## BrickSoul 21333-cv

# BrickSoul Light Up Kit for LEGO The Starry Night 21333 Building Set Instruction Manual

Model: 21333-cv | Brand: BrickSoul

## INTRODUCTION

The BrickSoul LED lighting kit is designed to be compatible with the LEGO The Starry Night 21333 Building Set. This kit transforms your model into a vibrant display piece, adding stunning detail and creating a dramatic visual impact. It is perfect for showcasing your LEGO set in your home, office, or on a collector's shelf. Please note: The LEGO model is for display purposes only and is not included with this lighting kit.

## WHAT'S IN THE BOX

- Vincent Van Gogh The Starry Night LED Light Up Kit
- Battery Box

# Light Kit Only – Not Model

## Package Include:

Image: The BrickSoul Light Up Kit package contents, including light kits, instructions, and a battery box (AAA batteries not included).

## SAFETY INFORMATION

No specific safety warnings are applicable beyond general electrical safety precautions. Always ensure the power source is within the recommended 3-5V range. Keep small components away from young children to prevent choking hazards.

## INSTALLATION GUIDE

The BrickSoul LED kit is designed for easy installation. It comes with step-by-step numbered bags and clear online video/PDF guides. Simply remove a few bricks from your LEGO model and follow the instructions. Even first-time users can install it easily and enjoy the fun of lighting their building set.

This lighting kit integrates neatly into your model for a smooth, professional look, ensuring no tangled wires or clutter. The design enhances your display without getting in the way of the original model's aesthetics.

## Digital Instructions

This product does not include a paper manual. Detailed digital instructions (PDF and video guides) are available online. You can access them by scanning the QR code provided with the product or by inputting the product model

query on the manufacturer's website.

### MAINTENANCE

The lighting components are made from premium ABS plastic and copper wire, designed for durability. To maintain optimal performance and appearance:

- Keep the kit clean by gently dusting with a soft, dry cloth.
- Avoid exposing the kit to excessive moisture or extreme temperatures.
- Ensure all connections are secure and wires are not pinched or strained.

### TROUBLESHOOTING

If your lighting kit is not functioning as expected, consider the following:

- **No Lights:** Check that the USB power source is connected and providing the recommended 3-5V. Ensure all wire connections are firmly seated.
- **Flickering Lights:** This may indicate a loose connection. Re-check all wire connections, especially at the power source and between light strips.
- **Partial Lighting:** If only some lights are working, inspect the connections to the non-working sections. A specific light strip or component might be disconnected.
- **Wires Damaged:** The kit is engineered to prevent damage during installation. If wires appear damaged, contact customer service for assistance.

For further assistance, refer to the detailed online video/PDF guides or contact BrickSoul customer service.

### SPECIFICATIONS

Feature	Detail
