BrickSoul 75328-cv

BrickSoul LED Light Kit for LEGO The Mandalorian Helmet 75328

Model: **75328-cv**

Introduction

This instruction manual provides guidance for the installation and use of the BrickSoul LED Light Kit, designed to enhance the visual display of your LEGO The Mandalorian Helmet 75328 building set. This kit adds illumination to your model, providing additional detail and visual impact. Please note that the LEGO model itself is **not included** with this lighting kit.

Getting Started & Installation

The BrickSoul LED Light Kit is designed for straightforward installation. Detailed step-by-step instructions are available via online video and PDF guides. These guides will illustrate how to carefully integrate the lighting components into your LEGO The Mandalorian Helmet 75328 model.

Accessing Detailed Instructions:

To obtain the comprehensive installation manual, please follow these steps:

1. Receive your product.
2. Locate the URL or QR code on the product packaging.
3. Visit the provided URL or scan the QR code to access the manual page.
4. Download the PDF manual or view the online video guide.

General Installation Overview:

- **Preparation:** Ensure your LEGO model is fully assembled before beginning the light kit installation.
- **Component Placement:** The installation typically involves carefully removing a few existing LEGO bricks to route wires and place LED components.
- **Wiring:** The kit is designed for clean and integrated wiring, minimizing visible cables. Follow the guide to ensure wires are neatly tucked away.
- **Connection:** Connect the LED components to the provided battery box.

Operating Instructions

The BrickSoul LED Light Kit is powered by either a USB connection or AAA batteries (not included). The recommended input voltage is 3-5V.

- **Battery Power:** Insert the required number of AAA batteries into the battery box. Ensure correct polarity.
- **USB Power:** Connect the USB cable from the battery box to a compatible USB power source (e.g., a USB wall adapter, power bank, or computer USB port).
- **Activation:** The lights will illuminate once a stable power source is connected. If the battery box has an ON/OFF switch, use it to control the lights.

Maintenance

To ensure the longevity and optimal performance of your BrickSoul LED Light Kit, follow these maintenance guidelines:

- **Cleaning:** Gently dust the LED components and wires with a soft, dry cloth. Avoid using liquid

cleaners directly on the lights or electrical connections.

- **Handling:** Avoid excessive pulling or bending of the wires, as this can cause damage to the connections.
- **Storage:** If storing the model for an extended period, disconnect the power source (remove batteries or unplug USB) to prevent battery drain or potential damage. Store in a cool, dry place away from direct sunlight.

Troubleshooting

Issue	Possible Cause	Solution
Lights do not illuminate	No power, loose connection, depleted batteries.	Check if the USB cable is securely connected or if batteries are correctly inserted and charged. Ensure all light kit connections are firm.
Lights are dim	Low battery power, insufficient USB power.	Replace AAA batteries or try a different USB power source.
Some lights are not working	Damaged wire, loose connection to a specific light.	Carefully inspect the wiring for any visible damage or disconnections. Re-seat any loose connectors.
Lights appear to be different colors	Variations in LED color temperature.	Some LED components may have slight variations in color temperature (e.g., warm white vs. cool white) due to manufacturing processes. This is generally not a defect.

Specifications

- **Model:** 75328-cv
- **Material:** Acrylonitrile Butadiene Styrene (ABS)
- **Light Source Type:** LED
- **Power Source:** Battery Powered (AAA batteries, not included) or USB
- **Recommended Voltage:** 3-5 Volts
- **Product Dimensions:** 6.1"L x 5.18"W x 1.18"H (packaging)
- **Item Weight:** 4.6 ounces
- **Manufacturer:** BrickSoul

Warranty and Support

BrickSoul offers a worry-free warranty for its products. Should you encounter any accidental damage, such as a bent connector or a broken wire, replacements are available to ensure your building experience remains uninterrupted.

For further assistance, technical support, or warranty claims, please refer to the contact information provided on the product packaging or visit the official BrickSoul website. Our support team is dedicated to providing a smooth and satisfactory experience.
