Coolfiqu LP-2113

Coolfiqu 6L Warm and Cool Mist Humidifier User Manual

Model: LP-2113

1. IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all safety instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always remove the white foam from the base of the humidifier before initial use.
- Do not inject water beyond the maximum water level line indicated on the tank.
- Do not add water directly into the base chamber or mist tube. Always use the top-fill opening.
- Do not add essential oils or supplemental water treatment liquids directly into the water tank. Use only the designated essential oil diffuser tray.
- The humidifier includes an anti-dry burn function. If the water level drops too low, a red indicator light will activate, and the device will shut off automatically to prevent damage. Refill the tank and restart.
- When cleaning the atomizing sheet, use only a soft brush to avoid damage.

2. PRODUCT OVERVIEW

2.1 Key Features

- **Warm and Cool Mist Options:** Provides both warm and cool mist for versatile use.
- **Large 6L Capacity:** Offers extended operation time, up to 60 hours per fill.
- **Convenient Top-Fill Design:** Easy water refilling without removing the tank.
- **360° Rotating Nozzle:** Allows for mist dispersion in any desired direction.
- **3 Levels of Mist Adjustment:** Customize mist output to suit your environment.
- **Automatic Humidity Control:** Smart sensor regulates humidity for optimal levels.
- **Sleep Mode:** Operates quietly with the LED screen off for undisturbed rest.
- **Essential Oil Diffuser:** Integrated tray for aromatherapy with essential oils.
- **Anti-Dry Burn Protection:** Automatic shut-off when water levels are low.

2.2 Components

Familiarize yourself with the main parts of your Coolfiqu humidifier:

- Water Tank (6L capacity)
- Base Unit with Control Panel
- Nozzle Cap
- Essential Oil Diffuser Tray
- Water Filter
- Nebulizer Tablet (inside the base)

3. SETUP

Follow these steps to set up your humidifier for the first time:

1. **Unpack:** Carefully remove the humidifier and all packaging materials from the box.
2. **Remove Foam:** Locate and remove the white protective foam from the base of the unit. This is crucial for proper operation.
3. **Assemble Nozzle Cap:** Align the nozzle cap with the humidifier cup lid and press them firmly together to assemble.
4. **Place Lid:** After assembly, place the cup lid onto the water tank.
5. **Check Fittings:** Ensure all internal fittings and accessories are correctly installed and secured.
6. **Placement:** Place the humidifier on a flat, stable, and water-resistant surface, away from direct sunlight or heat sources.

Installation steps

① Tear off the tape

② Remove foam from the base

Align the nozzle cap with the humidifier cup lid, and then press them to assemble

Nozzle cap aligned with opposite side of humidifier cup lid

After that, place the assembled cup lid on the water tank

4. OPERATION

Operating your Coolfiqu humidifier is straightforward:

1. **Fill Water Tank:** Open the top lid and pour clean water directly into the tank. Do not exceed the 'MAX 6L' indicator.
2. **Power On:** Plug in the humidifier and press the 'ON/OFF' button on the control panel to turn it on.
3. **Select Mist Type:** Use the 'WARM/COOL' button to switch between warm and cool mist modes.
4. **Adjust Mist Level:** Press the 'MIST LEVEL' button to cycle through the three available mist output settings.
5. **Set Humidity:** Use the 'HUMIDITY' button to set your desired humidity percentage. The humidifier will automatically adjust output to maintain this level.
6. **Activate Sleep Mode:** Press the 'SLEEP' button to enter sleep mode. The LED screen will turn off, and the humidifier will operate quietly.
7. **Use Essential Oil Diffuser:** Pull out the small tray located on the side or back of the base unit. Add a few drops of your preferred essential oil to the pad in the tray, then reinsert the tray.

5. MAINTENANCE

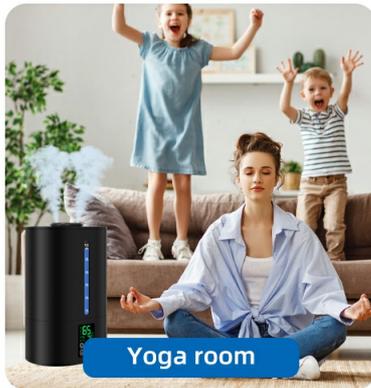

Regular cleaning and maintenance ensure optimal performance and longevity of your humidifier.

1. **Flush Tank and Base:** Periodically flush the water tank and base chamber with clean water to

remove any residue.

2. **Clean Gaps:** Use a cleaning brush to clean corners and gaps within the unit.
3. **Clean Atomizing Sheet:** Gently clean the atomizing sheet with a soft brush. Avoid harsh scrubbing to prevent damage.
4. **Filter Cleaning:** Lift the filter by rotating it clockwise to remove. Clean the filter under running water and reinsert.
5. **Gasket Maintenance:** Clean the gaskets once a week to prevent clogging and potential leaks.
