

ANPABO 24V 2 Seater Ride On Dump Truck

ANPABO 24V 2 Seater Ride On Dump Truck User Manual

1. IMPORTANT SAFETY INFORMATION

Please read this entire manual before assembling or operating the ANPABO 24V 2 Seater Ride On Dump Truck. Failure to follow these instructions may result in serious injury or property damage. Keep this manual for future reference.

- **Adult Supervision Required:** This product is intended for children aged 3-8 years (one child) or 2-4 years (two toddlers) and must always be operated under direct adult supervision.
- **Weight Limit:** The maximum load capacity for this vehicle is 110 lbs (50 kg). Do not exceed this weight limit.
- **Safety Belts:** Ensure children are securely fastened with the independent safety belts provided for each seat before operation.
- **Operating Environment:** Operate the vehicle on flat, level surfaces away from traffic, swimming pools, steep inclines, or other hazards. Avoid operating in wet conditions.
- **Protective Gear:** Always ensure children wear appropriate protective gear, such as a helmet, when operating the vehicle.
- **Charging:** Only use the provided charger and battery. Do not attempt to modify the electrical system.

2. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- ANPABO 24V 2 Seater Ride On Dump Truck (Main Body)
- Parental Remote Control
- 24V Charger
- Shovel

- Assembly Hardware (screws, washers, etc.)
- Instruction Manual

3. ASSEMBLY INSTRUCTIONS

Assembly of the ANPABO 24V 2 Seater Ride On Dump Truck requires adult assembly. Follow the detailed step-by-step instructions provided in the separate assembly guide included with your product. Ensure all connections are secure and all parts are correctly installed before first use.

Key Assembly Steps:

1. Attach the wheels and axles.
2. Install the steering wheel and dashboard components.
3. Connect the battery terminals.
4. Secure the seats and roll bar.
5. Install the electric dump bed and ensure its functionality.

4. CHARGING THE BATTERY

The vehicle is powered by a 24V 7Ah rechargeable battery. Proper charging is essential for battery longevity

and safe operation.

- **First Charge:** Before initial use, charge the battery for a minimum of 8-12 hours, but no longer than 18 hours.
- **Regular Charging:** After each use, recharge the battery for 8-12 hours. Do not overcharge.
- **Charging Procedure:**
 1. Locate the charging port on the vehicle.
 2. Plug the charger into a standard wall outlet.
 3. Connect the charger plug to the vehicle's charging port.
 4. The charger indicator light will typically show red during charging and turn green when fully charged.
- **Battery Care:** If the vehicle will not be used for an extended period, charge the battery once a month to maintain its health.

5. OPERATING INSTRUCTIONS

5.1 Driving the Vehicle

- **Start-up:** Insert the key into the ignition and turn it to the 'ON' position. The vehicle will produce realistic start-up sounds.
- **Acceleration:** Press the foot pedal to accelerate. Release the pedal to brake.
- **Steering:** Use the steering wheel to control the direction of the vehicle.
- **Speed Selection:** Use the speed buttons on the dashboard to select between different speed settings (3.7-5 mph).
- **Forward/Reverse:** Use the gear selector to switch between forward and reverse modes.
- **Towing Switch:** Ensure the towing switch is in the 'drive' position for the vehicle to move. If it is in '0' gear, the vehicle will not move.

24V Powerful Off-Road

5.2 Operating the Electric Dump Bed

The electric dump bed allows for interactive play, enabling children to load and unload items.

1. **Release Handle:** Pull out the handle located under the seat to unlock the dump bed mechanism.
2. **Tilt Control:** Use the joystick to tilt the dump bed up or down.
3. **Tailgate:** The tailgate is openable for easy unloading.
4. Use the included shovel to load lightweight items such as leaves, sand, or toys into the 1.19 Cu.ft capacity dump bed.

Image 5.3: A child using the included shovel to load material into the large, tiltable dump bed of the ride-on truck, demonstrating the joystick control for tilting.

Image 5.4: Visual instructions detailing how to operate the electric dump bed: 1. Pull out the handle under the seat. 2. Push the joystick to tilt the dump bed. 3. The tailgate is openable.

5.3 Music and Entertainment

The vehicle features a built-in music system with connectivity options.

- **Bluetooth:** Connect your smartphone or other Bluetooth-enabled device wirelessly to play music.
- **USB/AUX:** Use the USB port or AUX input to connect external media players and enjoy favorite songs or stories.

6. PARENTAL REMOTE CONTROL

The 2.4G parental remote control allows adults to safely guide the vehicle, especially for younger children, or to intervene in case of potential hazards.

- **Pairing:** Refer to the separate remote control pairing instructions for initial setup.
- **Functions:**
 - **Forward/Back:** Controls the vehicle's movement.
 - **Left/Right:** Controls steering.
 - **Speed:** Adjusts the vehicle's speed settings.
 - **'P' Button (Brake):** Press this button for an emergency stop. Press again to release the brake.
- **Override Function:** The remote control can override the child's manual driving input for enhanced safety.

Image 6.1: Illustration of the dual drive modes: Manual Mode (child driving) and Parent Remote Control. The remote control displays buttons for Forward, Back, Speed, Brake (P), Right, and Left.

7. MAINTENANCE

Regular maintenance helps ensure the longevity and safe operation of your ride-on truck.

- **Cleaning:** Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Storage:** Store the battery in a cool, dry place. If storing the vehicle for an extended period, disconnect the battery and recharge it monthly.
- **Tire Inspection:** Regularly check the EVA tires for wear and tear. Ensure they are free from debris that could affect performance.
- **General Inspection:** Periodically check all screws, nuts, and connections to ensure they are tight and secure.

8. TROUBLESHOOTING

If you encounter issues with your ANPABO Ride On Dump Truck, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Vehicle does not move	Battery is low or not connected; Towing switch in '0' gear; Loose wire connection; Overload protection activated.	Charge the battery; Check battery connections; Ensure towing switch is in 'drive'; Check all wire connections; Reduce load.
Vehicle moves slowly	Low battery; Overloaded; Operating on rough terrain.	Recharge battery; Reduce load; Operate on smoother surfaces.
Remote control not working	Remote not paired; Remote battery low; Interference.	Re-pair remote control (refer to remote manual); Replace remote batteries; Move to an area with less interference.

Problem	Possible Cause	Solution
Dump bed not tilting	Handle not pulled out; Motor issue; Overloaded.	Ensure handle is fully pulled out; Check for obstructions; Reduce load in dump bed.

If the problem persists after attempting these solutions, please contact ANPABO customer support.
