light conditions.

## 3. SETUP

---

### 3.1 Setting the Time

1. Unscrew the crown (if applicable) and pull it out to the second click position.
2. Rotate the crown to set the hour and minute hands to the desired time.
3. Push the crown back in and screw it down securely (if applicable) to ensure water resistance.

### 3.2 Setting the Date

1. Unscrew the crown (if applicable) and pull it out to the first click position.
2. Rotate the crown to set the date. Avoid setting the date between 9 PM and 3 AM, as this can damage the movement.
3. Push the crown back in and screw it down securely (if applicable).

### 3.3 Adjusting the Bracelet

The stainless steel bracelet can be adjusted for a comfortable fit. This typically involves removing or adding links. A bracelet adjuster tool is often included with the watch. If you are unsure, it is recommended to have a professional jeweler adjust the bracelet.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Using the Chronograph Function

The chronograph allows you to measure elapsed time. Your Pagani Design 1701 watch features three sub-dials and two pushers (A and B) on the side of the case, in addition to the crown.

- **Pusher A (Top):** Starts and stops the chronograph.
  - **Pusher B (Bottom):** Resets the chronograph to zero.
1. To **start** the chronograph, press Pusher A. The central chronograph hand will begin to move.
  2. To **stop** the chronograph, press Pusher A again. The central chronograph hand and sub-dials will show the elapsed time.
  3. To **reset** the chronograph, press Pusher B. All chronograph hands will return to their zero positions.

The sub-dials typically indicate:

- **Small Seconds Subdial:** Continuous seconds for regular timekeeping.
- **60-Minute Subdial:** Measures elapsed minutes during chronograph operation.
- **24-Hour Subdial:** Indicates the time in a 24-hour format, synchronized with the main hour hand.

### 4.2 Water Resistance Guidelines

Your watch is rated for 100 meters (10 ATM) of water resistance. This means it is suitable for:

- Daily use, including hand washing and splashes.
- Rain exposure.
- Swimming in shallow water.

To maintain water resistance, ensure the crown is always screwed down tightly (if applicable). Avoid using the watch in hot baths, saunas, or environments with drastic temperature changes, as this can compromise the seals. Do not operate the crown or pushers while the watch is submerged in water.

## 5. MAINTENANCE

---

### 5.1 Cleaning Your Watch

Regular cleaning helps maintain the appearance of your watch. Use a soft, damp cloth to wipe the case and bracelet. For stainless steel bracelets, a soft brush with mild soap and water can be used to clean between links. Always rinse thoroughly with clean water and dry with a soft cloth. Avoid harsh chemicals or abrasive materials.

### 5.2 Battery Replacement

The VK63 quartz movement is powered by a battery. When the watch stops or the second hand begins to

skip, it indicates a low battery. Battery replacement should be performed by a qualified watch technician to ensure proper sealing and maintain water resistance.

### 5.3 Water Resistance Check

It is recommended to have the water resistance of your watch checked annually by a professional, especially if it is frequently exposed to water or if the case has been opened for battery replacement or service.

## 6. TROUBLESHOOTING

### 6.1 Watch Not Running

- **Check Battery:** The battery may be depleted. Refer to section 5.2 for battery replacement.
- **Crown Position:** Ensure the crown is fully pushed in and screwed down (if applicable).

### 6.2 Chronograph Hands Not Resetting to Zero

If the chronograph hands do not return to their zero position after pressing Pusher B, they may need calibration. Consult a professional watch technician for adjustment.

### 6.3 Water Inside the Watch

If you notice condensation or water inside the watch, immediately take it to a professional watch repair service. Do not attempt to open the watch yourself, as this can cause further damage.

## 7. SPECIFICATIONS

Feature	Specification
Model Number	PD1701
Movement	Japanese VK63 Quartz Chronograph
Case Material	Stainless Steel
Strap Material	Stainless Steel
Water Resistance	100 Meters (10 ATM)
Crystal	Sapphire
Clasp Type	Safety Folding Buckle
Package Dimensions	4.17 x 3.86 x 2.91 inches
Item Weight	9.91 ounces

## 8. WARRANTY AND SUPPORT

---

### 8.1 Warranty Information

Your HaiQin Pagani Design 1701 watch comes with a **1-year warranty** covering manufacturing defects and quality-related issues. Additionally, a **30-day money-back guarantee** is provided for quality-related concerns from the date of purchase.

The warranty does not cover damage resulting from improper use, accidents, unauthorized repairs, or normal wear and tear.

### 8.2 Customer Support

For any questions, technical assistance, or warranty claims, please contact your retailer or the manufacturer's customer service. Ensure you have your purchase details and watch model number available when contacting support.
