Joie Chili Spin 360 Convertible Car Seat Instruction Manual

Model: Chili Spin 360

1. INTRODUCTION AND OVERVIEW

This manual provides essential instructions for the safe and proper use, installation, and maintenance of your Joie Chili Spin 360 Convertible Car Seat. Please read all instructions carefully before using the car seat and retain this manual for future reference.

The Joie Chili Spin 360 is a versatile 2-in-1 rotating convertible car seat designed for infants and toddlers, accommodating children from approximately 4 lb to 65 lb. Its primary features include a 360° rotating seat, multiple recline positions, and a no-rethread harness system.

2. SAFETY INFORMATION

Your child's safety is paramount. Always adhere to the following safety guidelines:

- Always secure your child in the car seat using the 5-point harness system.
- Ensure the car seat is correctly installed in your vehicle according to the instructions provided in Section 3.
- Never leave your child unattended in the car seat.
- Do not use the car seat if it has been involved in a crash, even if there is no visible damage. Replace it immediately.
- Refer to the weight and height limits in the Specifications section to ensure appropriate use for your child.
- The car seat is equipped with side impact protection to enhance safety during collisions.

3. SETUP AND INSTALLATION

The Joie Chili Spin 360 offers flexible installation options using either the vehicle's lower anchor

attachments (LATCH) or the vehicle's seat belt. The built-in LockTight lock-off system simplifies secure installation.

3.1 Rear-Facing Installation (4-40 lbs)

1. Position the car seat in the rear-facing orientation on your vehicle's seat.
2. Select an appropriate recline position for rear-facing use (refer to the recline indicator).
3. **Using Lower Anchors (LATCH):** Locate your vehicle's lower anchor bars. Attach the car seat's lower anchor connectors to these bars. Tighten the LATCH strap until the car seat is securely installed and moves less than 1 inch side-to-side and front-to-back at the belt path.
4. **Using Vehicle Seat Belt:** Route the vehicle's lap and shoulder belt through the designated rear-facing belt path. Engage the LockTight lock-off mechanism. Buckle and tighten the vehicle seat belt until the car seat is securely installed and moves less than 1 inch side-to-side and front-to-back at the belt path.

3.2 Forward-Facing Installation (30-65 lbs)

1. Position the car seat in the forward-facing orientation on your vehicle's seat.
2. Select an appropriate recline position for forward-facing use.
3. **Using Lower Anchors (LATCH):** Attach the car seat's lower anchor connectors to your vehicle's lower anchor bars. Tighten the LATCH strap. Additionally, attach the top tether strap to the vehicle's top tether anchor point and tighten.
4. **Using Vehicle Seat Belt:** Route the vehicle's lap and shoulder belt through the designated forward-facing belt path. Engage the LockTight lock-off mechanism. Buckle and tighten the vehicle seat belt. Additionally, attach the top tether strap to the vehicle's top tether anchor point and tighten.

4. OPERATING INSTRUCTIONS

The Joie Chili Spin 360 is designed for ease of use with several adjustable features.

4.1 360° Rotation

The car seat features a 360° rotation function to facilitate easier child placement and removal, and to switch between rear-facing and forward-facing positions. To rotate the seat, locate the rotation lever (usually at the front of the base) and engage it while turning the seat.

Image 4.1: Car seat rotated for child access.

4.2 Harness Adjustment

The car seat includes a 10-position no-rethread adjustable headrest and harness system. To adjust the harness height, simply squeeze the adjustment handle at the top of the headrest and slide it up or down to the desired position. Ensure the harness straps are at or below the child's shoulders for rear-facing and at or above the child's shoulders for forward-facing.

4.3 Recline Positions

The car seat offers multiple recline positions to ensure comfort and proper angle for your child. To adjust the recline, locate the recline lever (usually at the front of the base) and pull it while adjusting the seat to the desired angle. Refer to the recline indicator for correct positioning based on your child's age and car seat orientation.

Image 4.2: Overview of key car seat features.

4.4 Securing Your Child

1. Place your child in the car seat.
2. Bring the harness straps over your child's shoulders and buckle the chest clip and crotch buckle.
3. Tighten the harness straps by pulling the adjustment strap until they are snug against your child's body. You should not be able to pinch any excess webbing at the child's shoulder.
4. Position the chest clip at armpit level.

Image 4.3: Securing a child in the car seat.

5. MAINTENANCE

Regular cleaning and maintenance will help prolong the life of your car seat.

- **Fabrics:** The car seat fabrics are machine-washable. Refer to the care label on the fabric for specific washing instructions. Use cold water and a gentle cycle. Do not bleach. Air dry.
- **Harness Straps:** Spot clean harness straps with a damp cloth and mild soap. Do not machine wash or immerse harness straps in water, as this may weaken them.
- **Plastic Parts:** Wipe plastic parts with a damp cloth and mild soap.
- **Buckle:** Clean the buckle by rinsing it with warm water. Do not use detergents or lubricants.

6. TROUBLESHOOTING

If you encounter issues with your Joie Chili Spin 360 car seat, please review the following common concerns:

- **Car Seat Not Secure:** Ensure the LATCH connectors or vehicle seat belt are routed correctly and tightened sufficiently. The car seat should not move more than 1 inch at the belt path. Verify the

LockTight lock-off is engaged.

- **Harness Difficult to Tighten/Loosen:** Check for twists in the harness straps. Ensure the harness release button is fully pressed when loosening. If the harness is still stiff, ensure no fabric is obstructing the mechanism.
- **Seat Rotation Stiff:** Ensure the car seat is not installed too tightly against the vehicle seat, which can impede rotation. Verify the rotation lever is fully engaged.
- **Child Uncomfortable:** Adjust the recline position and headrest height to ensure a proper fit for your child. Check that the harness straps are at the correct height relative to your child's shoulders.

If problems persist, consult the full product manual or contact Joie customer support.

7. SPECIFICATIONS

Feature	Specification
Product Dimensions	20.75 x 18.39 x 26 inches
Minimum Weight Recommendation	4 Pounds
Maximum Weight Recommendation	65 Pounds (30 Kilograms)
Maximum Height Recommendation	49 Inches
