BrickSoul 75375 Upgrade Design

BrickSoul LED Light Kit for LEGO Millennium Falcon 75375 (Upgrade Design)

Model: 75375 Upgrade Design | Brand: BrickSoul

INTRODUCTION

This instruction manual provides comprehensive guidance for installing and operating your BrickSoul LED Light Kit, specifically designed for the LEGO Millennium Falcon 75375 building set. This kit enhances the visual appeal of your model by illuminating key features, bringing it to life with dynamic lighting effects. Please note that the LEGO model itself is not included with this lighting kit.

SAFETY INFORMATION

- Keep small parts away from children to prevent choking hazards.
- Handle wires and LED components with care to avoid damage.
- Ensure power source (USB or AAA batteries) meets the recommended 3-5V input. Do not exceed specified voltage.
- Do not immerse the light kit or any components in water.
- If any component is damaged, discontinue use and contact support.

PACKAGE CONTENTS

Verify that all components are present in your BrickSoul LED Light Kit package:

- LED Light Kit components (various lights and connecting wires)
- Battery Box (AAA batteries not included)
- USB Power Cable
- Installation Guide (online video/PDF access)

Light Kit Only – Not Model

Package Include:

SETUP AND INSTALLATION

The BrickSoul LED kit is designed for straightforward installation. Follow the detailed online video and PDF guides for the best results. It is recommended to have your LEGO Millennium Falcon 75375 model assembled before beginning the light kit installation.

1. **Access Online Instructions:** Scan the QR code provided in your package or visit the BrickSoul website to access the step-by-step video and PDF installation guides.

2. **Prepare Your Model:** Carefully identify the sections of your LEGO model where lights will be installed. Some bricks may need to be temporarily removed to integrate the wiring.
3. **Connect Components:** Follow the numbered bags and instructions to connect the LED lights and wires. Ensure all connections are secure. The wiring is designed to fit neatly within the model structure.
4. **Integrate Lights:** Place the LED components into their designated positions on the model. The online guide will show precise placement for optimal illumination.
5. **Power Connection:** Connect the assembled light system to the battery box or a USB power source.

BRINGING EVERY DETAIL TO LIFE

Model is for Display Use Only and NOT INCLUDED

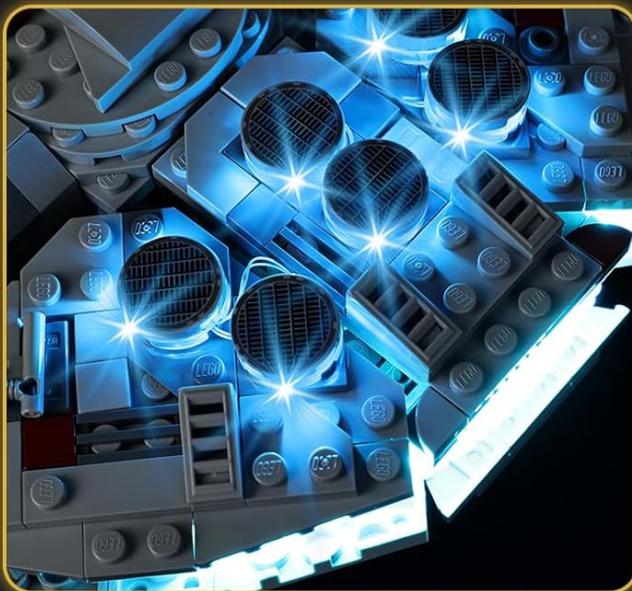

Image: Detailed views of the LEGO Millennium Falcon 75375 model with the light kit installed, highlighting the illuminated engines, cockpit, and other intricate parts.

Once installed, operating your BrickSoul LED Light Kit is simple:

- **Power On/Off:** If using the battery box, ensure fresh AAA batteries are inserted. Connect the USB cable to the battery box or a compatible USB power adapter (not included). The lights should illuminate automatically. Disconnect the power source to turn off.
- **Display:** Position your illuminated LEGO Millennium Falcon 75375 model in your desired display location to showcase its enhanced visual effects.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the LED components and wires. Avoid using liquid cleaners directly on the lights or electrical connections.
- **Battery Replacement:** If using the battery box, replace AAA batteries when lights dim or cease to function. Ensure

correct polarity when inserting new batteries.

- **Storage:** If storing the model for an extended period, disconnect the power source and remove batteries from the battery box.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply. Incorrect battery installation. Loose connection. Damaged component.	Ensure USB cable is connected to a working power source or fresh batteries are in the battery box. Check battery polarity. Verify all wire connections are secure. Contact BrickSoul support if components appear damaged.
Lights are dim.	Low battery power. Insufficient power supply.	Replace AAA batteries. Ensure USB power source provides adequate voltage (3-5V).
Individual lights not working.	Loose connection to specific LED. Damaged LED or wire.	Check the connection for the affected light. Contact BrickSoul support for replacement parts.

SPECIFICATIONS

- **Product Dimensions:** 6.1 x 5.18 x 1.18 inches
- **Item Weight:** 4.8 ounces
- **Model Number:** 75375-cv (Upgrade Design)
- **Power Input:** USB or 3x AAA Batteries (not included)
- **Recommended Voltage:** 3-5V
- **Material:** ABS Plastic, Copper Wire
- **Manufacturer Recommended Age:** 14 years and up
