2. PRODUCT OVERVIEW AND COMPONENTS

The BrickSoul LED Light Kit includes various components designed for seamless integration with your LEGO 21330 set. These components are crafted for durability and optimal lighting performance.

- **Cable Interface:** Reinforced, high-quality light cables for secure connections.
- **Battery Box:** Provides power to the lighting system (batteries not included).

- **Lighting Accessories:** Exquisite and delicate components ensuring quality illumination.
- **LED Lighting:** Provides excellent and stable lighting effects throughout your model.

Add our led light kit to your model and it will stand out amongst the model!

3. SETUP AND INSTALLATION

Detailed, step-by-step installation instructions are provided online to guide you through the process. These e-manuals feature zoomable pictures for clear visibility of each step.

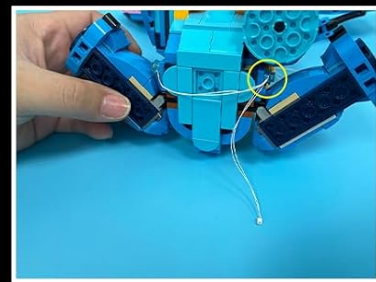

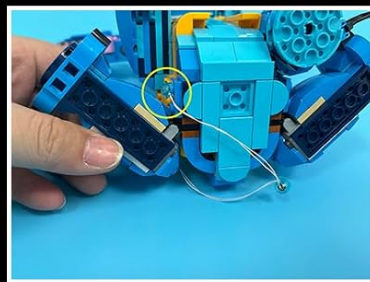

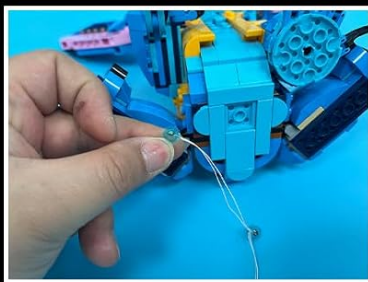

- **Accessing Instructions:** Visit the official BrickSoul support website at <https://support.bricksoultoy.com/> and search for your model (LEGO 21330).
- **Preparation:** Ensure your LEGO 21330 model is fully assembled before beginning the light kit installation.
- **Component Placement:** Follow the online guide to carefully integrate the LED lights and cables into your LEGO structure. The design allows for a seamless fit without altering the original LEGO bricks.
- **Power Connection:** The kit supports multiple power supply methods, including a USB power cord (for connection to

a power bank, USB hub, or computer) or a battery box (requires batteries, not included).

5. MAINTENANCE

To ensure the longevity and optimal performance of your BrickSoul LED Light Kit, follow these general maintenance guidelines:

- **Cleaning:** Gently dust the LED components and wires with a soft, dry cloth. Avoid using liquid cleaners directly on the lights or electrical connections.
- **Handling:** Handle the wires and LED components with care to prevent damage. Avoid excessive bending or pulling.
- **Storage:** If disassembling the kit for storage, carefully coil wires and store components in a dry, dust-free environment.
- **Power Source:** When using a battery box, replace batteries as needed. If using USB power, ensure the connection is secure and the power source is stable.

6. TROUBLESHOOTING

If you encounter issues with your BrickSoul LED Light Kit, consider the following common troubleshooting steps:

- **Lights Not Turning On:**
 - Check all power connections to ensure they are secure.
 - If using a battery box, verify that the batteries are correctly inserted and have sufficient charge.
 - If using a USB power source, try a different USB port or power adapter.
- **Flickering Lights:**
 - Inspect wire connections for any loose contacts.
 - Ensure the power supply is stable and providing adequate current.
- **Individual Lights Not Working:**
 - Carefully check the connection of the specific light.
 - Avoid excessive force during installation, which can damage delicate LED components.
